INSTALLATION MANUAL**

Before assembly please scan the code to get the installation video.

How to fix the mirror light problem?  
please scan the code to get the video

This is the unified installation manual for the 918L (large size) dressing table, suitable for three versions: simple, basic, and luxury.

**Simple version:** There is no mirror light, built-in socket or hair dryer stand function, so there is no mirror light power plug (N), built-in socket (K) or hair dryer bracket (L) in the accessories.

**Basic version:** With mirror light function, no built-in socket or hair dryer stand function. Therefore, there is no built-in socket (K) or hair dryer bracket (L) in the accessories.

**Luxury version:** With mirror light, built-in socket, and hair dryer stand function, including all illustrated accessories.

**Also note that:**

1. Screw C is a drawer positioning pin that prevents the drawer from falling off when opened. After installation, please confirm that all positioning screws C have been installed.

2. For luxury version, part 31 has rectangular hole for installing build-in socket, it also has mirror light; For basic version, part 31 does not have rectangular hole for installing build-in socket, but it has mirror light; For simple version, part 31 does not have rectangular hole for installing build-in socket, nor it has mirror light.

Step 13

pick up 18 x2, 19 x1, 20 x1, 21 x1, 22 x1

Step 14

Step 15

Step 16

pick up 23 x1, 24 x2, 31 x1

## Step 17

For vanity table with light

If your vanity table include a LED mirror light, please test the light in this step. Touch the switch botton on the mirror to turn on the mirror light, click the switch botton to change the color of the light, and long press the switch botton to adjust the brightness. If the switch botton is not sensitive, you can check whether the touch switch is tightly attached to the mirror back as shown in the diagram. If it is not tightly attached, please use your fingers to press the touch switch to the designated position and check if the connecting wire is OK.

Please connect the light power cord as shown in the diagram, click the touch switch to turn on the mirror light. Please note that due to strict safety standards and heat dissipation requirements, the maximum brightness of the mirror light must be controlled below the safety standards. Therefore, the mirror light is not very bright and is not used for lighting purposes. It is only used to adjust the color of the environment. If you think that the light is not bright enough, it is due to safety standards limitations, not product quality defects.

Step 18

Step 19

Step 20

## Step 21

Please note that when placing the drawer in, the drawer positioning pin will block the drawer. Therefore, please follow the diagram to first insert the inner edge of the drawer using a concave method, and then push the drawer flat.

Step 22
