STEP 12 - Anti-tip Restraint

WARNING

To reduce the risk of serious injury or death from tip-over, this unit must be securely anchored to a suitable wall before use.

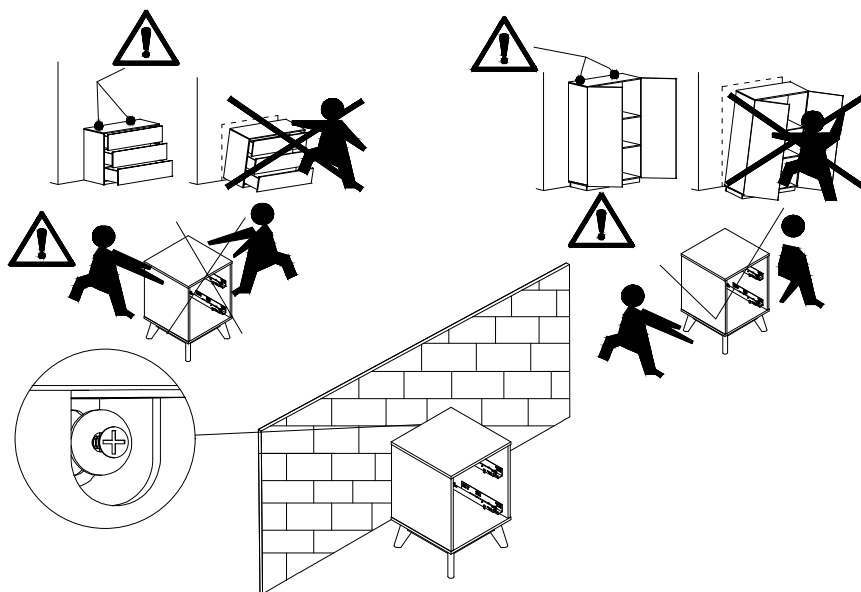

- Never allow children to climb, stand or hang on this furniture.
- Always secure the unit to a suitable wall using appropriate fixings for your wall type.
- Before drilling, check for hidden electrical cables, water pipes and other concealed services.
- If you are unsure how to install the anti-tip restraint or select suitable fixings, seek advice from a qualified installer or your local hardware store.

Installation

1. With assistance, move the cabinet into its final position.
2. Using the attached L-brackets [J] as a guide, mark the fixing positions on the wall.
3. Move the cabinet away from the wall and prepare the wall for fixing as required.
4. Reposition the cabinet and securely fasten the L-brackets [J] to the wall using fixings suitable for your wall type.
5. Check that the cabinet is level, stable and securely anchored before use.

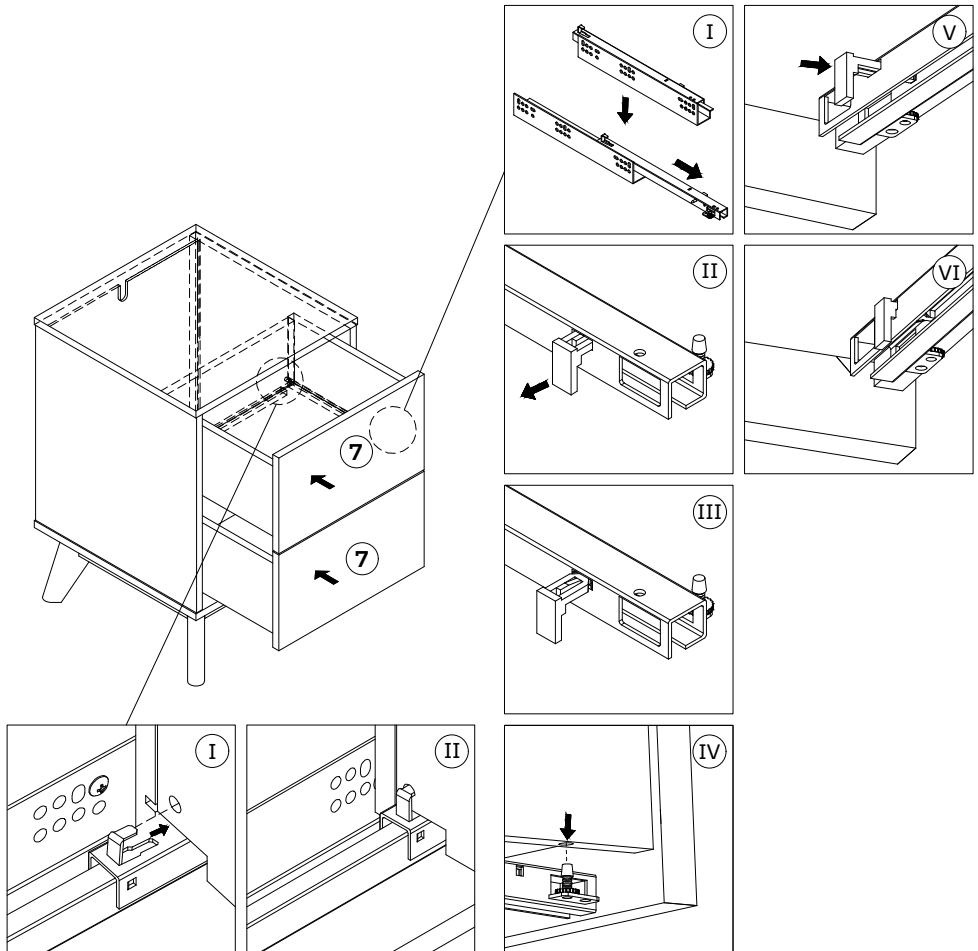

Important Handling Note

Product Care Guide

Product Care Handbook: A Guide to Protecting Your Product

Caring for PUX LEATHER

To preserve and maintain the appearance of your faux leather, apply a "little and often" approach to cleaning.

Stain marks can accumulate through regular use. We recommend using a soft, clean cloth with water and a small amount of gentle washing up liquid to remove a stain gently once or twice.

Before using the cloth, be sure to avoid soaking the surface. Follow up by thoroughly drying the surface with a dry cloth.

Always use a soft, circular motion when cleaning your product. Aggressive scrubbing can cause surface damage.

Avoid the use of harsh detergents such as bleach as these can cause fading or discoloring.

To preserve the appearance of the velvet, gently vacuum the product with an upholstery attachment once a week.

Alternatively, carefully use a soft-bristled fabric or clothes brush to gently smooth the fabric and remove surface dust. Take care to only brush in the direction of the nap of the fabric.

Velvet can be prone to marking, so be sure to avoid placing anything heavy or hard-edged onto your product for prolonged periods of time. Should

caring for VELVET

your velvet product start to show pressure marks, these can easily be removed through lightly steaming or brushing the affected area.

Take extra care to prevent your velvet product from coming into contact with any liquids. In the event of spillages, gently blot the liquid away with a soft, clean cloth. Do not rub the affected area or you risk damaging the appearance of the velvet.
