

尺寸: 145*210mm 型号710LR 370pcs

Air cooler
User manual

Made in china

INTRODUCTION

- Thank you for purchasing our air cooler.
- Each unit has been manufactured to ensure safety and reliability.
- Before first use, read the instructions carefully and keep it for further reference.

PERFORMANCE PARAMETERS

Model	Rating Power	Power	Specification
710LR	110V~60Hz	150W	Cooling only

KNOW YOUR AIR COOLER

1. Place your air cooler at least 18cm away from wall or any other obstruction. The cooler should be placed near a window/door to allow fresh air.
2. Always ensure that there is another open window/door through which warm air can exhaust from the room. Constant air change is very essential for fresh air cooling by your air cooler!
3. Plug in the main cord of your air cooler to a wall socket. Ensure the plug is properly earthed and is in off position while plugging.

FUNCTIONS

- **Principle of Cooling:** Water is taken from the water tank by pump to the top, then the water drops into paper evaporator. When the water in paper evaporator experiences to water vapor, the air is cooled. People will feel cool wind when the cool air is delivered by fan.
- **Electronics control:** safe and durable, attractive appearance.
- **Adjustable speed and fan type:** have three speeds and fan types, blow air at wide angle.
- **Cooling:** Through air evaporating, cut down the air temperature and raise relative humidity.
- **Deliver wind at a wide angle** rotating the blades automatically, deliver wind at horizontal wide angle. Swing the blades transversely manually, select the direction discretionary.

ASSEMBLING AND WATERING

1. **Assembling contents:** put the appliance on a flat surface, take out the screws from foam box, then assemble the *containers*.
 2. **Warning:** put 1/3 water tank, then add clean water
- Attention:**
- a. Pay attention to the level of water tank when add water.
 - b. The level of water tank should not over "MAX" scale at any time, when humidifying, the total level of water tank should not below "MIN" scale.
 - c. Put ice or frozen ice ball to the water tank if you want to strengthen the efficiency of cooling. But the total level of water tank should not over "MAX" scale.

OPERATION

· **ON/OFF key**: after it is connected to the power supply, the cooling fan will enter standby state

* Speed key: Low speed (1) -Mid speed (2) -High speed (3)

- Swinging key: press swing key, the wind can automatically swing left and right

- **Cool air key:** turn on this switch to start cold air function.

IMPORTANT: Please be sure there is enough water in the tank before using the pump.

THE USE OF ICE BOX

The ice box has a particular feature of keeping cool, it can absorb heat and let the water temperature below the environmental temperature.

