GOOD TO KNOW ABOUT TEMPERED GLASS

PLEASE HANDLE IT WITH CARE! A DAMAGED EDGE OR SCRATCHED SURFACE CAN IN EXCEPTIONAL CASES CAUSE THE GLASS TO CRACK SUDDENLY. BUT IT NEVER INTO SHARP FRAGMENTS, ONLY INTO SMALL PIECES OF GLASS. PLEASE AVOID COLLISIONS FROM THE SIDE - THIS IS WHERE THE GLASS IS MOST VULNERABLE.

IMPORTANT :

PLEASE READ CAREFULLY.

FOR FURTHER STUDY, PLEASE KEEP THIS MANUAL.

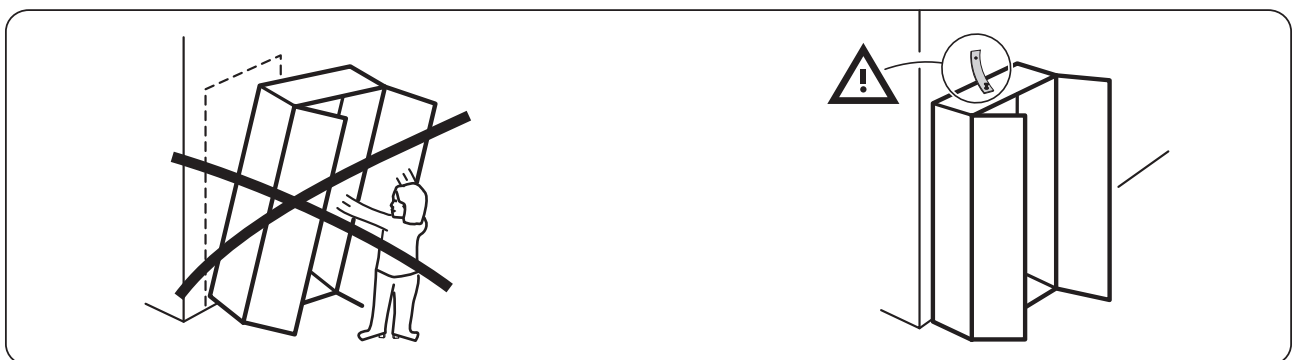

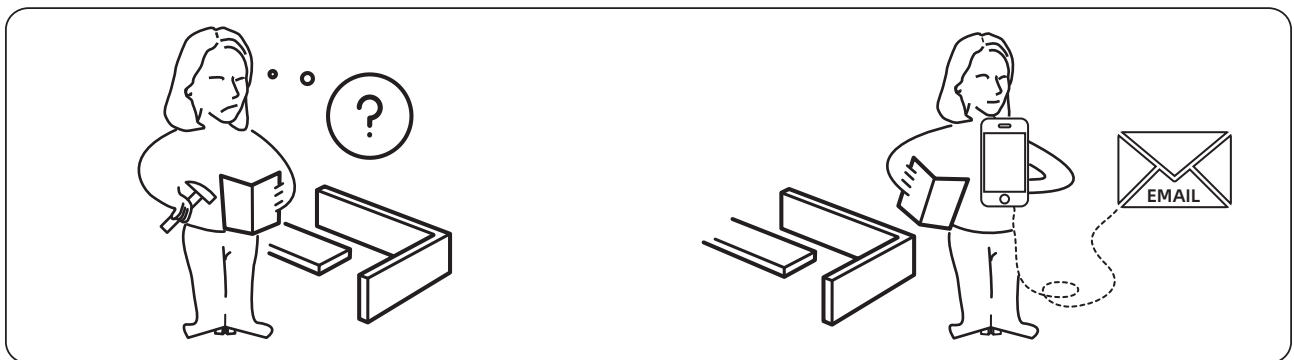

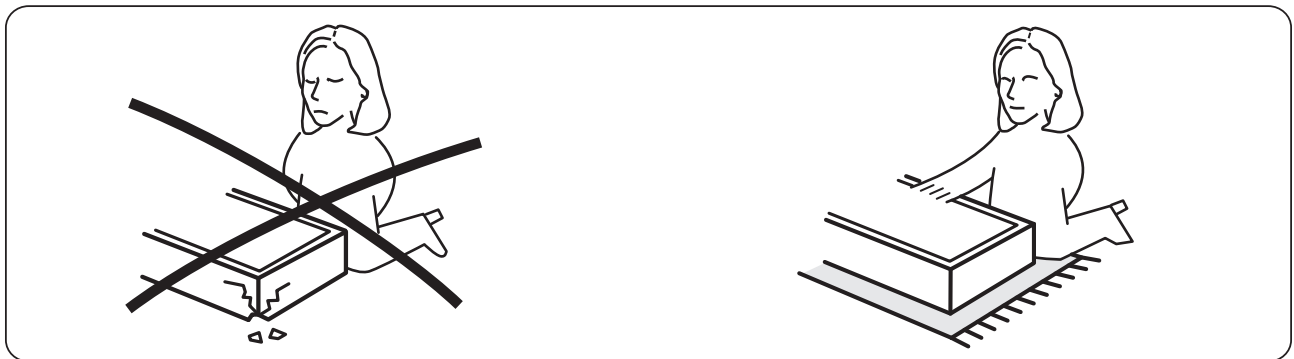

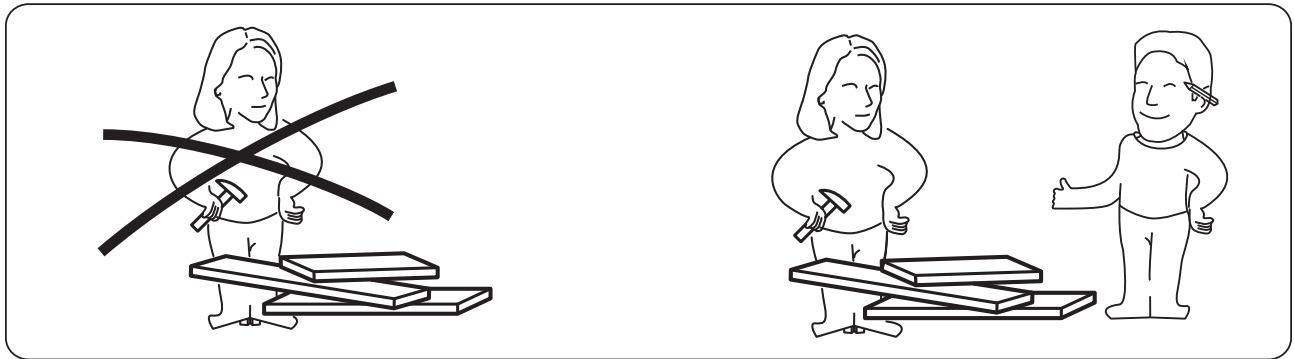

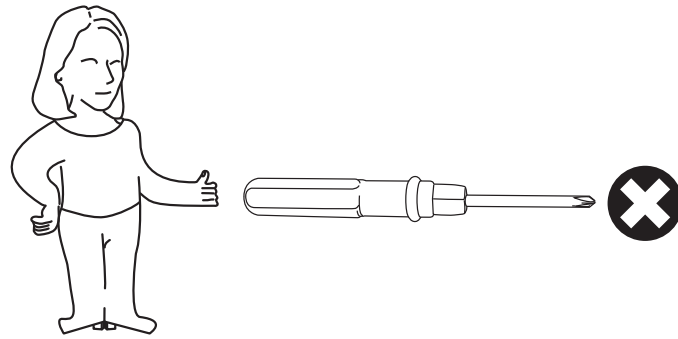

WARNING

FURNITURE TIPPING-OVER COULD RESULT IN INJURY OR DEATH TO THE INSTALLER. ALWAYS SECURE THIS PRODUCT PERMANENTLY TO THE WALL.

The only piece of wall secure device included in the package is good for wooden or other hard walls.

For wooden walls, just use the screws, all included plastic screw accessories are for option. For hard walls, please drill holes with hammer, then insert the screws and plastic accessories. Wall secure device included in the delivery is not good for walls with weak holding force, such as gypsum board. To secure this product on this kind of wall, please make sure the screws are securely attached on the keel. Please choose the correct security devices according to the wall type in your house.

