⚠ Please note: Items cannot be returned once assembled.

XQS

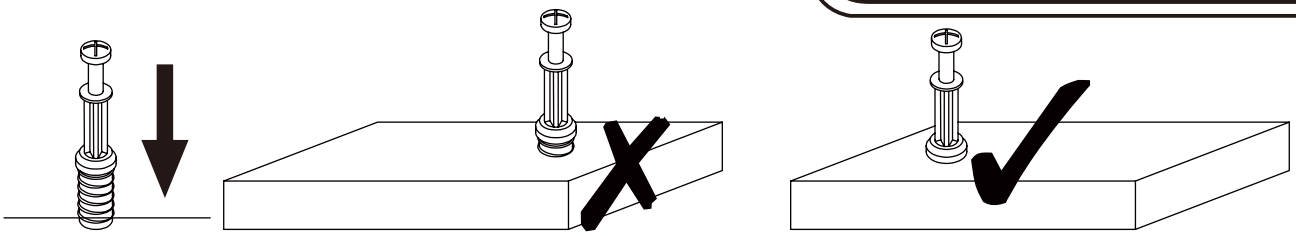

HLG211

Version:1.0

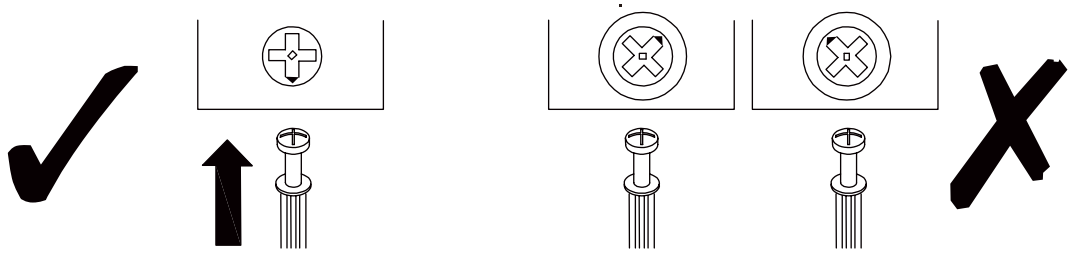

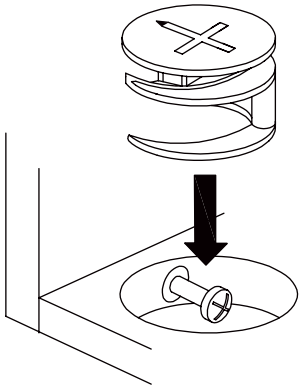

***EN*_IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY.**

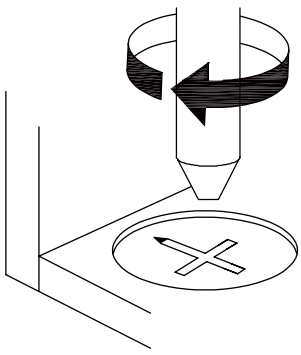

EN_QUICKFIT: Tighten quickfit until shoulder is flush with panel. Do not overtighten or undertighten.

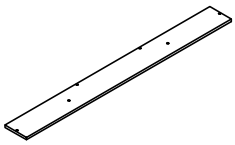

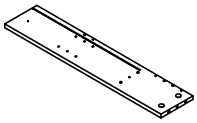

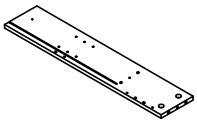

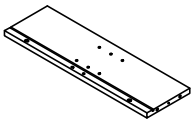

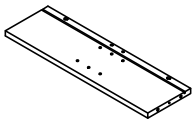

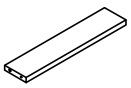

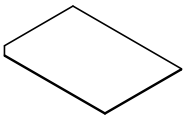

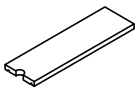

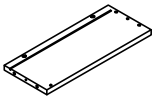

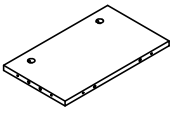

EN_CAM LOCK: When fitting cam lock, ensure starting position is correct before you insert connecting quickfit.

