⚠ WARNING

To reduce the risk of fire and electric shock due to internal component damage, use only BISSELL cleaning fluids intended for use with the deep cleaner.

⚠ WARNING

Do not plug in your cleaner until you have completely assembled it per the above instructions and are familiar with all instructions and operating procedures.

Keep plenty of genuine BISSELL 2X formula on hand so you can clean and protect whenever it fits your schedule. Always use genuine BISSELL deep cleaning formulas. Non-BISSELL cleaning solutions may harm the machine and may void the warranty.

1.5L 2X Wash & Protect Professional Formula w/ Scotchgard™ Protector #1089E

650 mL Stain Pretreat #1147E

Assembly

Before you clean

1. Vacuum area with a dry vacuum cleaner thoroughly before deep cleaning.
2. Pretreating (optional):
 - 2a. Pretreating is recommended to improve cleaning effectiveness for heavily soiled carpet in high traffic areas such as entryway and hallways.
 - 2b. **BISSELL Stain Pretreat**
Spray the BISSELL Stain Pretreat formula onto heavy traffic areas, soiled areas or stains.
Allow to penetrate for at least 3 minutes.
Clean as normal, following the instructions below.

ATTENTION

Some Berber carpets have a tendency to fuzz with wear. Repeated strokes in the same area with an ordinary vacuum or deep cleaner may aggravate this condition.

Preparing the machine

1. Release flex hose by twisting the hose secure latch clockwise. Unwrap flex hose completely.
2. Attach the desired tool to the hose grip until it snaps together. Make certain the tool is securely attached.
3. Twist the Quick Release™ cord wrap clockwise to unwrap the power cord completely and plug into grounded outlet.

Filling the formula & water tank

1. Remove tank from the back of the machine by lifting up tank carry handle.
Note: This tank was designed with a flat bottom so it can be easily filled.
2. Unscrew the black cap and remove bottle insert.
3. Fill tank with hot tap water (140° F/60° C MAX) to the water fill line. Add 60 mL of BISSELL 2X formula to the tank.
4. Replace the bottle insert in the tank and tighten the black cap. Replace the tank on the portable machine.

Tip

Make only one trip to the sink by bringing the entire portable cleaner. Fill and empty in the same trip.

Operations

Cleaning with your spot cleaner

1. Plug unit in and turn on by pressing power button.
2. Hold cleaning tool approximately 2.5cm above soiled surface. Press spray trigger to apply cleaning solution to soiled area.
3. Using brush on cleaning tool, gently scrub area to be cleaned.
4. For thorough cleaning, spray additional solution while brush and suction are in contact with surface.
5. Apply downward pressure on cleaning tool and pull it toward you. The suction will remove the dirt and cleaning solution. Continue until no more dirt can be removed.
6. As a final step, use “drying strokes” (by not pressing the spray trigger) to remove as much liquid/moisture as possible. Repeat this step as often as necessary.

WARNING

Keep spray away from face. Failure to do so may result in personal injury.

IMPORTANT

Check the manufacturer's tag before cleaning upholstery. “W” or “WS” on the tag means you can use your SpotClean Pro. If tag is coded with an “S” (with diagonal strike-through), or says “Dry Clean Only,” do not proceed. If manufacturer's tag is missing or not coded, check with your furniture dealer.