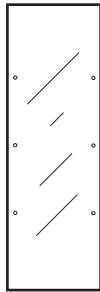

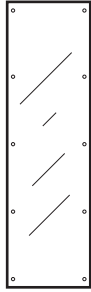

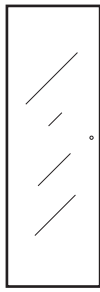

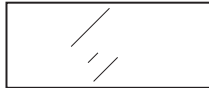

1. Tempered glass has a 0.3% chance of self-explosion. In case of this accident, please contact us, and we replace the damaged glass. During installation, please wear gloves, long sleeve shirt, pants, and socks to avoid possible injury.
2. To avoid possible accidents, please keep babies and children away during installation. At the same time, please make sure that the installation is done by two adults.
3. During installation, please use cardboard or carpet as a buffer layer to avoid the possibility of the glass corner colliding with hard objects such as the ground. Especially when installing tempered glass, please do not let the corners knock to the ground, so as to prevent the tempered glass from exploding due to changes in force.
4. When installing a display cabinet, install the anti-tip device first to prevent possible serious or fatal injury. In order to prevent possible tipping over, the display cabinet must be permanently secured to the wall. The wall-fixing device is not limited to those we offer. You are free to install similar devices to avoid possible danger.
5. Please keep babies and children away from this cabinet. Please NOT operate the cabinet door, NOT shake the cabinet to avoid the risk of collision with the cabinet door or object drop. Again, please install an anti-tipping device, and keep babies and children away (minimum 2 meters/6.6 feet away). Please also install door lock to avoid possible injury caused by accidental operation by babies and children.
6. The top/bottom plate of this cabinet is made of MFC/PVC-covered particleboard, which is not fireproof.
7. For disposal, please consult the relevant local authorities or qualified companies.
8. The product is a partially transparent tempered glass cabinet, it is not fully transparent. After installation, the gap may be different due to the different fastening forces.
9. No part of this product can be swallowed, played or used for other purposes.
10. Please adjust the foot support on the product after installation. The max load on plate glass is 5.00kgs/11.00lbs. Note that the load bearing is only for items stored.
11. Product dimensions may have a tolerance of 10mm/0.4 in by different measuring tools or methods.
12. After the display cabinet is installed, please check and tighten all screws to avoid potential safety hazards such as shelf falling and loose cabinet structure caused by loose screws.

