STEP 1 Take the compressed sofa out of the box, then cut open the compressed packages and splice the seat cushions together.

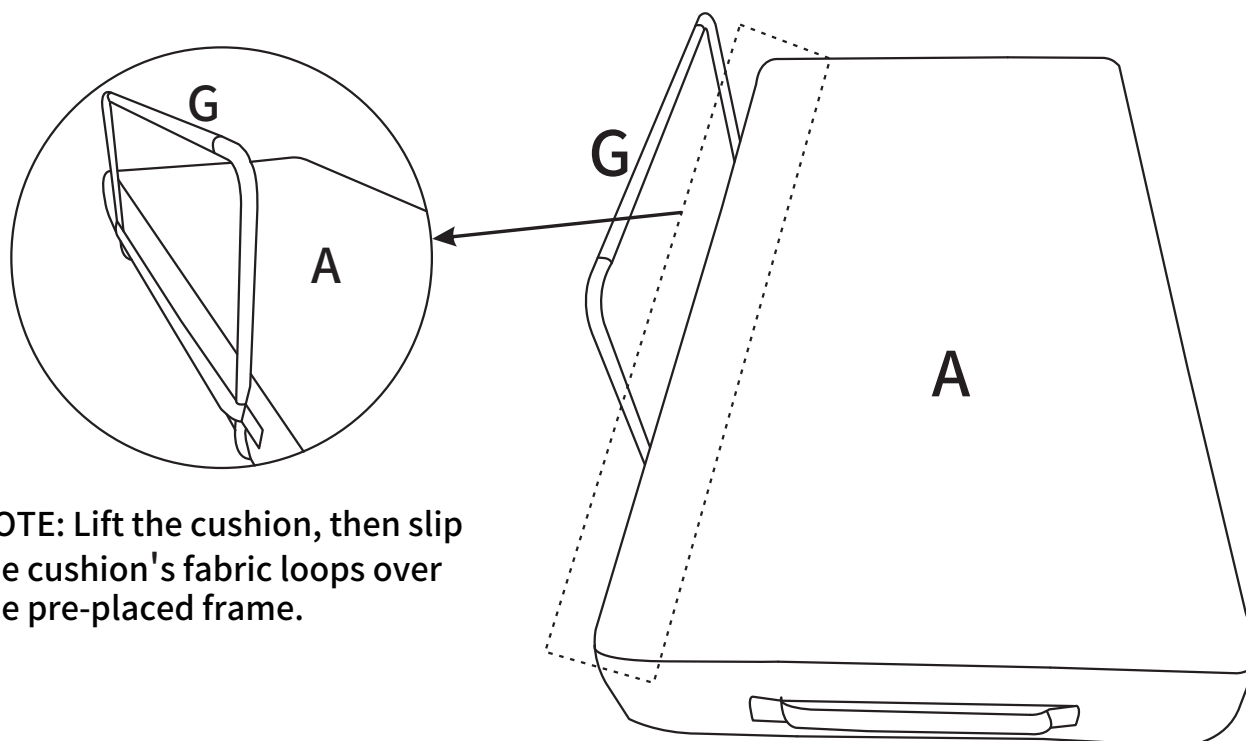

NOTE: Due to the vacuum packaging, the foam is compressed and it takes about 3-7 days to return to the original state of the sofa

STEP 2 Connect tube F,G and E as shown in the picture. Press the protruding tab and push fully in to lock.

