

Owner Manual

WARRANTY

We strive to offer high quality product and we also try our best to satisfy each customer that order from us, no matter on products or services as needed. Each customer receives a record of their order, such as the order number or item receipt. For any items that are out of warranty period, you may still be able to purchase the replacement parts from our company if they are available.

MAINTENANCE AND WARNING

Please read the manual thoroughly
before you start installing.

Please keep the product away from
sharp object.

Packaging and small parts may have
chocking hazard, please keep them away
from children and pets.

Please clean the product according to each
clean code, check the product description
for more information.

Please keep the product away from
fire.

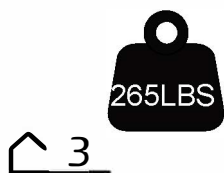

If you have any other questions, please
contact us, we will be glad to help you out.

If the product is placed under direct
sunlight, the pattern or color might fade
away overtime.

Check the product periodically to make
sure everything is secured and tightened.

Always use proper tools for installation.

Do not jump on the product.

PRODUCT DESCRIPTION

The chair is made from hand woven rattan, fully of natural feel.

The chair comes with a very comfortable wrist pillow, which provides extra lumbar support.

Come with paired woven rattan ottoman, allowing you to have more space to rest your legs.

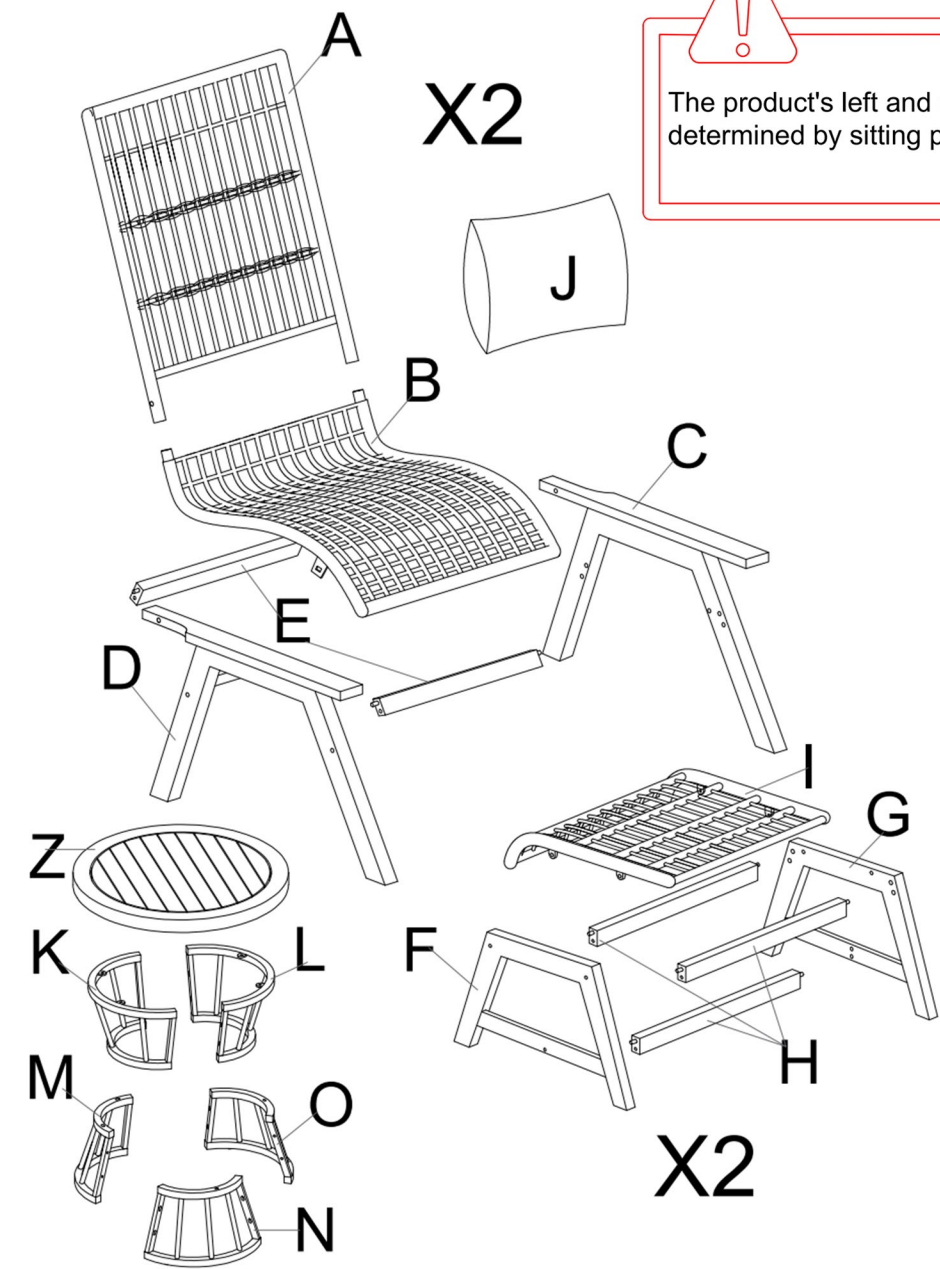

Weather resistant and very durable, made to endure outside weathers and elements, easy to maintain.

Easy to install with all the parts and tools included.

Allen wrench

step 2 ---Install the backrest (A)

Install the backrest (A) to the seat frame(B) as shown, then use the allen wrench (8) provided to tighten the bolts (2) on the back of the backrest, make sure the bolt holes on both backrest and seat frame are correctly aligned before tighten. Repeat the same step for another chair.

1.