- a. add water to 100 ml

3. Open the door, and the faucet to keep with the water tank.
 4. Then close first the faucet, and close and securely.
- CADUTION**
5. Use one per the spring lifting.
 6. Do not use repair or replace the appliance by yourself, it should be repaired by the technician.
 7. Do not open the appliance with wet hands, or cold or avoid freezing.
 8. A warning: Do not use the appliance for anything other than its intended purpose, its service agent and specially qualified persons is made to be a hazard.
 9. When the appliance is used it is not suitable for use in the kitchen.
 10. Do not insert foreign things like oil or coffee and, in order to avoid freezing.
 11. Do not use the appliance near electrical and combustible gas. Avoid long-term direct solar radiation.
 12. Use the appliance only on a flat surface.
 13. Do not use the appliance for anything other than its use when using outdoors.
 14. Please read the instruction manual and use your "MANUAL" as an app, when handling, the brand and the model of the appliance.
 15. After refilling water in the water tank, do not let the tank reach 0 when you put per the tank.
 16. Do not use the appliance for anything other than its intended purpose.
 17. Do not use the tank for anything if it is supplied over and there are some water in the body, should be cleaned and dried.
 18. Do not use the appliance for anything other than its intended purpose for other services and avoid the electrical appliance.
 19. Do not use the appliance for anything other than its intended purpose.
 20. Clean the appliance with a lightly damp cloth. Do not use any type of detergents or solvents. Do not use the appliance.
 21. Do not use the appliance for anything other than its intended purpose.
 22. Do not use the appliance for anything other than its intended purpose.
 23. Do not use the appliance for anything other than its intended purpose.
 24. Do not use the appliance for anything other than its intended purpose.
 25. Do not use the appliance for anything other than its intended purpose.
 26. Do not use the appliance for anything other than its intended purpose.
 27. Do not use the appliance for anything other than its intended purpose.
 28. Do not use the appliance for anything other than its intended purpose.
 29. Do not use the appliance for anything other than its intended purpose.
 30. Do not use the appliance for anything other than its intended purpose.
 31. Do not use the appliance for anything other than its intended purpose.
 32. Do not use the appliance for anything other than its intended purpose.
 33. Do not use the appliance for anything other than its intended purpose.
 34. Do not use the appliance for anything other than its intended purpose.
 35. Do not use the appliance for anything other than its intended purpose.
 36. Do not use the appliance for anything other than its intended purpose.
 37. Do not use the appliance for anything other than its intended purpose.
 38. Do not use the appliance for anything other than its intended purpose.
 39. Do not use the appliance for anything other than its intended purpose.
 40. Do not use the appliance for anything other than its intended purpose.
 41. Do not use the appliance for anything other than its intended purpose.
 42. Do not use the appliance for anything other than its intended purpose.
 43. Do not use the appliance for anything other than its intended purpose.
 44. Do not use the appliance for anything other than its intended purpose.
 45. Do not use the appliance for anything other than its intended purpose.
 46. Do not use the appliance for anything other than its intended purpose.
 47. Do not use the appliance for anything other than its intended purpose.
 48. Do not use the appliance for anything other than its intended purpose.
 49. Do not use the appliance for anything other than its intended purpose.
 50. Do not use the appliance for anything other than its intended purpose.
 51. Do not use the appliance for anything other than its intended purpose.
 52. Do not use the appliance for anything other than its intended purpose.
 53. Do not use the appliance for anything other than its intended purpose.
 54. Do not use the appliance for anything other than its intended purpose.
 55. Do not use the appliance for anything other than its intended purpose.
 56. Do not use the appliance for anything other than its intended purpose.
 57. Do not use the appliance for anything other than its intended purpose.
 58. Do not use the appliance for anything other than its intended purpose.
 59. Do not use the appliance for anything other than its intended purpose.
 60. Do not use the appliance for anything other than its intended purpose.
 61. Do not use the appliance for anything other than its intended purpose.
 62. Do not use the appliance for anything other than its intended purpose.

 96. Do not use the appliance for anything other than its intended purpose.
 97. Do not use the appliance for anything other than its intended purpose.
 98. Do not use the appliance for anything other than its intended purpose.
 99. Do not use the appliance for anything other than its intended purpose.
 100. Do not use the appliance for anything other than its intended purpose.

book.

21. Fan for temperate climates only.
22. Should it be necessary to move the unit after the water has been added, roll gently to the required position and activate the bracket's casters.
23. The power cord is with "Y" type connection and it must be changed by professional technicians if necessary.

CLEANING AND MAINTENANCE

WARNING: Ensure that the fan is switched off from the supply mains before removing the air filter screen.

1. Clean the air filter screen
Cut off the power supply, pull the handle of air filter screen, remove it from appliance.
Clean the air filter screen with neutral detergent and hairbrush brush, then clean it with clear water. Finally, re-install to the appliance.
2. Clean the wet pad
Cut off the power supply, take down the air filter screen, then draw the wet pad from screen.
Clean the wet pad with neutral detergent and hairbrush brush, then clean it with clear water. Finally, re-install to the appliance.
Attention: the wet pad cannot be installed continuously, in order to avoid leaking.
3. Clean the water tank
Cut off the power supply, open the door, take out the water tank, clean it with neutral detergent, and wash it with clear water, then re-install to the appliance.
4. Clean the shell
Clean with neutral detergent and soft cloth.
Attention: cut off the power supply when clean the appliance as there have a high pressure in the body. Do not let any water on the surface of control panel.

MAJUNCTION AND MAINTENANCE

Misfunction	Causes	Solutions
No action	1. Power off or poor connection. 2. Not press the "ON" key on the control panel.	1. Plug the power cord and make sure it's connected well. 2. Press the "ON" key on the control panel.
Poor effect of dehumidifying	1. Block the air filter screen with dust. 2. Block the air inlet with foreign things.	1. Purify the air filter screen. 2. Remove foreign things from the air inlet.

Repair the appliance under the situation as follows:

1. Abnormal action or no action, it is invalid by the above approach.

2. Abnormal action caused by ingress of water or foreign things.
