| A Screw | B Screw | C Screw | D Spanner | E Wrench | F Plastic mat |
|  |  |  |  |  |  |
| x8 | x2 | x2 | x1 | x1 | x2 |

TIPS FOR USING THE WHITEBOARD

1. Each whiteboard is covered with a plastic protective film that aims to protect the surface of the product. Please make sure that you have tear it off before using.
2. For the pens: it is recommended to use a water-based pen because of the special material of board (Please don't use oil-based pens, it will make the panel difficult to clean).
3. For the board surface: if the board looks dirty, please wipe it with a damp cloth or wet tissue, or you can use the light-dampened alcohol, so the board can be used just as new after drying.
4. For the blackboard eraser: Using the blackboard eraser for a long time will cause a lot of ink adhere to the surface of the blackboard eraser, which will cause the effect of scrubbing the board surface to deteriorate. It is recommended to clean or replace it regularly. (Cleaning method: rinse with water, and then dry it)

INSTALLATION STEPS

| | | |
|--|--|--|
| 1 Insert Part 3 into Part 2 with force. (a hammer is recommended for assistance) If no tool, upside down the tube and squeeze Part 3 into Part 2 firmly.  | 2 Screw Part4 knob into Part3 (auxiliary tool: Part E)  | 3 Install Part 6 to Part2. (Auxiliary Tool: Part D)  |
