

GENERAL CARE

With thoughtful care, our upholstered furnishings will last for many years. To ensure durability, lasting comfort, and enduring beauty, follow these guidelines to protect the fabric, filling, frame, and finish of your furniture:

Keep sharp objects away from upholstery.

Keep furniture clear from chemicals and harsh cleaners to avoid discoloration and damage to the fabric, leather, wood, or metal.

To avoid stiffening or depigmentation, place furniture at least 16 inches away from sources of heat or cold.

Avoid prolonged exposure to dampness or wetness.

Avoid constant direct sunlight to prevent fading or discoloration.

Vacuuming with a soft brush attachment also is recommended to remove any dust and debris that may accumulate in crevices, around buttons, in the welting or underneath cushions.

If a liquid or other substance leaves a stain or water mark, we recommend contacting a professional cleaning service. Never use cleaning solutions on your leather furniture.
