In addition to installing the restraints, to help prevent tip-over:

- 1. Place heaviest items in the lowest drawers,
- 2. Unless specifically designed to accommodate, do not set TV's or other heavy objects on top of this product,
- 3. Never allow children to climb or hang on drawers, doors, or shelves.
- 4. Do no leave drawers open,
- 5. Never open more than one drawer at a time, and
- 6. Do not step on the base.

Assembly Preparation				
Before Beginning Assembly:				

Read instructions, cover to cover-

Have 2 adults on hand for assembly-

Do not assemble on flooring or carpet-

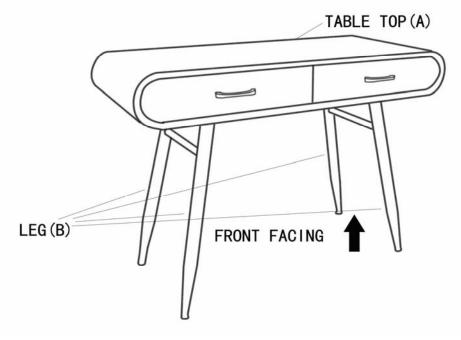

Assemble on a clean non-marring surface (packing foam)-

Save all packaging until finished-

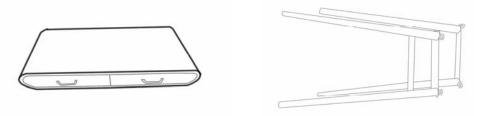

Assembly Steps

Overview

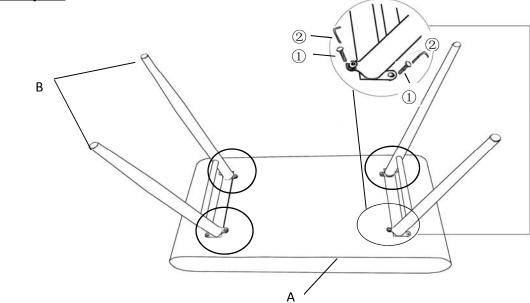

This Table has multiple parts and may require up to some 30 minutes to assemble. To give you an overview of the Table parts, the above picture is to help you put the various parts into perspective. Please read through the instructions herebelow to familiarise yourself with the parts and steps before assembly.

Step 1

Unpack and place all parts on a clean, non-marring surface.with the help of your adult partner.

Step 2

Insert the Leg into the leg position in the Table Top(A). Attach the Leg(B) to the Table Top(A) using Bolt(1), with Alley Key(2).

Only Loosely Tighten the Bolts at this stage.

Repet this process with the remaining Legs.

Step 3

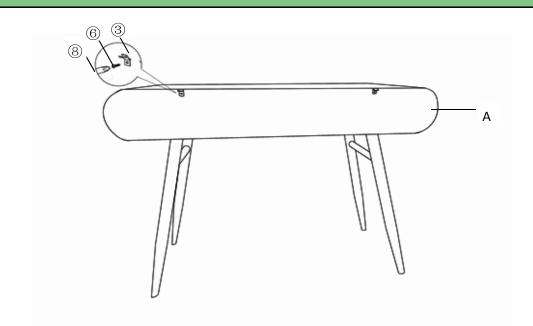

With the help of your adult partner, carefully stand the Table up. Place your Table on a level surface, to check for wobbles.

If there is a wobble, press the Table softly downwards with your hands to make the Table level. Then turn the Table over with the help of your adult partner, and tighten all Bolts completely.

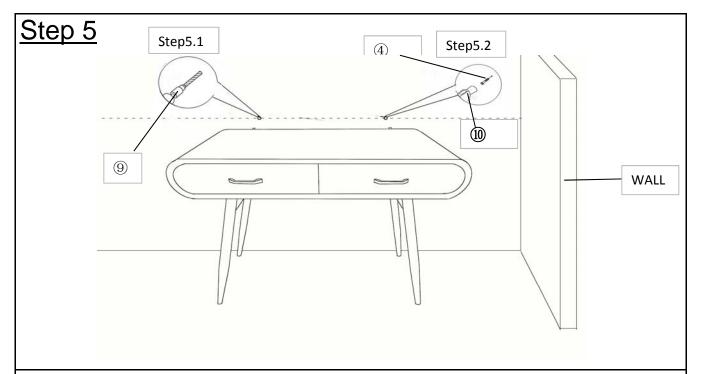

If it isn't a wobble, turn the Table over with the help of your adult partner, and tighten all Bolts compelely.

For your safety, suggest to install the following steps.

Step 4

- 4.1) Turn the Table on the back side faces you.
- 4.2) Attach Metal Brackets(3) to Back Table(A), where labeled, using Screw(6) with Screwdriver(8).

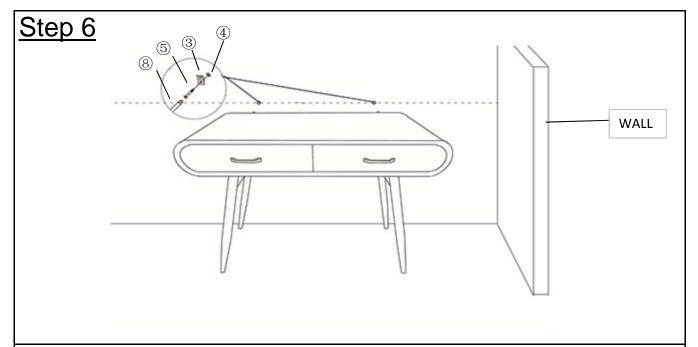

5.1) Drill two holes on wall at same height as Metal Brackets(③) on Table back with Power Drill(⑨).

You can mark these points in two ways as below:

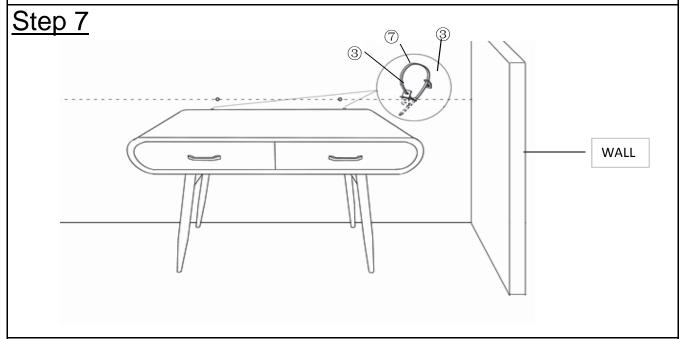

1) Move the Table back to the wall. Mark two points the same height as the Table on the wall.

Note: The Metal Brackets(③)need to be secured to a solid, load bearing surface. Please use a Stud Finder(not supplied) if needed to locate the Wall Frame.

2) Measure the height of the Metal Brackets(③) with ruler/measuring tape and mark on wall to keep them accurate and the same height.

Attach Metal Brackets(3) to Wall Plugs(4) using Wall Plug Screws(5) with Screwdriver(8).

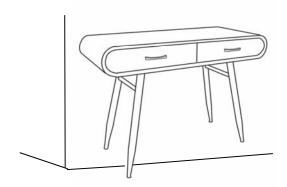

Move the Table back against wall.

Pull the Restraint Straps(7) through the Metal Brackets(3) on the wall

and Table one by one, and pull the Restraint Straps(⑦) tight.

Step 8

Your Table is ready for use.

This Table can only be used on a flat, level surface.