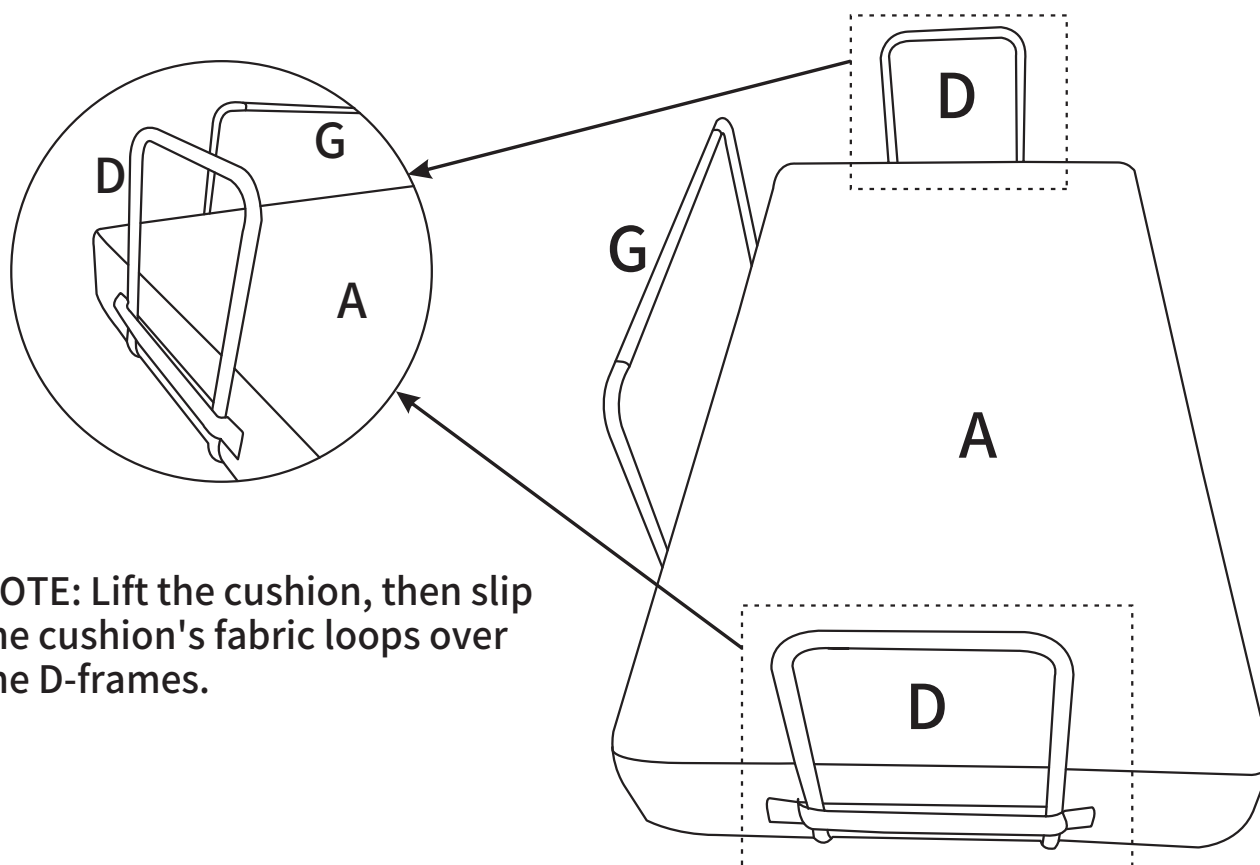

STEP 3 Place the assembled iron frame at the bottom of the cushion.

