Product Description

BISSELL® Garage Pro® wet dry vacuum is a useful addition to any garage or workshop. Not only does it vacuum wet and dry messes with two stages of filtration, it also converts to a blower. Use the blower function to clear debris or inflate items like air mattresses or pool toys. The 32-foot hose is perfect for cleaning large areas, plus it comes with seven versatile attachments: a crevice tool, dusting brush, small upholstery tool, precision suction tool, multi-surface floor tool, large area wet cleaning tool, and two extension wands. The dirt tank is semi-translucent, so it's easy to see when it needs to be emptied. Plus, the LED Full Water Tank indicator means there's no guessing when it comes to emptying wet messes from the machine. It doesn't stop there, though: this machine also saves pets! BISSELL proudly supports BISSELL Pet Foundation® and its mission to help save homeless pets. When you buy a BISSELL product, you help save pets, too. We're proud to design products that help make pet messes, odors and pet homelessness disappear.

From the Manufacturer

MOD 1

HTML Text (R PLACEMENT)
A complete cleaning system for your garage, car or workshop. The 32-foot hose suctions up wet and dry debris and mounts on the wall for easy storage. Includes seven versatile attachments.

MOD 2

Hot Spot

Questions & Answers

Q: What makes it so convenient?
A: The wall mount frees up floor space. It also means you don't have to lug the vacuum around while using it. The 32-foot hose reaches in and around your car. Plus, the four-gallon semi-translucent dirt tank and LED full water tank indicator means you don't have to guess when it needs to be emptied.
Q: What is the benefit of the blower function?
A: Use the blower function to blow leaves and other dry debris into a pile, clear debris from work benches and inflate items like air mattresses and pool toys.
Q: Why choose a canister vacuum?
A: BISSELL® canister vacuums are easy to maneuver and work with attachments to clean messes from tricky spots like stairs, car interiors, upholstery and more.