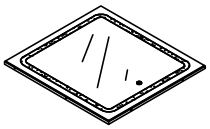

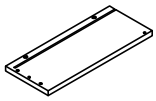

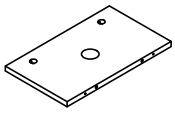

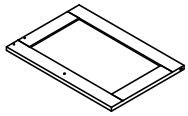

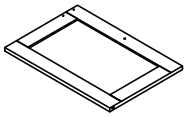

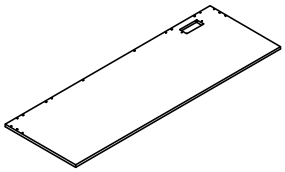

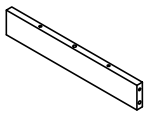

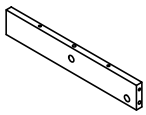

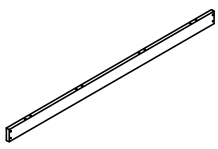

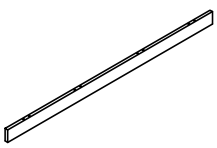

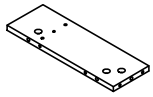

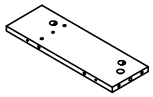

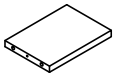

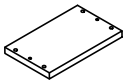

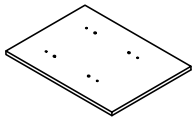

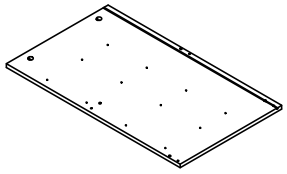

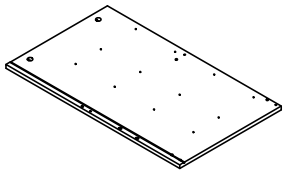

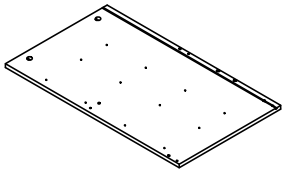

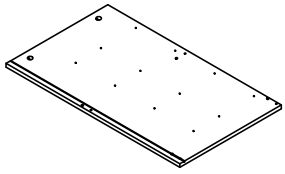

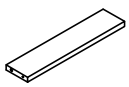

EN_ Quickfit head should be in the centre of the cam lock when the two panels are joined.
Cam lock should be inserted before quickfit.

