

NO. 1101 INSTALLATION INSTRUCTIONS

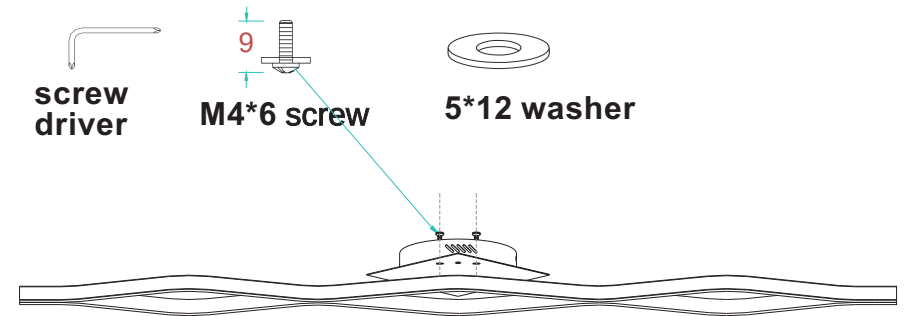

Please Scan the QR code to watch the installation video. If you have any questions, please feel free to contact us through the order page.

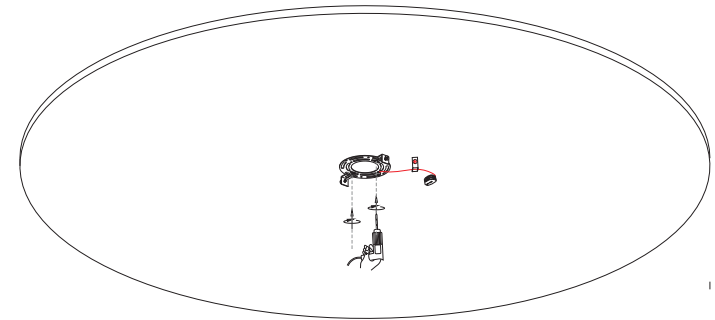

Warning:

1. Installation should be performed by a professional.
2. To prevent electric shock, please turn off the power before installing, repairing, or cleaning the light fixture.
3. This light fixture operates within a 110V to 265V range only.
4. Do not install the light fixture in damp conditions.
5. Keep the light fixture away from acidic and corrosive materials.

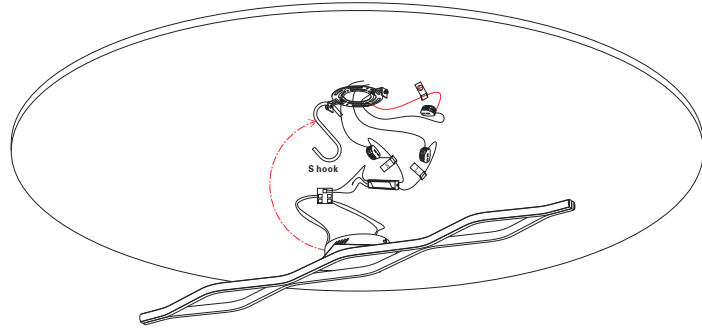

Specific Installion Steps:

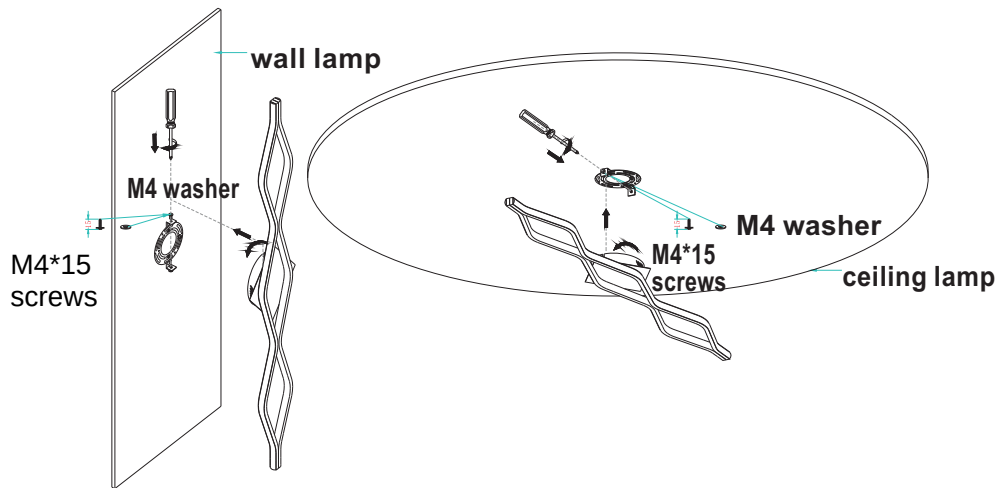

1. Secure the lamp body to the canopy using M4*6 screws and 5*12 washers with the screwdriver.

2. Secure the bracket onto the ceiling with specific screws (see figure A).

3. Hook the lamp body , and connect the L/N wire of the lamp to the L/N wire of the power line in the state of power off (see figure B).

4. Insert the screws into the side holes of the mounting bracket, then push and rotate the lamp body to secure it into the side clips of the canopy, and tighten the screws.
Note: This fixture can be used as both a wall lamp and a flush mount ceiling lamp.

Installation Instructions for Mounting Bracket

While the installation process is straightforward, it is recommended that two individuals collaborate. This ensures efficient assembly of components and optimal safety when mounting to the ceiling.
