Installation Steps

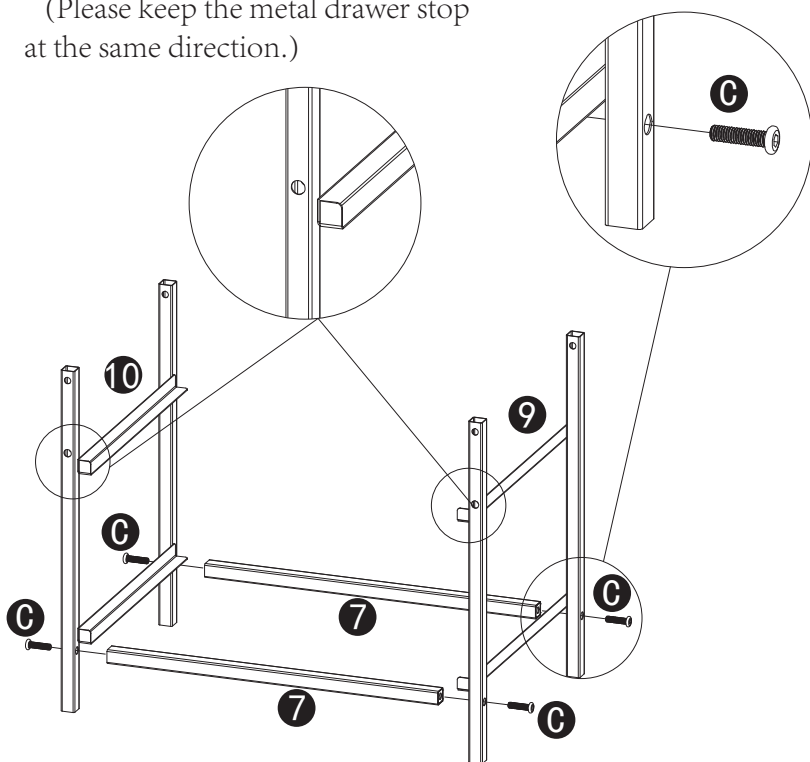

Step1:Connect frame ①&②, ①&④ with connection part ① and screws ②.

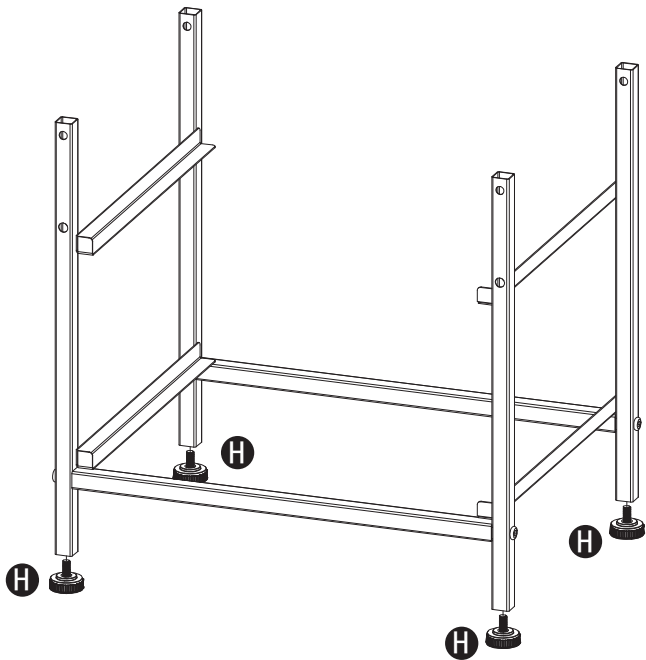

Step2:Install frame ⑨& ⑩ to part ⑦ using screw ⑥.