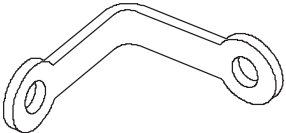

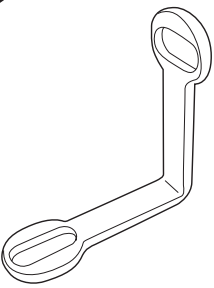

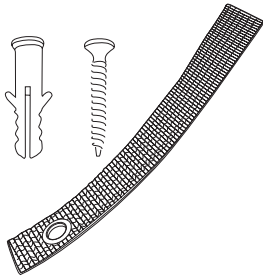

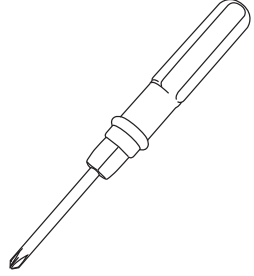

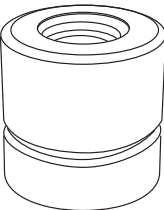

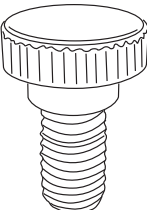

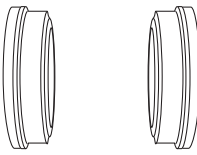

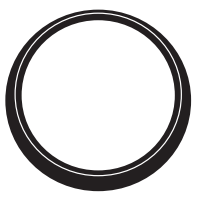

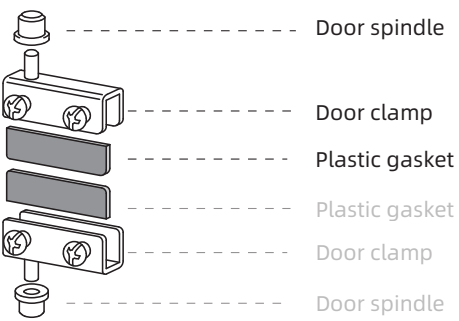

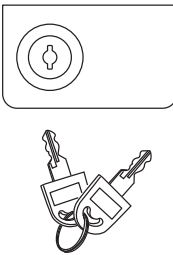

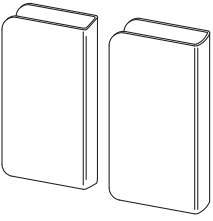

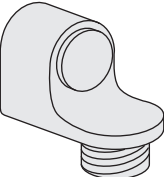

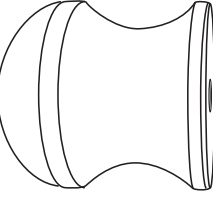

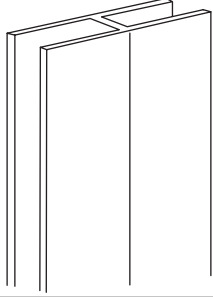

PRODUCT COMPONENT LIST

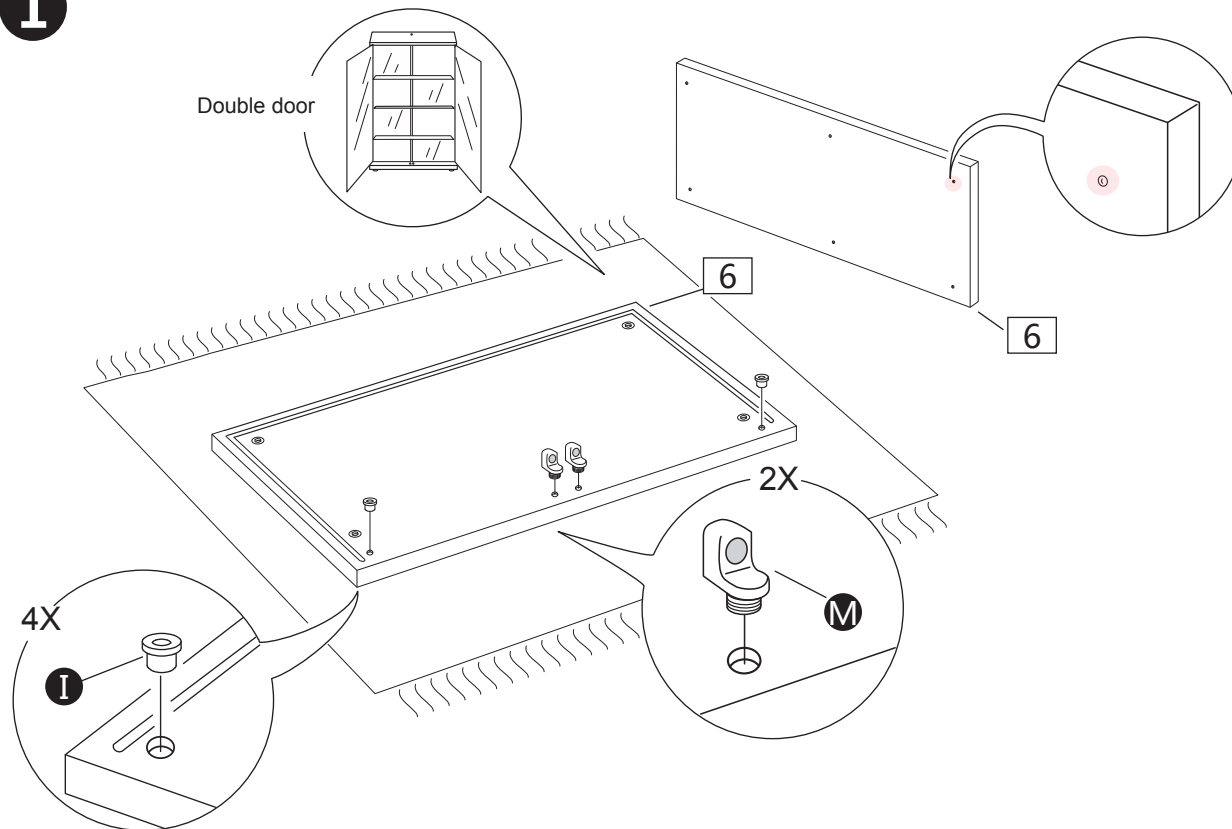

NO	ASSEMBLY	SIZE	NUMBER	TEXTURE OF MATERIAL
1	Back glass	1576*387mm(δ4mm)	2	Tempered glass
2	Side glass	1576*345mm(δ4mm)	2	
3	Door glass	1556*387mm(δ5mm)	2	
4	Shelf glass	775*315mm(δ5mm)	3	
5	Top plate	805*365mm(δ25mm)	1	MFC/PVC edge banding
6	bottom plate	805*365mm(δ25mm)	1	MFC/PVC edge banding
7	Rubber strip		1	Polyvinyl chloride / Type "H"
8	Accessory Package	Various specifications	X	Various materials

 Product dimensions may have an error with 10mm due to the usage of different measuring tools or methods.