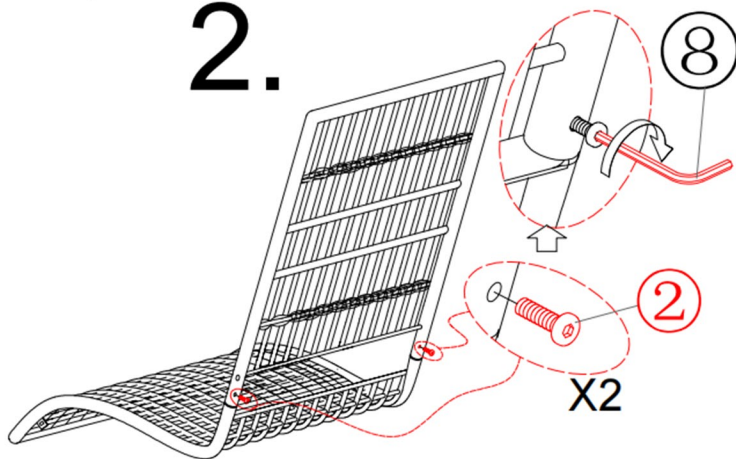

Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

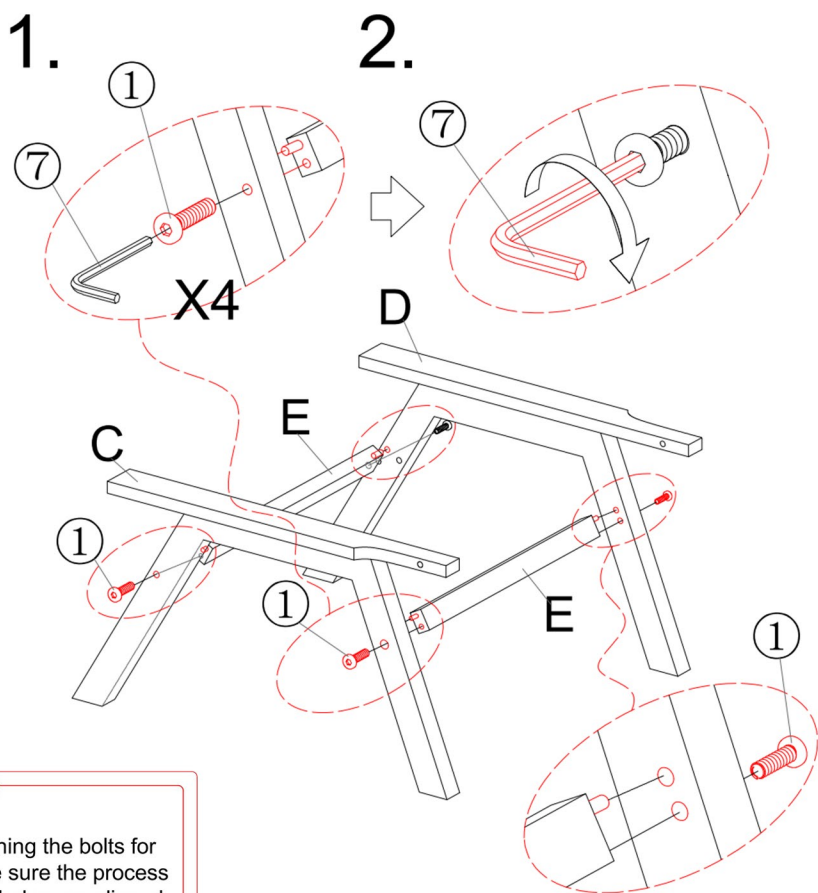

X2

2.

step 3 ---Connect the left armrest(C) and right armrest(D)

Connect the left armrest(C) and right armrest(D) with the front and back panel (E), use the allen wrench (7) provided to tighten all the bolts(1), make sure the bolt holes on both armrests and panels are correctly aligned before tighten. Repeat the same step for another chair.

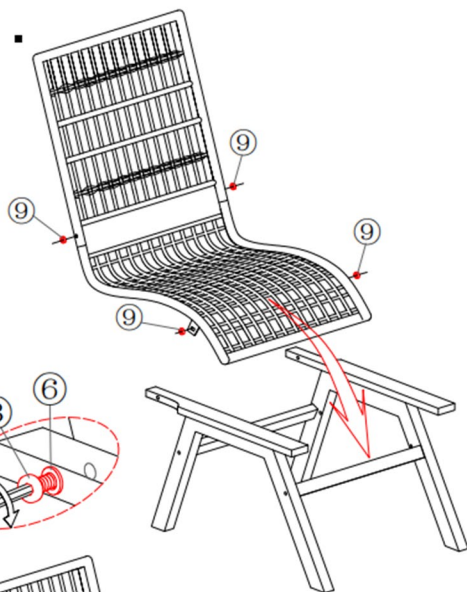

Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 4 ---Install the pre-installed chair onto the seat frame

Place the pre-installed chair onto the seat frame as shown, then place one flat washer(6) on each bolt (3) first, use the allen wrench (8) provided to tighten the bolts (3) on the sides of the armrests, and the bolts underneath the chair as diagram shows. Make sure the bolt holes on armrests and seat frame are correctly aligned before fully tightened. Repeat the same step for another chair.

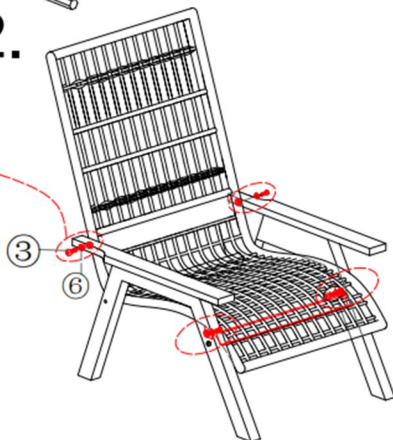

1.

! Please add one Plastic Washer to the bolts prior to installation to prevent abrasion between parts.

2.

