Drill

Wallace Steampunk 3 Way Bar Clear Glass Shades

DIA.1

DIA.1 Mark the positions of the fixing holes onto the surface ensuring that they align to the mounting holes on the fixing bracket. Drill holes on the marked positions with a 5mm drill bit. Locate the plugs and fit the fixing bracket in place (using the screws provided) taking care not to damage any of the supply wires or any sunken pipes.

DIA.2

DIA.2 Replace the back plate and secure to the fixing bracket using the finials.

DIA.3

DIA.3 Make the electrical connections in accordance with the diagram above. Fix the backplate to the fixing bracket with the side screws provided, taking care not to trap any supply wires

DIA.4

DIA.4 Fit the decorative shade, secure with the shade ring. Note: the thumb screws are decorating and are not intended to secure the glass shade. Insert the bulb (not supplied), refer to the wattage label for the type and wattage, do not exceed the wattage indicated on the label.

IMPORTANT:

- Mains Voltage: 230/240V – 50Hz
- This lamp is double insulated (Class I) and requires an earth connection.

USER ADVICE

- Keep all packaging until after a successful installation and retain instructions for future use
- The design of the lamp may vary slightly from the illustration

LOCATION:

- Indoor use only
- Ensure the lamp is in a location where the power cable will not cause an accident

INSTALLATION:

- Fit the bulb (do not exceed the wattage stated on the product (Dia.4))

SAFETY:

- Before inserting or replacing bulbs make sure that the light is unplugged and has cooled down.