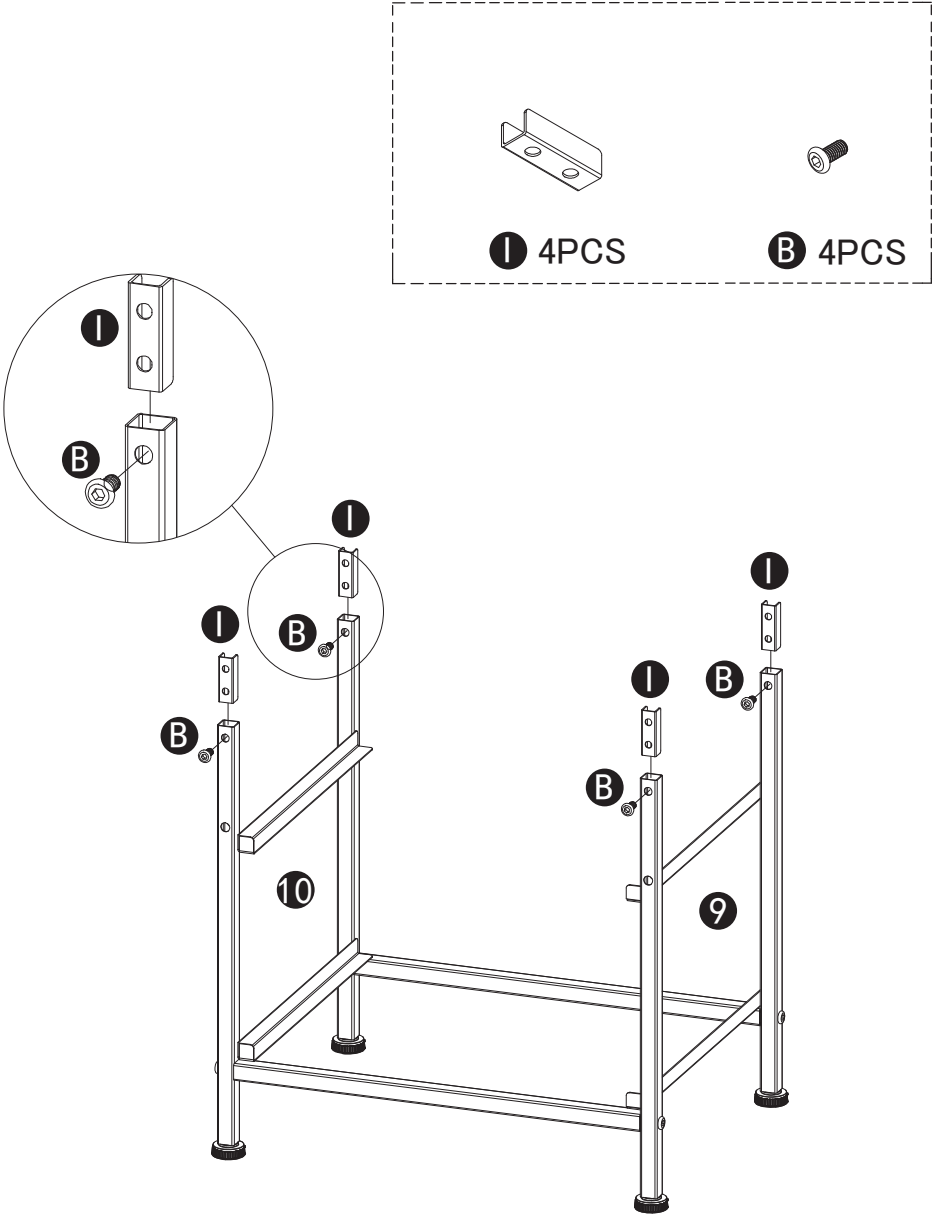

(Please keep the metal drawer stop at the same direction.)

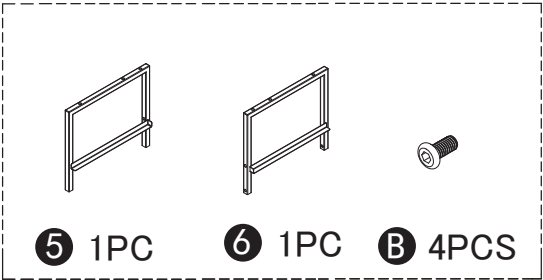

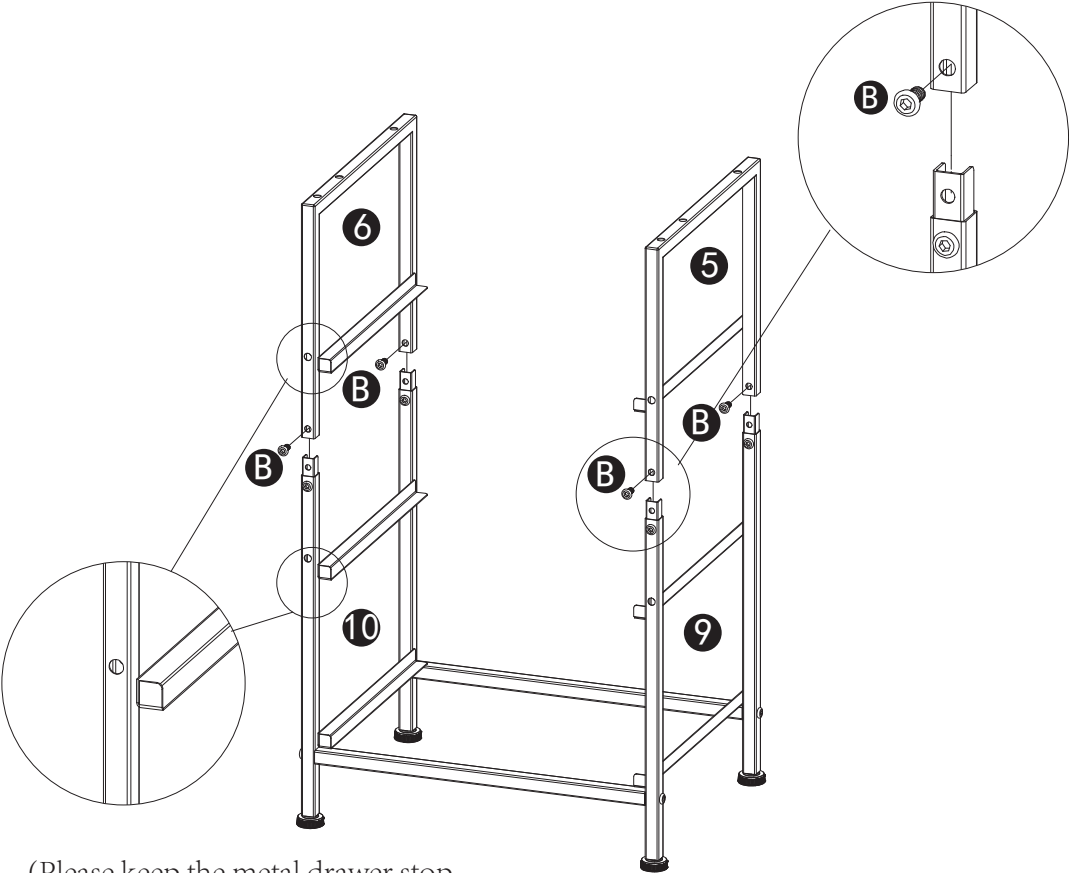

Step3:Attach adjustable feet to the frame.