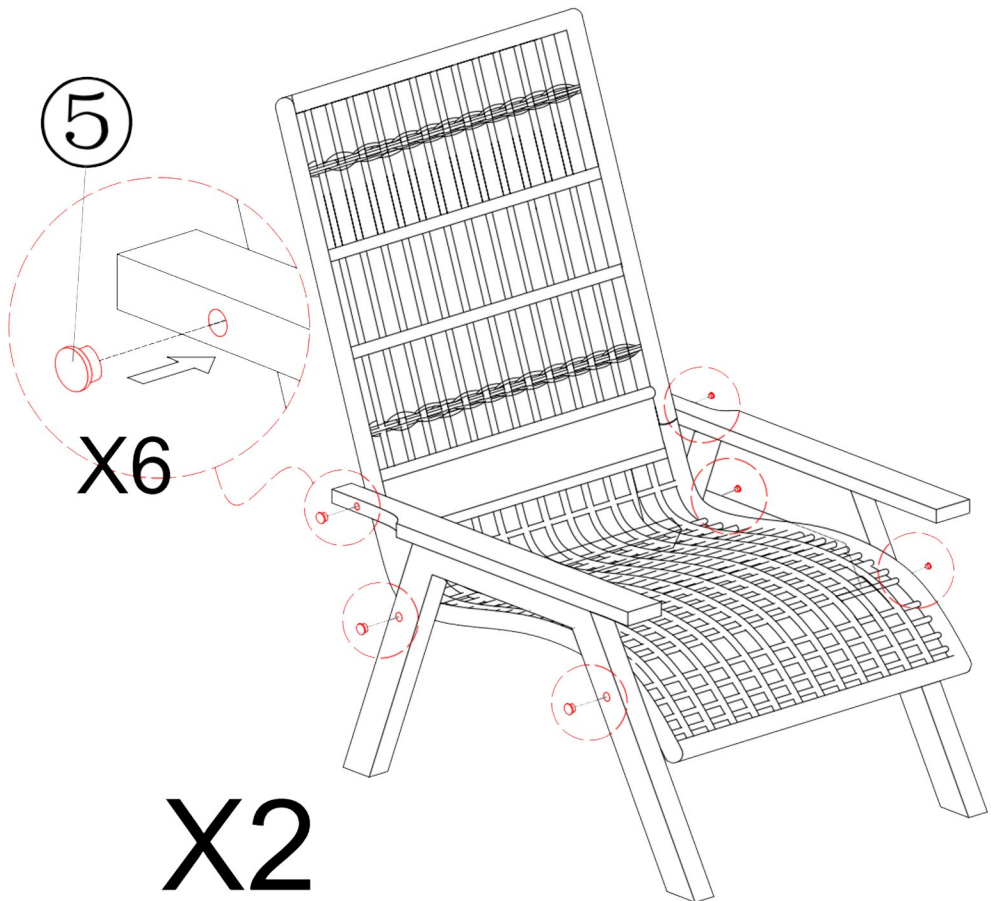

X2

step 5 ---Place the plastic caps (5)

Place the plastic caps (5) to cover the bolt holes on the sides of the legs/armrest as diagram shows.

Repeat the same step for another chair.