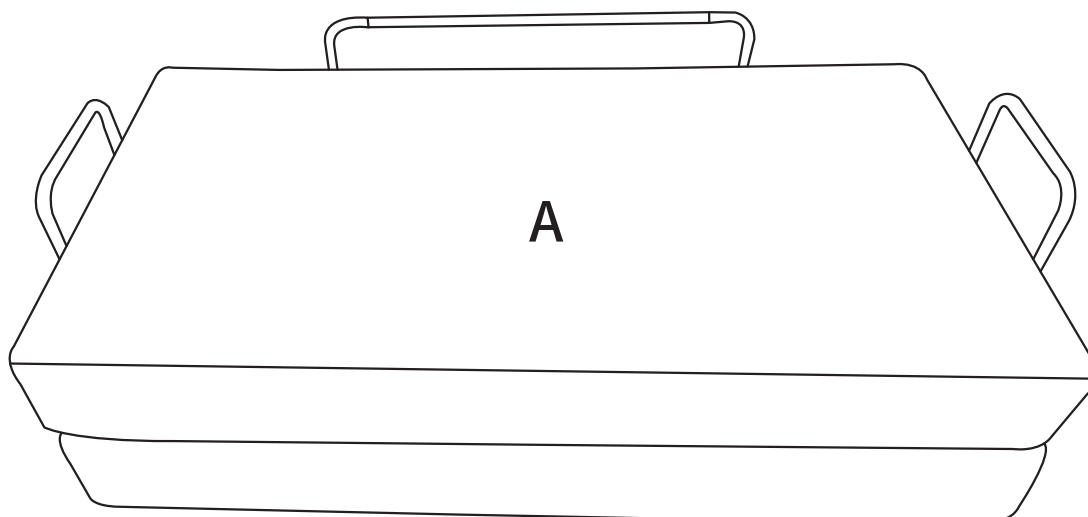

NOTE: Lift the cushion, then slip the cushion's fabric loops over the pre-placed frame.

STEP 4 Place the D-frames on the left and right sides of the cushion. Ensure their shorter sides rest on the cushion bottom.

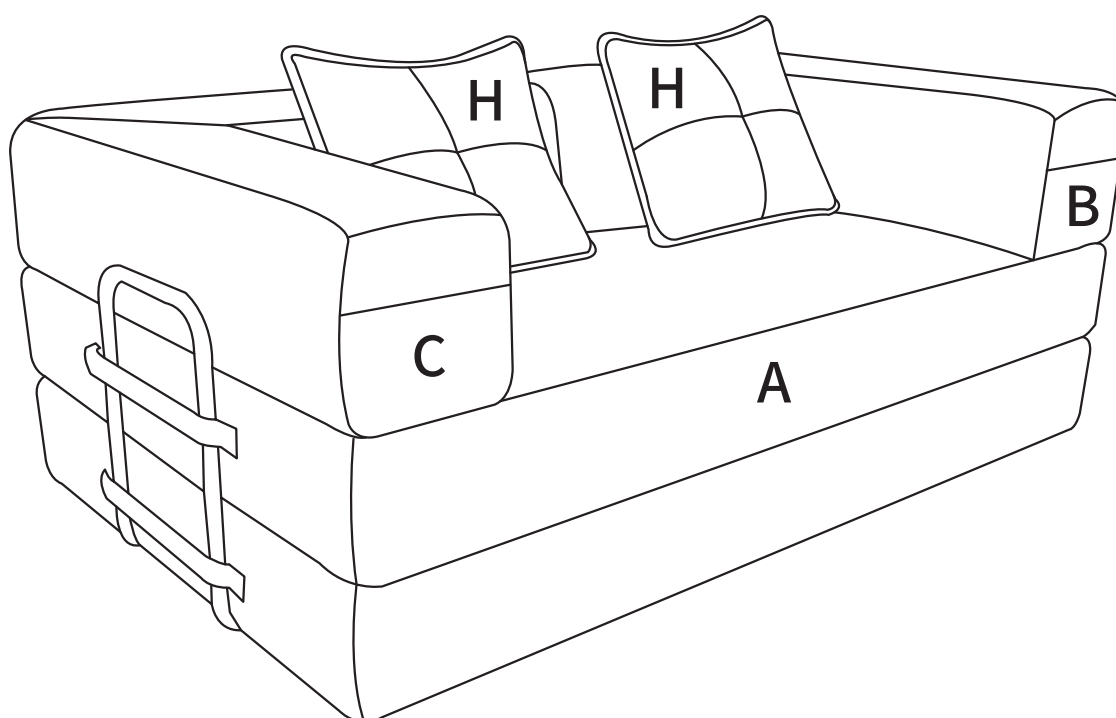

NOTE: Lift the cushion, then slip the cushion's fabric loops over the D-frames.