Step4:Insert connector ❶ to the metal frame and secure it using screw ❷.

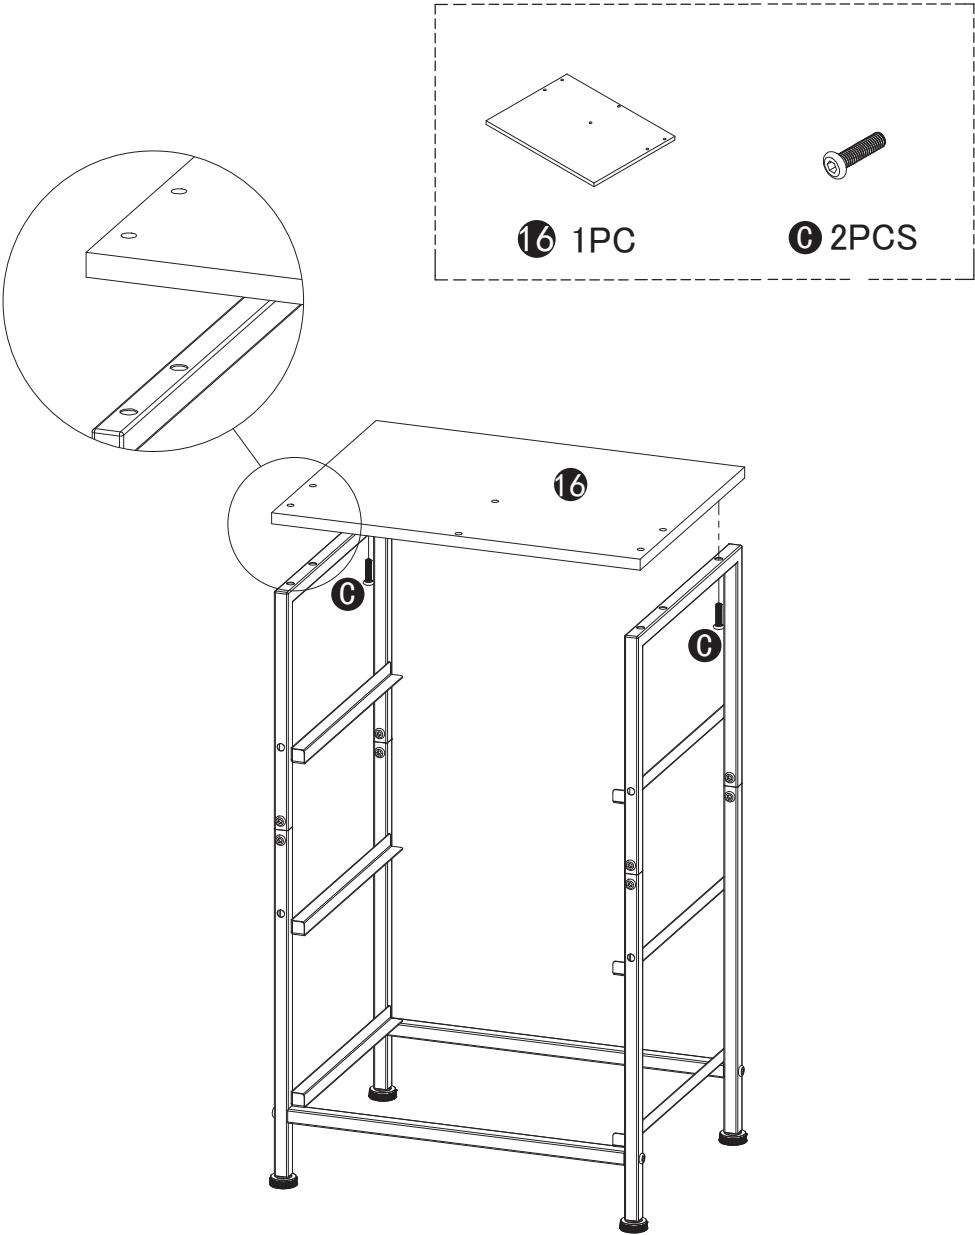

Step5:Insert frame ⑥ onto frame ⑩ and insert frame ⑤ onto frame ⑨.
Secure both side using screw ⑧.

(Please keep the metal drawer stop at the same direction.)

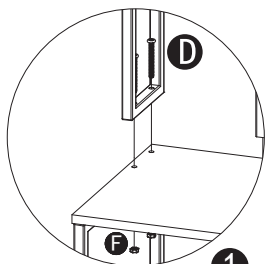

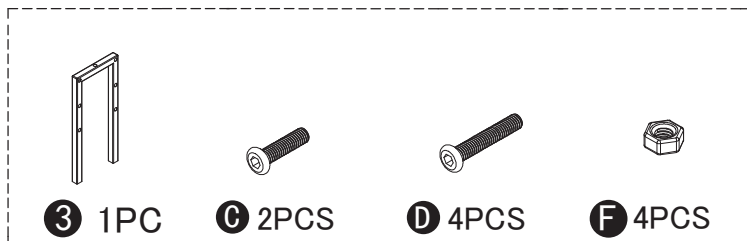

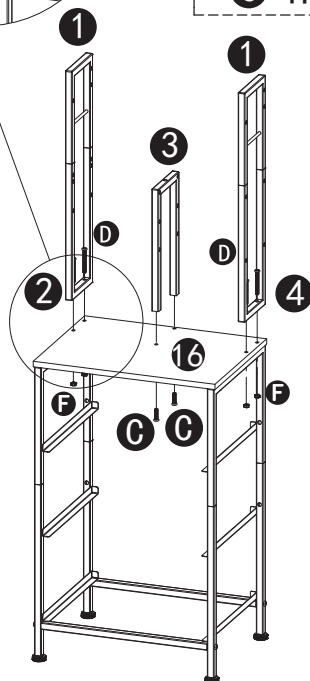

Step6:Secure the board 16 on the frame with screw C.