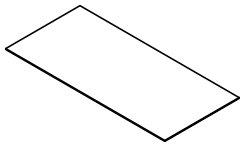

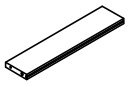

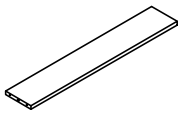

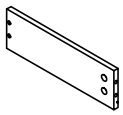

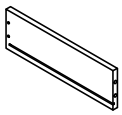

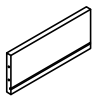

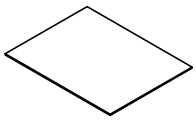

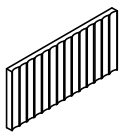

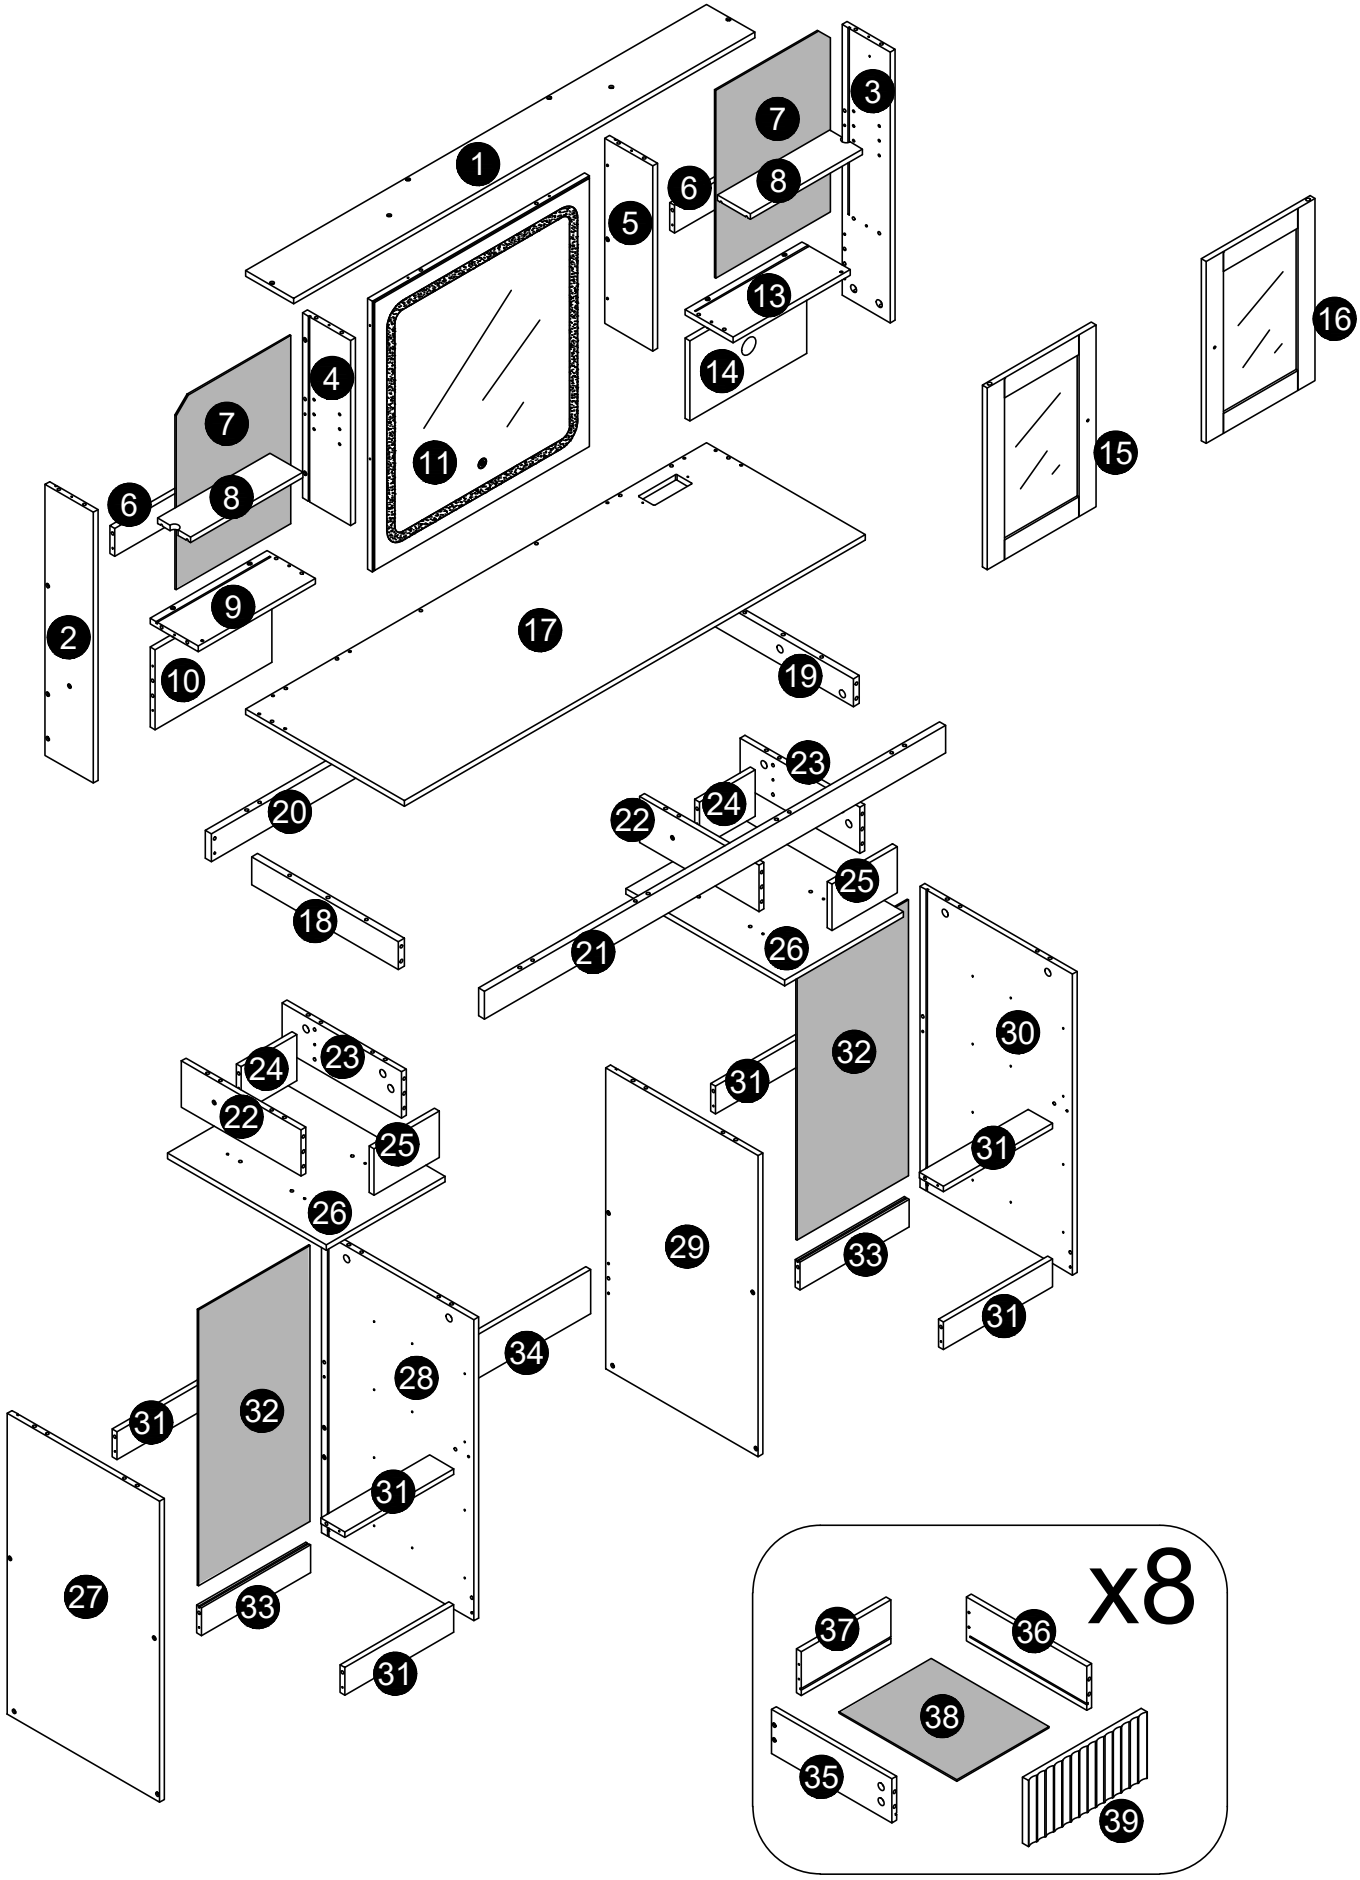

EN_ Turn cam lock clockwise to tighten.

Done

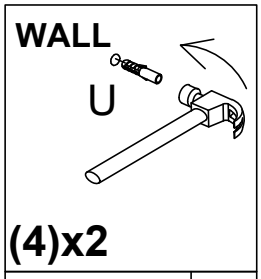

First fix the anti-rewind screw in the reserved hole of the product.

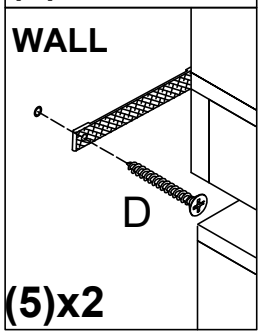

then, use a ruler to measure the approximate height of the product on the wall, and then mark it witha pen.

Then use a tape drill to make holes in the wall that are suitable for the product screws.

Then,put the expansion bolt into the hole

Finally,pass the matching screws throughthe "anti-rewind" and tighten themto fix them on the wall.