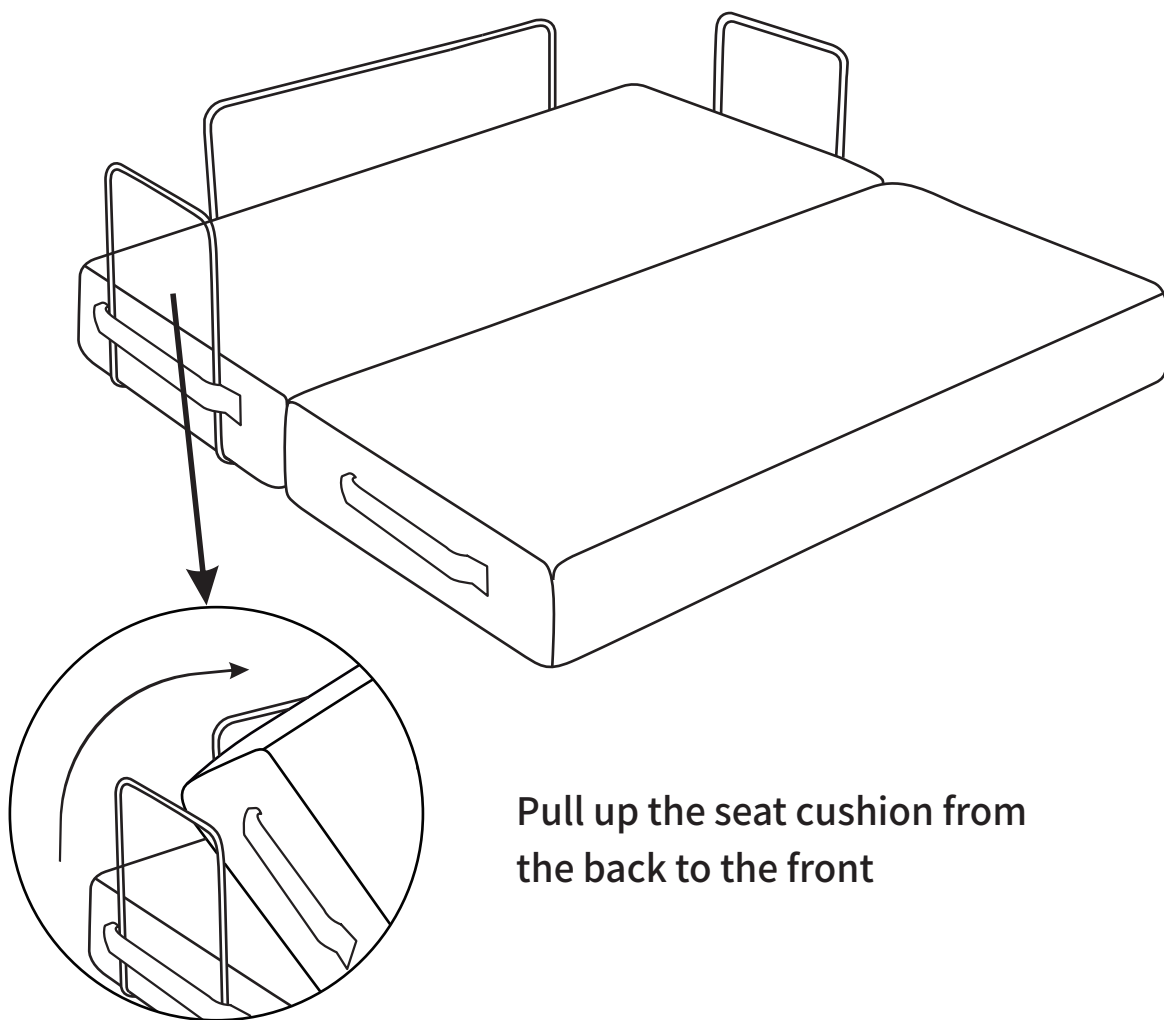

STEP 5 Set the second cushion A on top and slip the second cushion's fabric loops over the frames as shown in previous steps.

