

THEODORE ALEXANDER

High-Water 1

D1488S29759-2550

High Water is a graceful piece suggestive of the work of Cy Twombly in the mid-50s. Like Twombly's work, this piece on canvas includes hand-drawn objects, doodles, and thick, textured globs of bright white paint. The work evokes visual lyricism. The color palette of pewter, faint lilac, and sky blue lends a sense of calm to the piece.

Profound feelings of tranquility follow the delicate blend of earth tones in this exquisite complement to Varying Fortunes. An original addition to the carefully curated ART by TA collection.