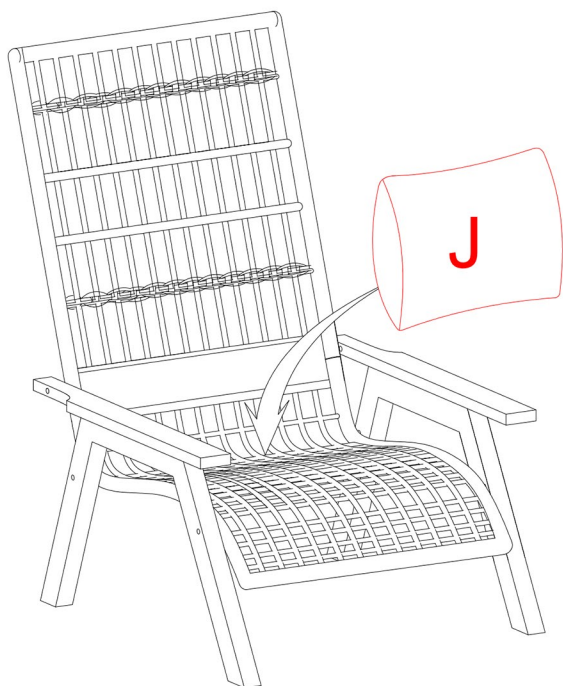

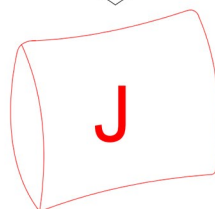

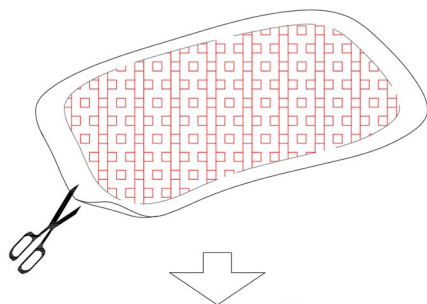

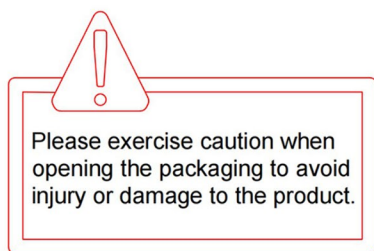

step 6 ---Cut the plastic air compression bags

Cut the plastic air compression bags, and take out cushions (J). place them on the side for recover to their original shape, the whole process might take up to **48** hours, you may gently slap on them to speed up the process.

Place the wrist pillow (J) onto the chair as shown.

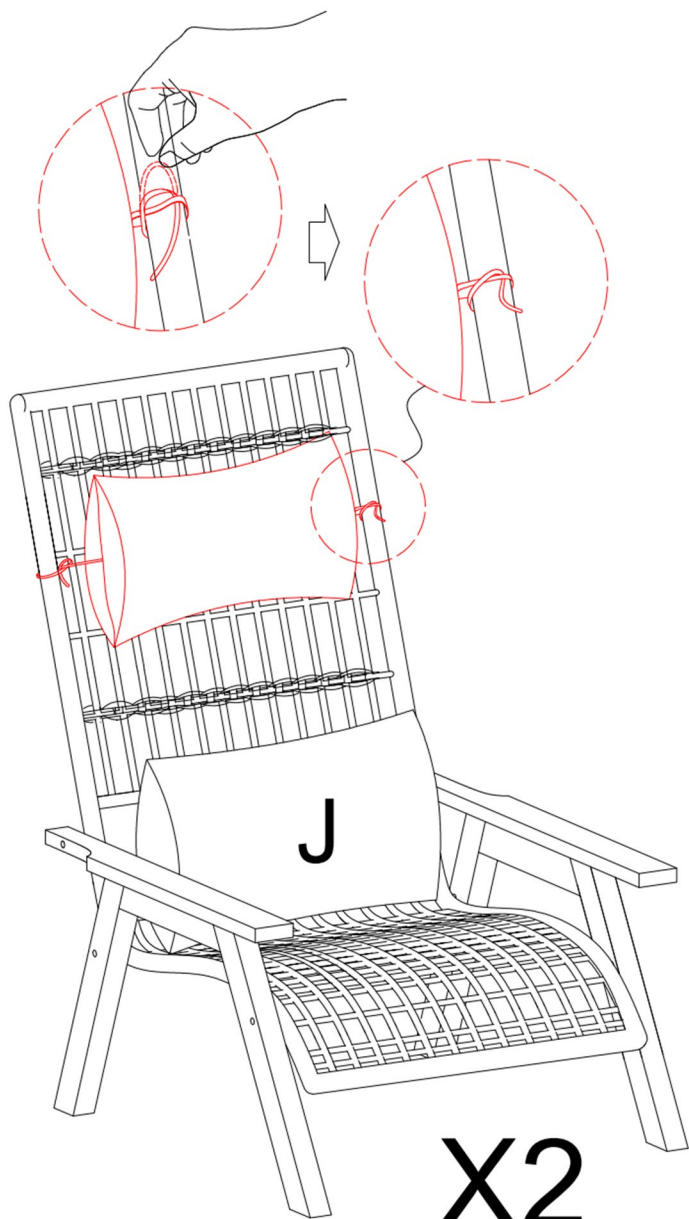

Repeat the same step for another chair.

