Anchors		4	OGHWD-AK-4	Ⓩ		6	OG-S-1322
				Ropes		4	

**IMPORTANT**

Please check contents before attempting to construct greenhouse.

## ARRANGE PARTS INTO GROUPS AS LISTED IN YOUR PACK CONTENTS UNFOLD COVER AND PUT TO ONE SIDE

**STEP 1**

4xD 4xE 4x8 4x4 2x1 2xZ 8x3

Assemble the base with the above parts.

Once base is assembled build upwards using the parts listed in Step 2.

**STEP 2**

8xE 4x8 4x4 2xZ 8x3

This forms the next level. Once completed build the next level with parts listed in Step 3.

**STEP 3**

6xE 2xD 4xD 4x4 6x3 2xZ

This forms the next level. Once completed build the next level with parts listed in Step 4.

**STEP 4**

4xA 2xE 2x8 2x4 1x1

This forms the next level. Once completed build the next level with parts listed in Step 5.

**STEP 5**

4x5 2xJ 1x8

This forms the next level. Once completed, place the cover (Y) over the frame and attach.

**STEP 6**

In order to have the frame connected you will need to assemble the frame by pushing downward while connecting two rods at a time, giving it an extra force (when frame is complete repeat from all angles, as picture shown). This will result in a tighter and smaller frame enabling the greenhouse cover to slide on easily.

# Anchor kit Assembly Instructions

---

## Step 1

Hammer the anchors into the soil, placing them on all four sides of the greenhouse.

## Step 2

Connect the top end of the rope into the strap on the top of the greenhouse for all 4 sides as image shown.

## Step 3

Take the other end of the rope and pass it through the bended side of anchor as shown in figure. Repeat the step for all 4 sides.
