Installation Instructions

1. Use mounting screws to secure the mounting bracket to the junction box.

2. Connect the incoming and outgoing wires using wire connectors.

(Note: Connect the black wire to black (live), white wire to white (neutral), and ground wire to the ground screw.)

Be sure no copper wire is exposed during connection.

3. Use screws to secure the ceiling canopy to the mounting bracket.

4. Install the bulb into the socket.

5. Align the inner thread of the aluminum part on the glass with the outer thread on the socket part, and twist to tighten the glass.

6. Turn on the power and check if the bulb works properly.

Installation complete.