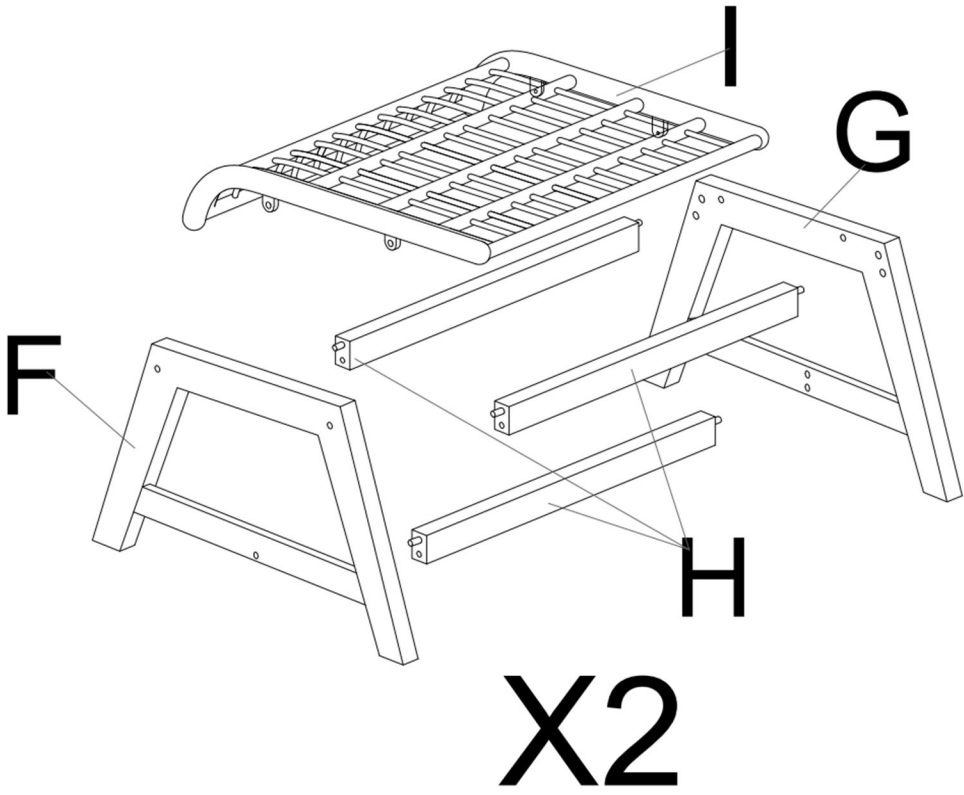

X2

step 7 ---Fasten the headrest.

Fasten the headrest.

⑧*1

M6
Allen wrench

step 14 ---Install the Part of the top (L) onto Part of the top (K)

Install the Part of the top (L) onto Part of the top (K), then use the allen wrench (8) provided to tighten the bolts (2), make sure bolt holes on table top and table frame are correctly aligned before tighten.

Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

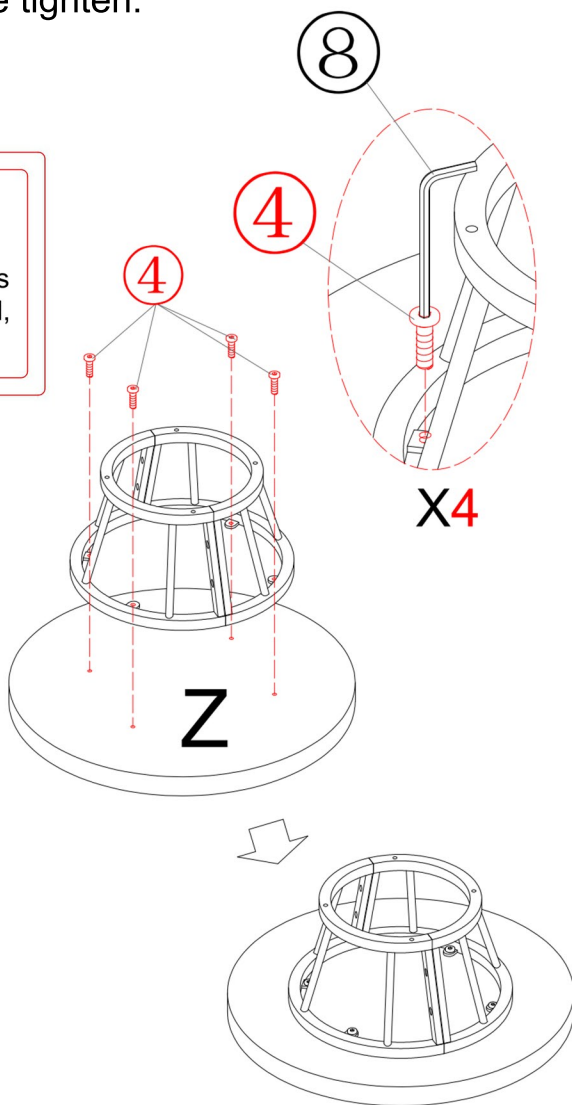

step 15 ---Install the table top (Z)

Place the table top (Z) upside down on a clean surface as shown, then install the preassembly part onto the table top(K), then use the allen wrench(8) provided to tighten the bolts (4), make sure bolt holes on table top and table frame are correctly aligned before tighten.

Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

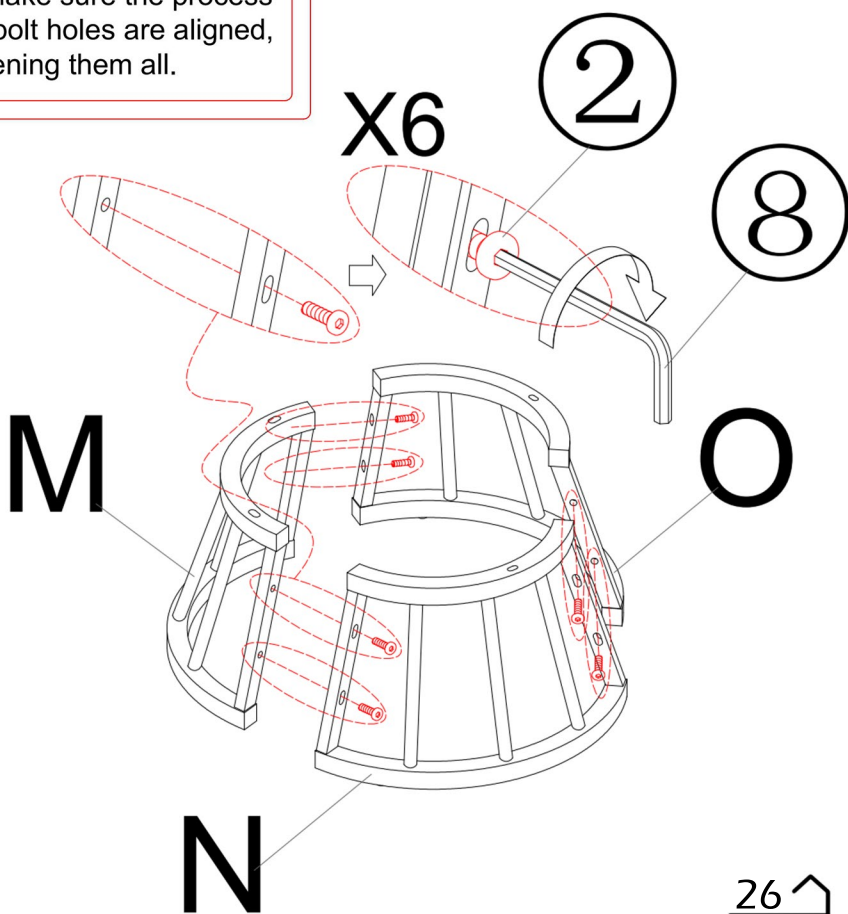

step 16 ---Install the Part of the bottom (M) onto Part of the bottom (O) &Part of the bottom (N)

Install the Part of the bottom (M) onto Part of the bottom (O) &Part of the bottom (N), then use the allen wrench (8) provided to tighten the bolts (2), make sure bolt holes on Part of the bottom (N,M&O) are correctly aligned before tighten.

