Assembly Recommendations

Read instructions, cover to cover

Have 2-4 adults on hand for assembly depending on product size

Do not assemble directly on flooring or carpet

Assemble on a clean non-marring surface (example: packing foam)

Save all packaging until finished

3.Assembly Notice:

☒ If you encounter any problems during assembly and find that you cannot continue, rest assured we will help you solve the situation as soon as possible. Simply keep all of the parts of the product stored in a safe place and contact us immediately so we may assist you further.

Once you have opened your package, remove all inner hardware packages and take the parts out. One by one, Lay out the parts neatly in front of you, then refer to the instructions to confirm that no parts are missing.

If any pieces are found missing, please carefully look in the box first, as the hardware packaging might have torn making the hardware spill in the box.

☒ Some key parts of your product may be stored and hidden inside of other parts.

Please open any zippered or hook & loop storage compartments to remove all parts. (For example: LED lights may be stored in the bottom or middle compartment of the product.)

☒ **IMPORTANT:** During setup, DO NOT FULLY TIGHTEN THE SCREWS AT FIRST.

Place each screw into its proper hole and use your hand to twist the screw halfway. Twist all the screws halfway to ensure the holes align correctly and the product is level on the ground. When everything seems properly fitted, then tighten the screws. Please strictly follow the order of each step as outlined in the manual to make your installation easier and the product fit better.

☒ When you have completed assembly, we suggest you have more than one person to assist you with lifting and placing the product.

Surface Maintenance Recommendation

1. Avoid using hard objects to scratch the chair surface. The leather fabric is wear-resistant, but it is easy to be scratched by hard objects. The sharp items such as scissors and razors used in the hair salon need to be placed properly. In addition, guests' zippers, and buttons may scratched the leather surface of the Massage Bed.
2. The leather surface material needs regular care. You can use the leather surface curing agent to spray and wipe the surface of the bed from time to time for maintenance. If the bed surface is stained with dyes, perm agents and other difficult-to-clean items, please wipe it off immediately to avoid from surface staining.
