Dawning Bloom 2

D2798S55950-4703

In Dawning Bloom 2, a close-up photograph uses balanced neutral tones to capture a Starflower in fine detail. Composed of a stunning bouquet of delicate taupe accents, slender vertical lines gracefully flow from the petals' outer edges down toward a center star. Placing much of the emphasis on the right-side of the visual plane, this work on textured paper creates a distinctive and highly tactile visual that pops against the white background. A beautiful companion piece to Dawning Bloom 1, Dawning Bloom 2 is an original and alluring botanical print on textured paper.

► Textured Paper, F1350 - Pewter Patina Cap Frame - Width: 1.125
