How to install the Wall Sconces Fixture

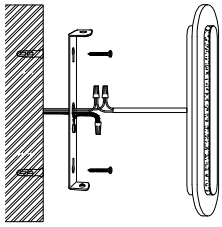

1

Unscrew the two nuts from the fixture base and remove the mounting bracket.
Mount the bracket to the wall using screws.

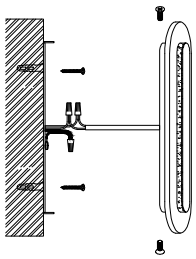

2

Connect the house live wire to the blue wire from the light fixture using a wire connector.Attach the neutral wire from the house to the brown wire from the light fixture. Then, attach the ground wire from the house to the copper wire from the light fixture the same way. Wrap all wire connections with electrical tape for a more secure connection. Carefully tuck all wire connections into the outlet box.

3

Attach the lamp body to the hanging plate with screws

4