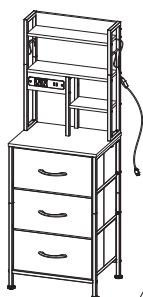

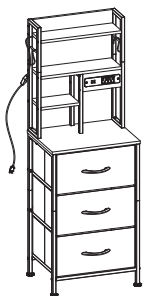

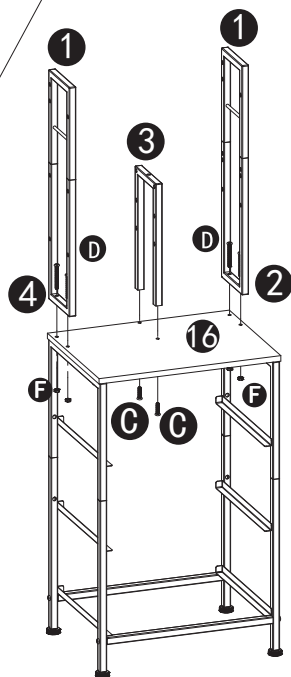

Step7: Install the frame on the board, the frame ①&②, ①&④ can be installed right and left interchangeable.

a. Install the frame ①&② on left to install the charging station at left side .

b. Install the frame ①&② on right to install the charging station at the right side.

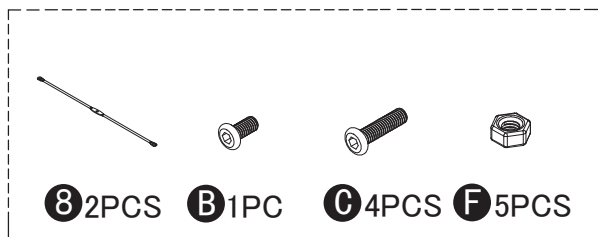

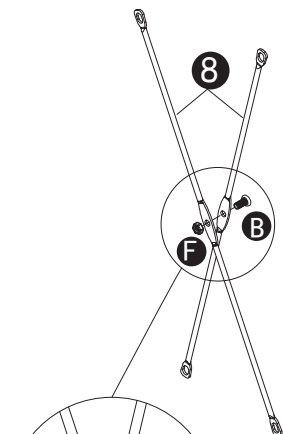

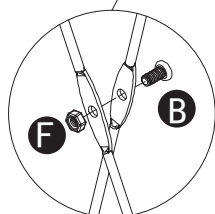

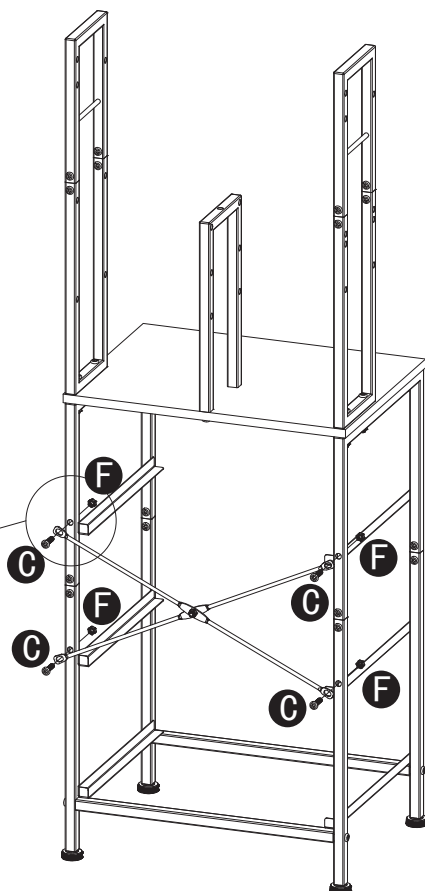

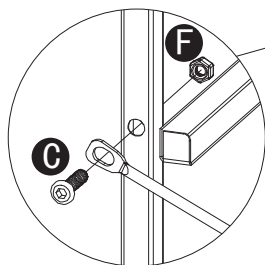

A

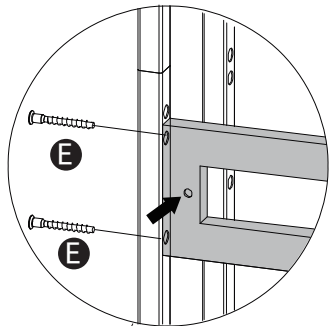

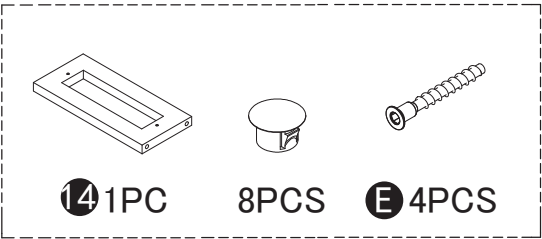

B

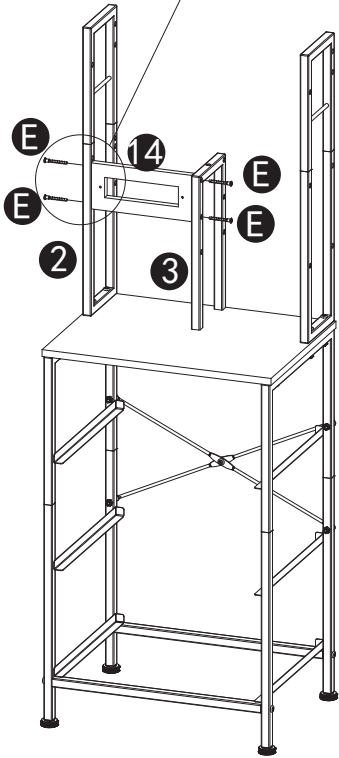

Step8:Attach the reinforcing steel bar **F on the frame with screw **C** and nut **F**.**

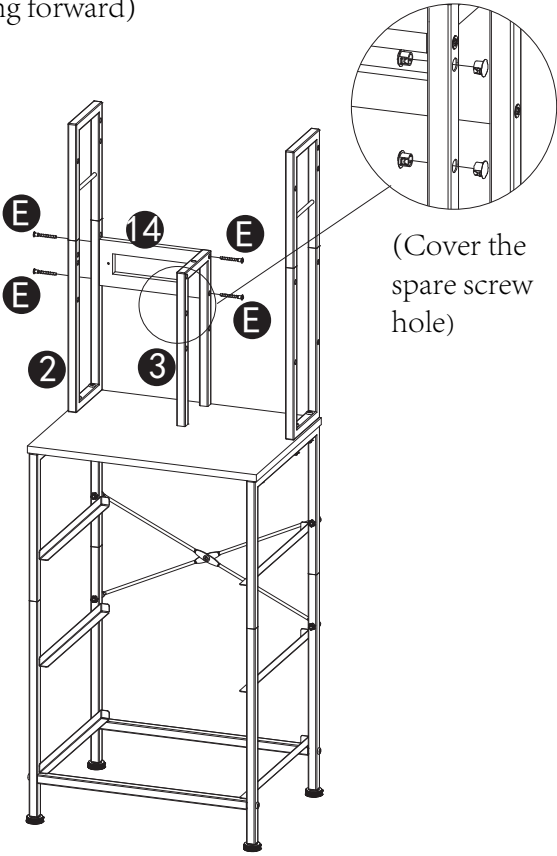

Step9: Install the charging board 14 onto frame 2 and 3, secure it using screw E. The board 14 can be installed front or back according to your need.

(Please note the hole is facing forward)