STEP 6 Put on the armrest, backrest, and pillow.

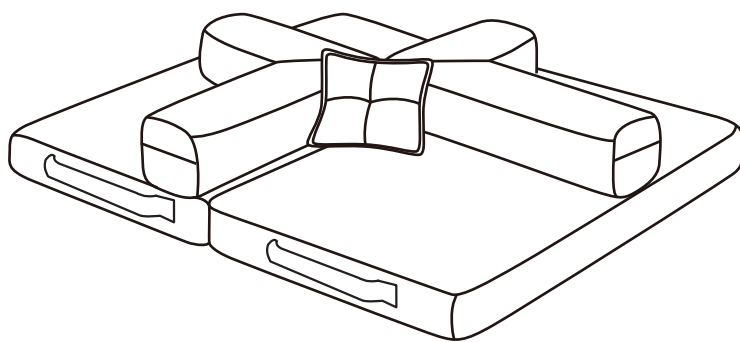

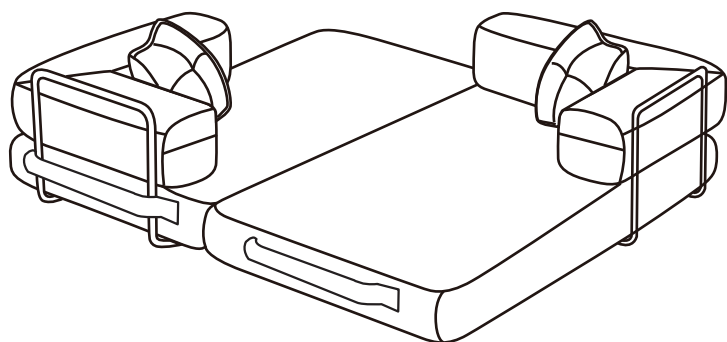

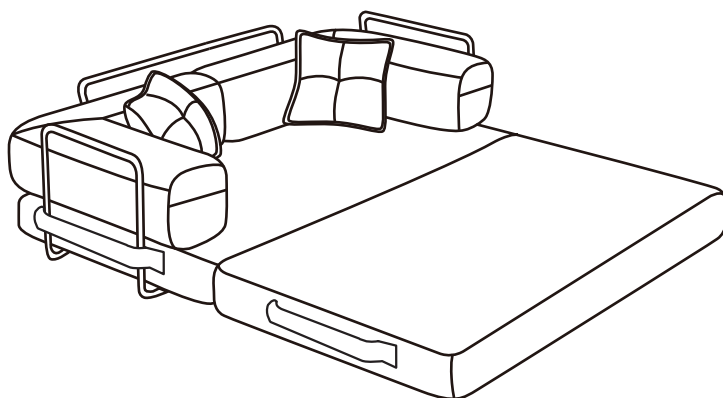

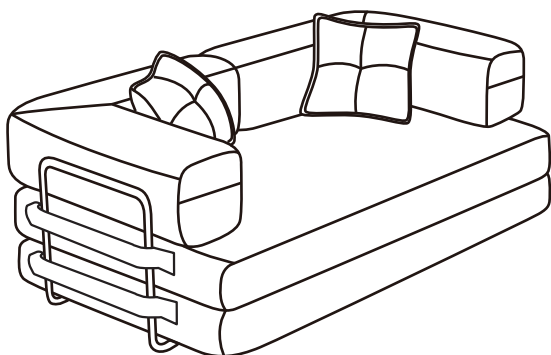

STEP 7 If you want to transform it into the shape of a bed, flip down the top layer of the cushion.
