

Glass 1.7 L Water Kettle

- 1500 watt heating base with large stay cool handle
- BPA-free glass water kettle with level marks and drip-free spout
- Auto shut-off with boil-dry protection
- LED power indicator light
- One-touch removable locking lid
- 360° swivel power base with cord storage

Quickly boil water to make instant coffee, tea, hot chocolate and more with the NESCO 1.8 QT. Glass Water Kettle. The 1500 watt heating base heats quickly for a wide range of applications and uses about half the energy of a stovetop and boils faster than most microwaves. The BPA-free glass kettle is cordless for trouble-free serving and features level marks for accurate measuring and a drip-free spout that helps prevent mishaps. The kettle features a large stay cool handle for safe movement from countertop to cup. Filling, pouring and cleaning is made easy with the removable lid that locks or opens with the push of a button. Operation is simple with the one-touch power switch and the LED power indicator that illuminates when the kettle is in use. This water kettle has a 360° swivel power base with built-in cord storage for countertop convenience. The length of the power cord can be adjusted to meet your specific kitchen needs. Integrated safety features include automatic shut-off with boil-dry protection making this kettle safer than a stovetop. The portable and convenient NESCO 1.8 QT. Glass Water Kettle is perfect for making instant coffee, tea, soups, oatmeal and more.
