3.Product Parameters

Working Voltage: 5V=1A
Material: Metal
Style: Modern
Color Temperature: White light/ Warm light/ Neutral light
Charging Method: Type-C
Product Dimensions: 6*6.7*9.25inches
Made in China

4.Attention

- If the light becomes dim, please charge it in time.
- These lights are non-waterproof. Install them in locations away from moisture and excessive heat.
- Do not allow children to use the lights as toys to prevent accidents.
- During the warranty period, refrain from disassembling the product without permission if issues arise, as this action may void the warranty.
- Please use a regular charger with a USB port for charging. The rated voltage of the charger is DC5V, and the current is ≤ 2 amps. Do not use fast charging to avoid affecting the battery life.
- To extend battery life, do not charge for a long time after being fully charged. When the products are not used for a long time, please keep the battery in a continuous storage state. Empty discharge of batteries can affect service life.

5.Warranty

Thank you for your purchase! We offer a 12-month warranty for our products.