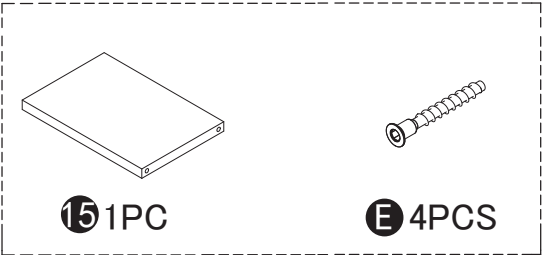

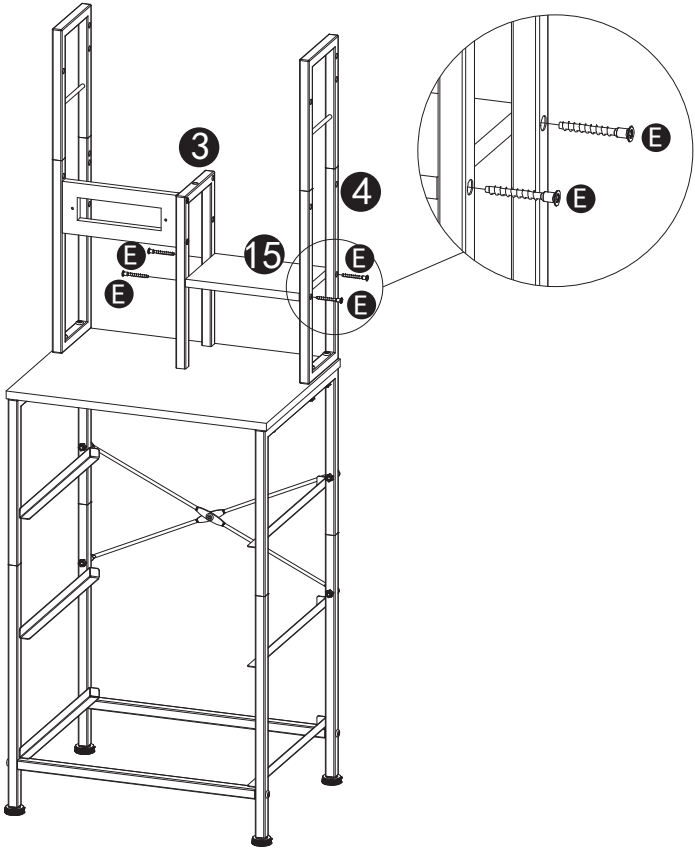

OR

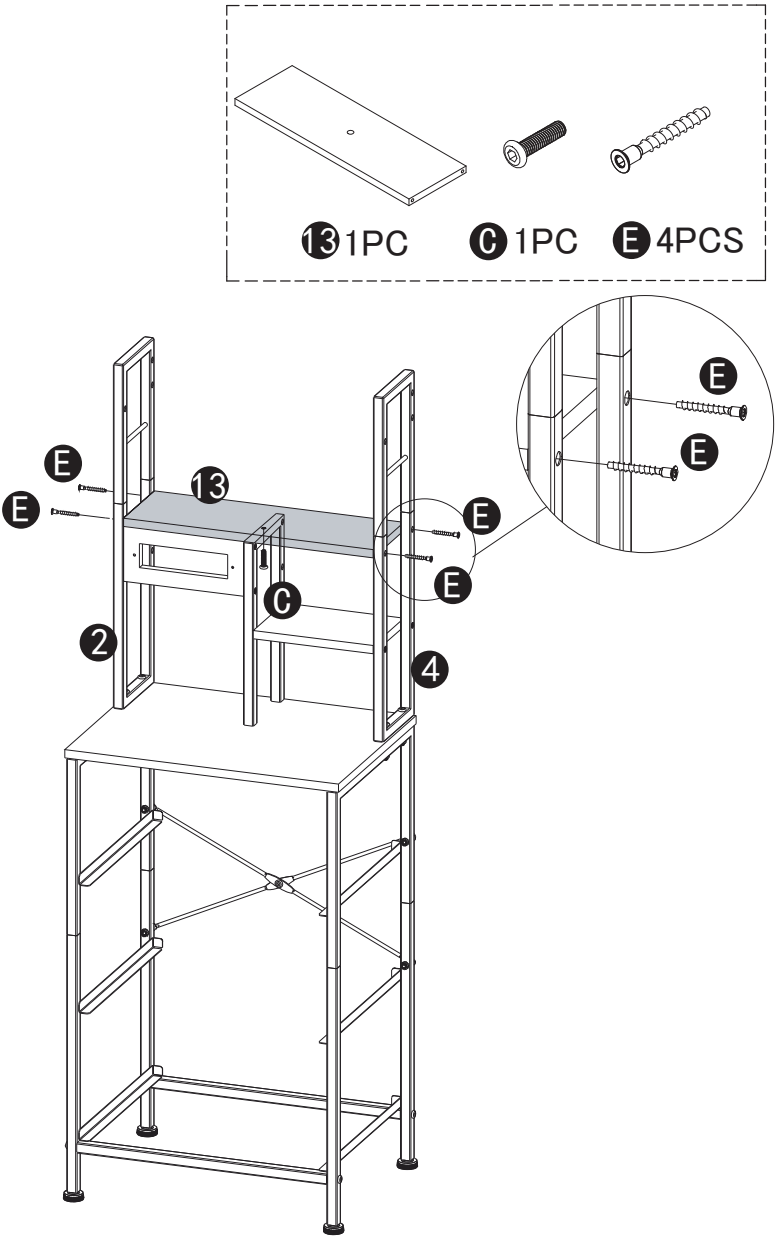

(Cover the spare screw hole)

