

installation instruction

Step description

1. Figure A Fix the lamp handle on the ring with a nut.
2. Figure A: Fix the wood strip with the ring with screw bars, nuts, and fixing plates. Install from bottom to top.
3. Figure B: Insert the round electrical box into the screw port on the top of the wooden bar and turn the nut to fix it.
4. Figure B Put the cover of the power supply box on the bottom of the power supply box and rotate it with a ball nut.
5. Figure C. Drill holes in the corresponding holes on the ceiling plate, insert expansion screws and fix the plate.
6. Figure C. Pass the ceiling box through the chain, and use the chain screw to connect the center screw rod of the hanging plate to fix the chain. The ceiling box can be moved up and down in this step, which is convenient for wiring later.
7. Figure C Install the lamp tube, and the light bulb will hang the lamp body on the chain lock and lock it.
8. Figure D Connect the power cords according to the lines L, N, PE, etc. The back cover is screwed tightly, and then the nut is fixed to the ceiling box; the bottom ball is installed.
9. Turn on the power test lamp in a safe environment.

Accessories details

Precautions

- 1: Do not install the lamp in a wet place such as a bathroom or outdoors.
- 2: Do not install on top of high temperature objects. Do not install them directly above objects such as stoves, gas and exhaust pipes to avoid damage.
- 3: In order to ensure safety, when repairing and inspecting the lamps, please entrust the electrical professional to operate. Non-professional construction is prone to danger.
- 4: When the lamp is abnormal, please cut off the power quickly and ask the professional to check the repair.

Instructions

- 1: Please turn off the main power supply before installing the luminaire, do not work with electricity to avoid the risk of electric shock.
- 2: When installing glass or fragile accessories, please take it lightly.
- 3: Pay attention to the tool, do not scratch the metal plating surface, otherwise it will affect the appearance and rust.
- 4: After the installation is completed, the mode is good. After leaving, turn on the power and start working.