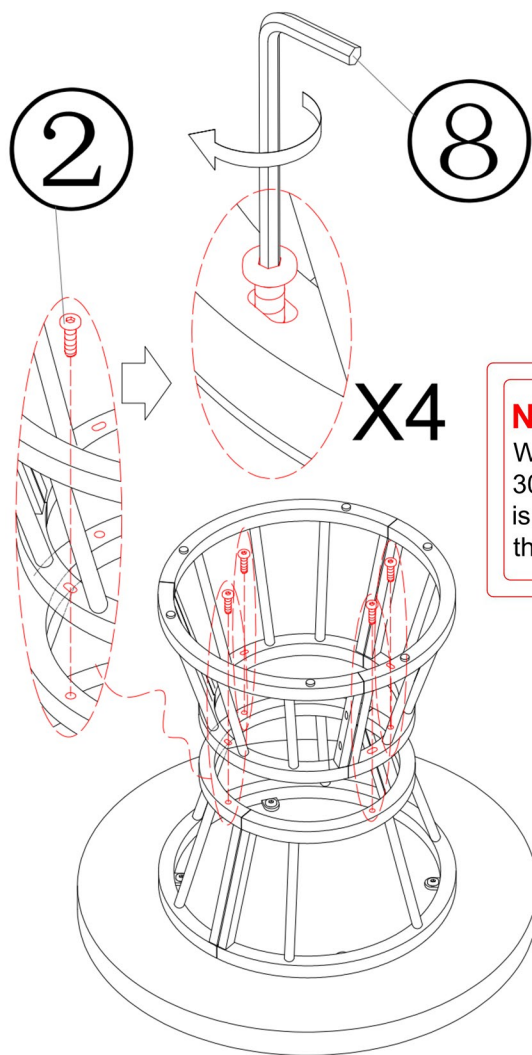

Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 17 ---Install the Part of the bottom to the Part of the top

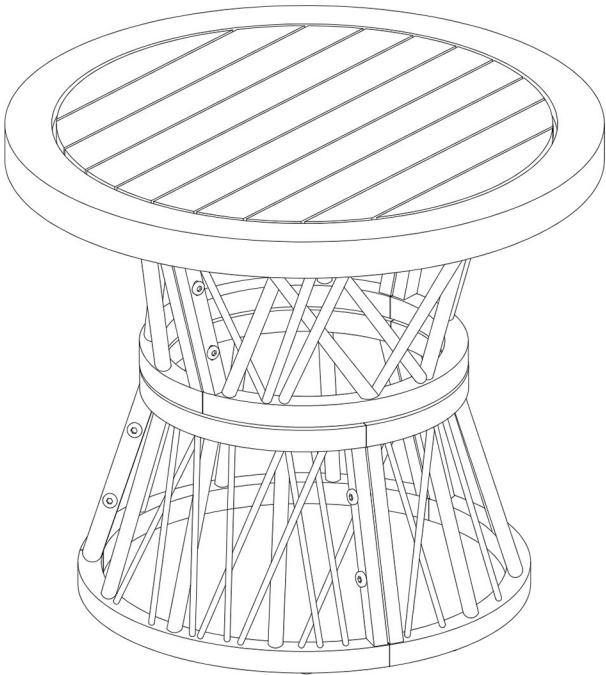

Then install the Part of the bottom to the Part of the top, as shown, then tighten the bolts (2) with the allen wrench(8) provided. Make sure the bolt holes on both frames are correctly aligned before fully tighten.

Notice:

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 18

step 19 ---Assemble complete!

Assemble complete! Thank you for choosing our product!
Please enjoy!