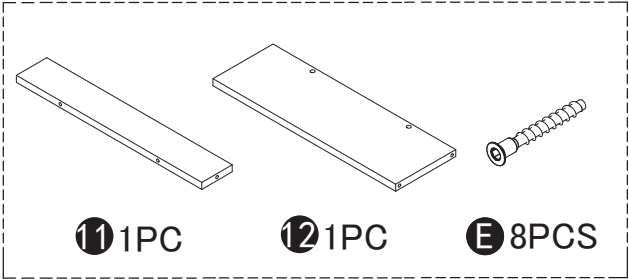

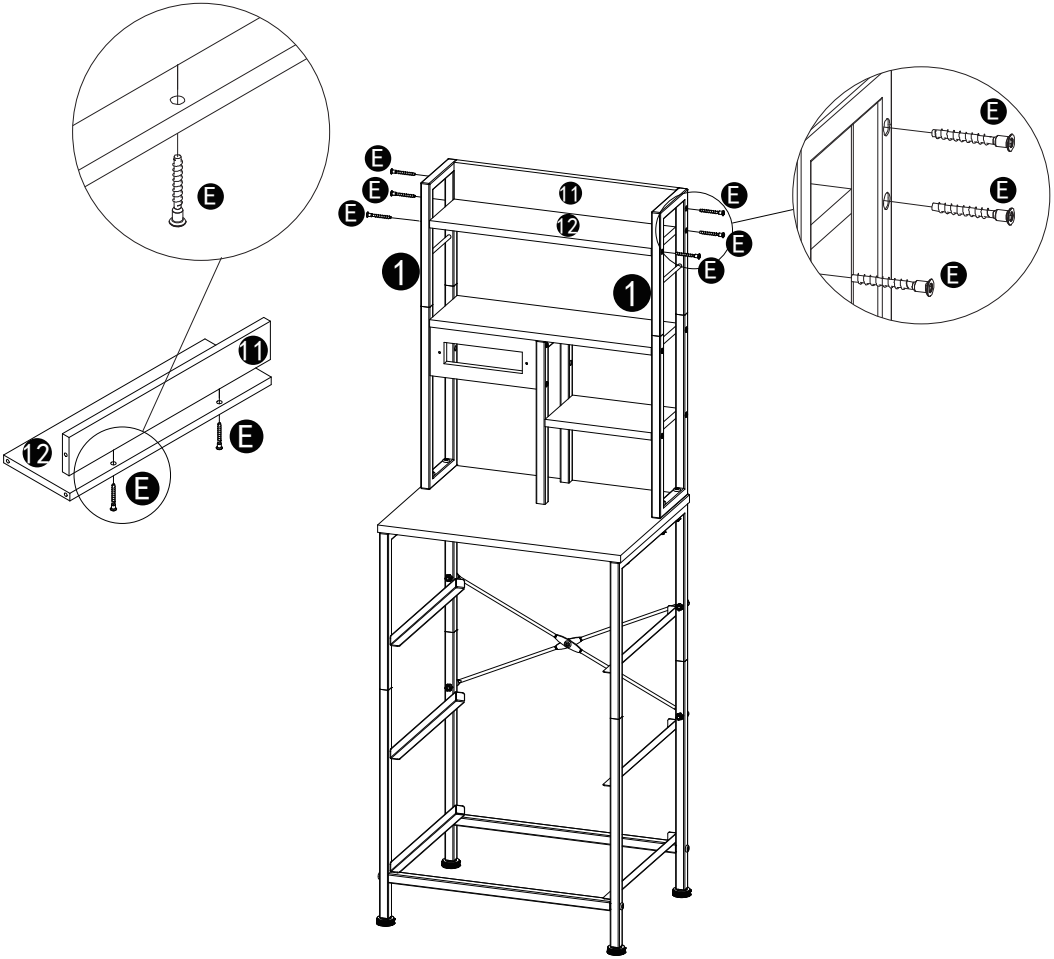

Step10: Install the board 15 onto frame 3 and 4 with screw E.

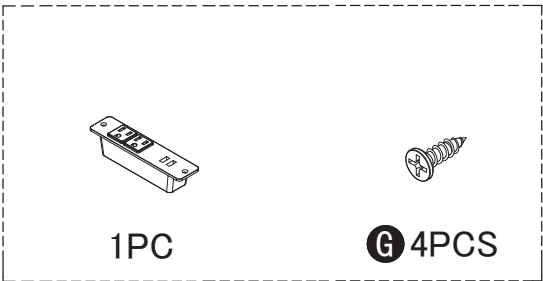

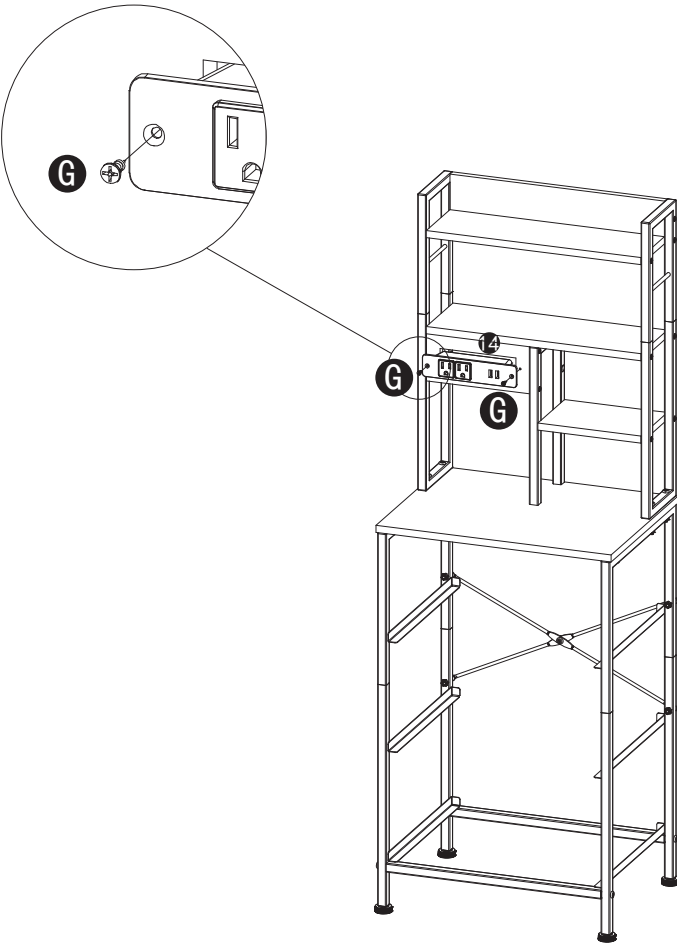

