Application

This product is suitable only for small items like underwear, socks, towels, diapers, baby clothes, and delicate such as woolsens, silks, and knitted dresses. It is ideal when you only have a few items to wash and it can be used in RVs, camping, apartments, and dorms. You also use it to wash vegetables.

How to Use

Step 1: Place the machine on a flat countertop and open its lid.

Step 2: Put in your laundry, and detergent, and add the appropriate amount of water.

Step 3: Close the lid and open the handle.

Step 4: Hold the handle and rotate it to start the cleaning job

Step 5: When the washing is finished, put the drainpipe down and pull out the plug to drain.

Step 6: Open the lid, lay the clothes flat, then close the lid and rotate the handle to drain the water.

Notes

1. Please check the product size before ordering to make sure it fits your needs.
2. This product holds up to 3.17gal of water.
3. Please note that this product is not suitable for bulky or winter clothing (jeans, jackets, bedsheets, quilt covers).
4. Please note that due to the high-speed dehydration, this product will have a slight shaking, which is a normal phenomenon. If the shaking is too big, please loosen the handle, and hold the product steady with both hands, when the basket inside stops rotating, put the clothes evenly, and then cover the lid for dehydration.
5. Please note that when moving the product, please do not force upward to lift the product, so as not to damage the foot pad, the product will be moved flat out of the table.
6. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before you order.
