Notes

1. Please check the size carefully before ordering.
2. Please read the English manual and product label carefully before using the product.
3. Essential oils are not included. Please do not mix essential oils with water.
4. It is recommended to set the working time to 60-90 seconds and stop 120-180 seconds. You can adjust it

according to the size of the room and the preference of the flavor intensity. Once the diffuser starts working, you need to wait a while before you can smell the scent.

5. Please regularly clean it every 2-3 months.
6. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before you order.
