# 4PK Solar Pathway Lights with Rotating Light Effect

## INSTALLATION INSTRUCTIONS

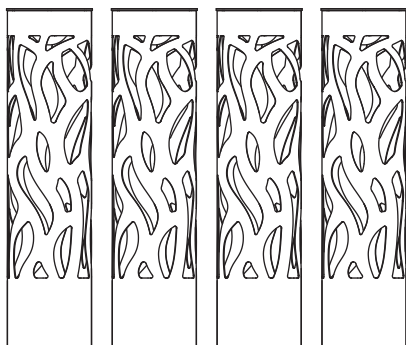

Questions, concerns, or need replacement parts?

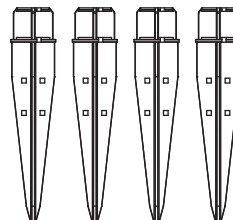

Please contact our Customer Loyalty Team at:  
[support@homezone-usa.com](mailto:support@homezone-usa.com) or 1-888-782-5618  
Monday - Friday  
8AM - 5PM EST

Model No. ELJ9178V

# What's in the box

4x Light Fixtures

4x Spikes

## Parameter

- 01 Dimension: approx. Dia. 4"(10cm) x H. 22"(55cm)
- 02 Brightness: Up to 50 lumens (50 lumens for the first 2 hours and 20 lumens continuously after battery is fully charged)
- 03 Light source: 21pcs warm white LED, 3000K

## How to operate and install

- Pull out the Solar Top Unit (Part A) from the Metal Post (Part B).
- Slide the switch under the Solar Top Unit (Part A) to your desired option (ON or Rotating) as shown in Figure 2, and then replace the Solar Top Unit (Part A).
- Insert the Ground Spike (Part C) into the ground where it can receive a full 8 hours of sunlight to allow the rechargeable battery to reach maximum capacity.
- Put the Light Fixture (Part A & B) onto the Ground Spike (Part C).
- Then the light will turn on automatically at dusk.

Note: Lights with solar panels may have a protective film over the solar panel that must be removed prior to use.

# Important safety operating instructions

---

PLEASE READ CAREFULLY AND SAVE THESE INSTRUCTIONS, AS YOU MAY NEED THEM AT A LATER DATE.

## IMPORTANT SAFETY OPERATING INSTRUCTIONS

- 01 Please read all warning and instruction labels which are included in the box and fixture to avoid personal injury, property damage caused by fire, cuts, bruises, death and other dangers.
- 02 Please follow these general precautions before installing, maintaining, or fixing.

## Precaution

---

- 01 It is important to select an outdoor location with full, direct sunlight where the solar panel can receive at least 8 hours of sunlight each day.
- 02 It is important to avoid placing the solar light by light sources, such as street lights or porch lights, which may cause the solar light to turn off automatically.
- 03 To avoid explosion and corrosion, please keep the solar light away from fire and humid environments.
- 04 Do not strike to avoid any damage to the solar cell.

## Warning

---

 **CA WARNING:** This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

- 01 Keep the packaging material away from children and pets
- 02 The solar light is not a toy
- 03 We do not take responsibility if the instruction manual is not followed correctly, or if the product is handled improperly, resulting in personal injury or property damage.

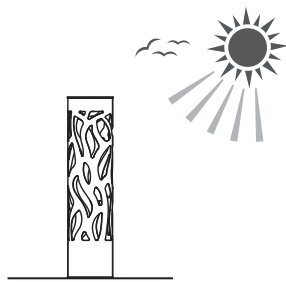

## Cleaning and maintenance

---

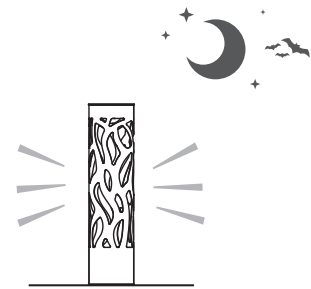

- 01 Use a damp cloth to clean the solar panel
- 02 To avoid any damage to this light, please do not use any chemical or abrasive cleaner

# How it works

---

Solar panel collects sunlight to charge the battery (included) during the day

Automatically turns on at dusk for up to 10 hours of nighttime illumination

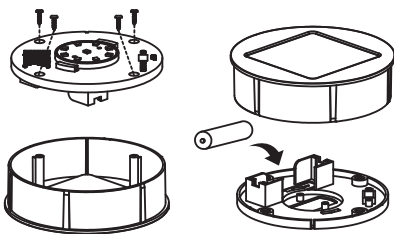

## Rechargeable battery

---

This product contains (1) 3.2V 14500 600mAH LiFePO4 rechargeable battery. When the battery expires, it must be recycled or disposed of properly. Please contact your local waste disposal authority for the correct procedure. Do not put the battery into fire.

- Only rechargeable batteries are to be used.
- Exhausted batteries must be removed from the product and disposed of properly.
- Batteries must be placed with the correct polarity.

### Battery replacement

- 01 Pull out the Solar Top Unit (Part A) from the Metal Post.
- 02 Remove the (4) screws under the Solar Top Unit (Part A) and open the battery compartment cover as shown in the left photo.
- 03 Take out the old battery from the battery compartment.
- 04 Replace with a new battery (the capacity should be not less than the old battery), making sure the polarity is correct.
- 05 Put the battery compartment cover back and tighten with the (4) screws.

## Troubleshooting

---

### The light does not come on at night:

- Make sure the switch is not at "OFF" position.
- Check the rechargeable battery and make sure that it is in contact to the metal plate and the polarity is correct. If the battery is worn out, replace the battery with (1) 3.2V 14500 600mAh LiFePO4 rechargeable battery.
- Always keep the solar light distant from other night light sources, such as exterior lights. Reposition the light to avoid close contact with other night light sources.
- Make sure solar panel is clean and free of dirt and debris. If needed use a damp cloth to clean the solar panel. Do not use any chemical or abrasive cleaner. It is important to ensure that no moisture enters into the solar light.
