

Sink Shape Compatibility Chart

Sink Shape	Description	Compatibility
  Rectangular (Flat Bottom)	Square or slightly rounded corners with a flat base	Best fit for our protector design
  Rectangular (Rounded Bottom)	Curved corners but base remains flat	Allow clearance to prevent tight fit or slanting
  Trapezoidal	Sink tapers in inwards towards the bottom	Protector's feet may not reach the base
  Oval or Round Basin	Circular or oval-shaped	Protector cannot be securely placed
  Farmhouse / Deep Curved Bottom	Thick rim with a curved base	Prone to slanting or improper fit
