

Ovente Electric Kettle, 1100W, 1.7L, Automatic Shut-Off & Boil-Dry Protection, BPA-Free, Stainless Steel, Concealed Heating Element, Tea and Water Heater, Cordless (KS96 Series)

Key Features

BOILING WATER READY IN MINUTES – Need boiling water for your early morning cup of tea? Get it real quick with Ovente Electric Kettle KS96 Series! This electric kettle runs on 1100W (120v), and it can bring a full pot into a boil in 7 minutes or less. Simply fill the jug with water, switch the kettle on, and wait for your water to be ready.

NOTHING MORE THAN CLEAN WATER – Save yourself from the health-associated risks of ingesting harmful chemicals that come from a kettle's loose BPA particles. This improved KS96 version is made of stainless steel and is BPA-free! It effectively resists rust and lime scale buildup. You'll be sure that what you'll get is a clean drinking water that's safe for you and your kids.

FOR THE WHOLE FAM – Brewing French presses for your family? No problem. The kettle's carafe accommodates 1.7L of water so you can have a cup for yourself plus some more for others.

SMART & ULTRA-SAFE – You don't need to worry even if you accidentally left the kettle on and plugged in. The kettle has an automatic shut-off feature and boil-dry protection: It turns off on its own when the water inside the carafe is ready or when there is no water in the jug.

LIMITED 2-YEAR WARRANTY – All Ovente kettles have a two- (2) year warranty period from the date of purchase from an authorized retailer. This warranty only covers defects in workmanship and materials. Please note that you have to provide proof of purchase to request for repair or replacement.
