1 * Soup Pot
1 * Frying Pot
1 * Base
1 * Bamboo Spatula
1 * Storage Bag
1 * Power Cord
2 * Cleaning Cottons
1 Kit * Dinnerwares

Notes

1. For proper heating, check that the soup pot or frying pot is placed directly over the heating plate before heating. If not, the heating time becomes longer or it would not boil.
2. For safety, please switch the power rods to the OFF, then cut off the power cord after cooking.
3. Please allow the slight color difference caused by the shooting light and the 1-3 cm error due to manual measurement, and make sure you do not mind before ordering.
