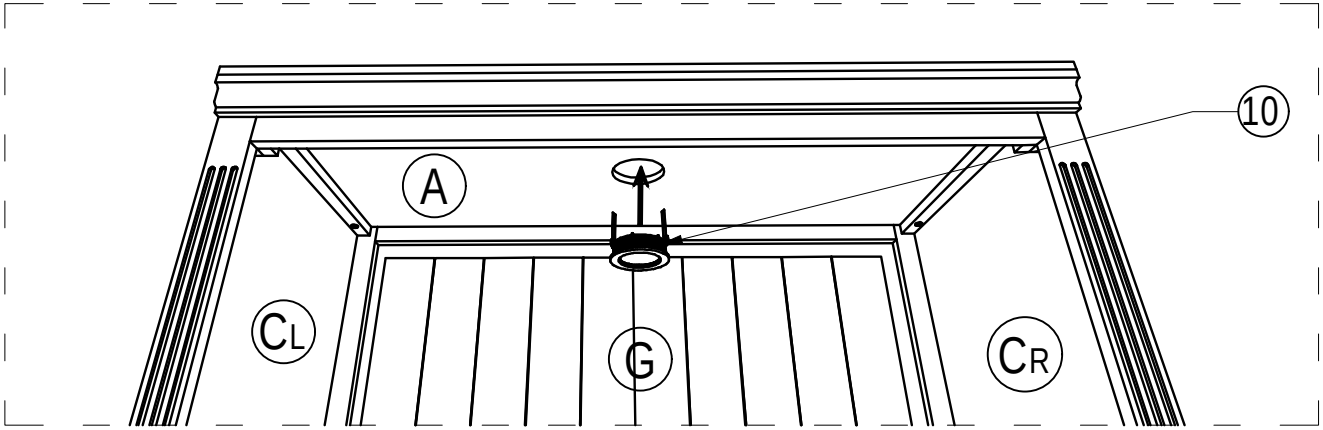
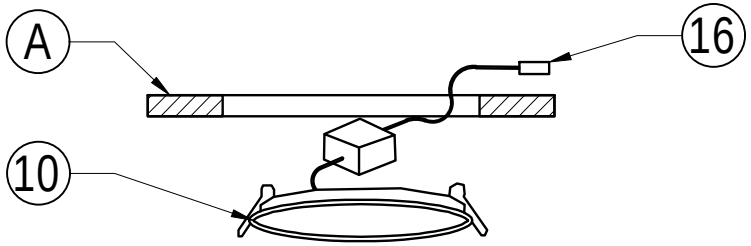
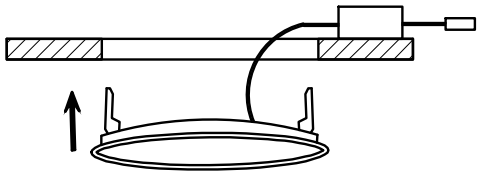
STEP 7







1. First, turn off the power at home. After turning off the power at home, put on insulating gloves to handle it. Connect the wires of the lamp and the wires at home through component #16 (insert several wires into the slot of component #16), and you can use it.

2. If you still don't understand, you can watch the video provided. The yellow wire in the video is the electrical wire that can be powered in the user's home.