Step11: Attach the board 13 between the frame with screw E.

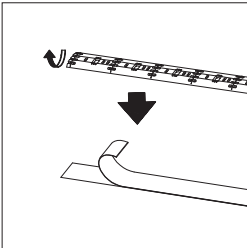

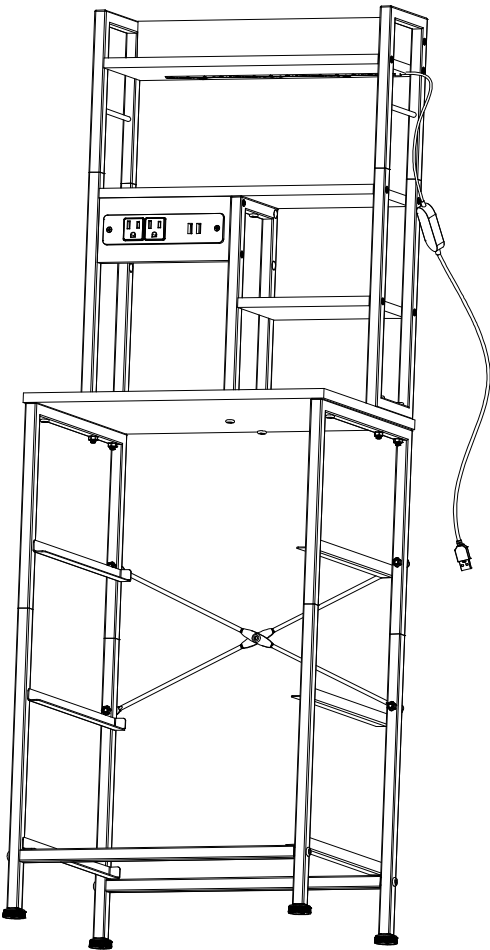

Step12: Assemble the shelf board 12 and back board 11, then fix them with the screw E.

