

Assembly Instructions

(recommend 2 people for easiest installation)

LUCKY DOG®
Food & Water Systems

Stationary Bowl system – CL 71121

Step 1 – Open Box, ensure all hardware is included:

- 2 – Stainless steel bowls
- 1 – bowl support frame
- 1 – attachment bar
- 3 – Bolts & nuts

Step 2 – From the inside of the kennel, hold the bowl support frame up to the welded wire mesh at the desired height. Insert the 3 bolts in the holes provided.

Step 3 – On the outside, place the attachment bar over the bolt ends, then apply the nuts provided to each of the bolt ends and tighten firmly.
NOTE: Do not over tighten nuts.

Step 4 – Insert bowls into support frame and fill with desired contents.

Rotating Bowl system – CL 71120

Step 1 – Open Box, ensure all hardware is included:

- 2 – Stainless steel bowls
- 1 – Rotating frame
- 2 – attachment bars
- 8 – Bolts & nuts

Step 2 – From the inside of the kennel, hold the bowl support frame up to the welded wire mesh at the desired height. To ensure the right side is up, the pull trigger lock pin should pull UPWARD to open.

Step 3 - Once the correct height is determined, set frame aside. You will need to remove the (10) vertical wires in that area, using small bolt cutters (not included). Then, hold the frame to align with the opening and insert the 8 bolts in the holes provided. Place both top and bottom attachment bars over the bolt ends and hold in place.

Step 4 – Apply the nuts provided to each of the bolt ends and tighten firmly.
NOTE: Do not over tighten nuts.

Step 5 – Insert bowls into support frame and fill with desired contents.

Remove (10) 4” vertical adjacent wires by cutting top and bottom of the wire.
Eye Protection recommended
