Application

This product is widely used in fast food restaurants, cafeterias, kitchens, hotels, restaurants, snack bars, schools, hospitals, and cafeterias, and is ideal for serving steaming hot food, juices, snacks, desserts, or other delicacies.

Notes

1. Please note that although the surface of this product is **non-slip**, it is still recommended that it should be held as flat as possible to avoid accidents.
2. Please note that the product should not touch the heat conduit when used in a microwave oven.
3. Please allow the slight color difference caused by the shooting light and the 1-3 cm error due to manual measurement, and make sure you do not mind before ordering.