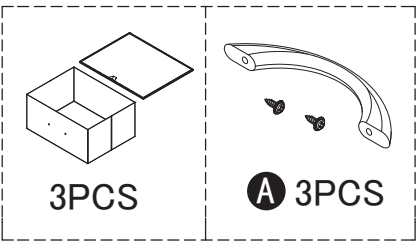

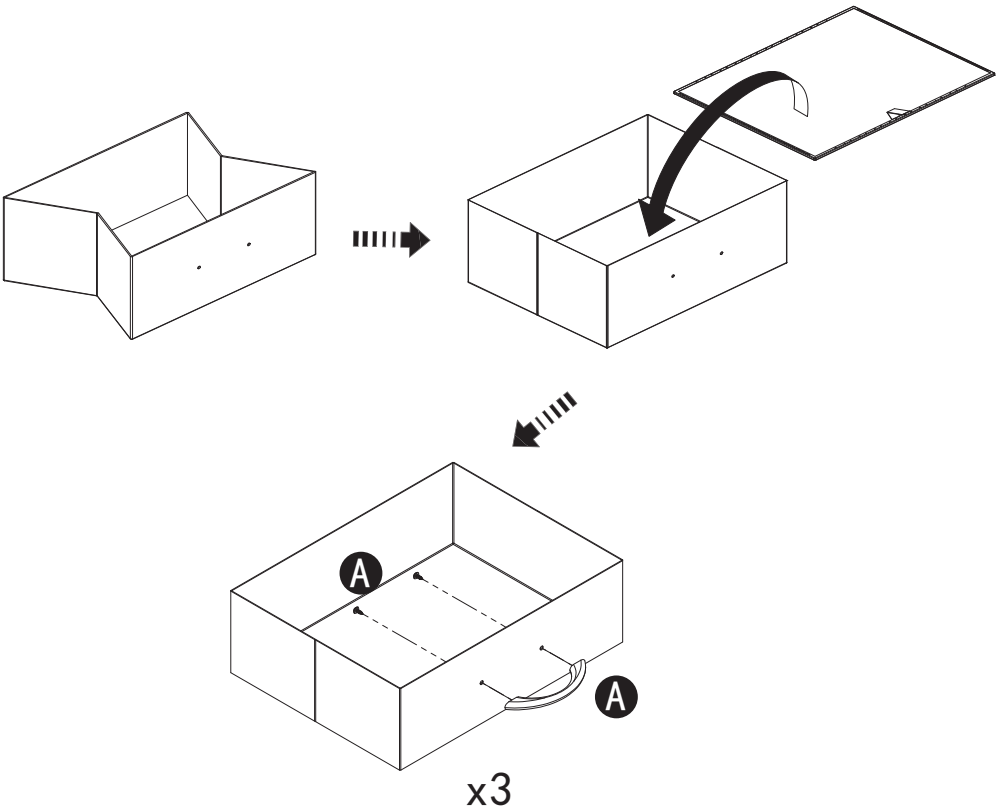

Step13: Install the charging station onto frame 14 and secure it using screw G.

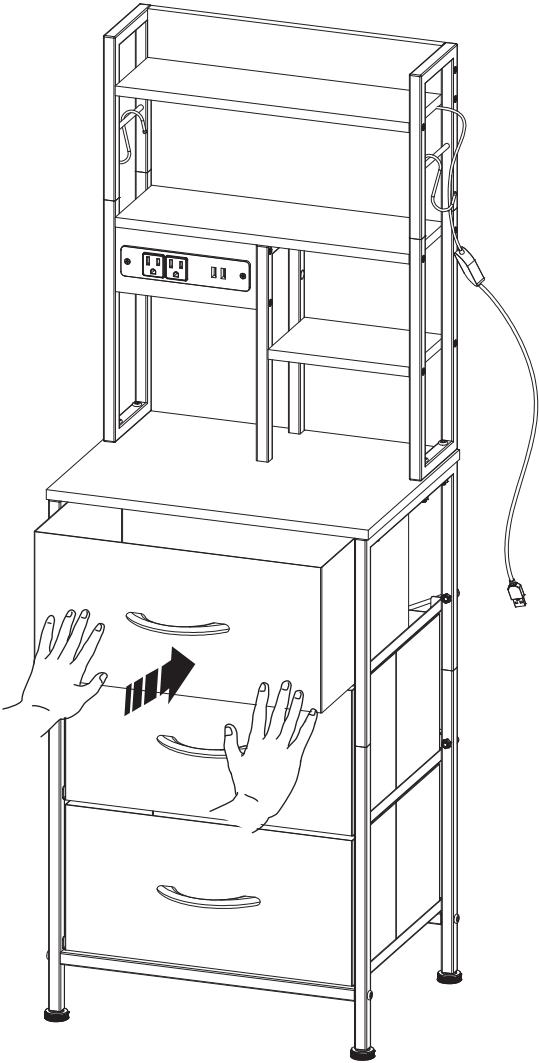

Step14: Peel off the cover of the LED light strip and install it to the place you desire.

Step15: Assemble the drawers.

Step16: Put the drawers into the metal frame.

For safety purposes, it is advised to install the anti-tipping kit for better stability.
