Assembly Steps

Overview

This Chair has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Chair parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Unplace and place all parts on a clean, non-marring surface.

Step 2

With the help of your adult partner, insert the tenons on Backrest Panel(A) and Support Bar(C) into mortises of Left Arm Panel(D). Attach Backrest Panel(A) and Support Bar(C) to Left Arm Panel(D) using Screws(①), and Screw(②) with Allen Wrench(③) as pictured above.
Do not fully tighten the Screws.

Step 3

Insert the tenons on Backrest Panel(A) and Support Bar(B) into mortises of Right Arm Panel(E).

Attach Backrest Panel(A) and Support Bar(B) to Right Arm Panel(E) using Screws(①), and Screw(②) with Allen Wrench(③) as pictured above.

Do not fully tighten the Screws.

Step 4

Insert Seat Panel(B) into assembled Chair frame as pictured above.

Step 5

Place the Chair on a LEVEL SURFACE.

Gently and carefully sit into the Chair.

This will help to align all Parts and Screws fully.

Test the Chair for wobbles.

If no wobbles are found then proceed to tighten all Screws in a sequential manner.

Do not tighten any Screw fully and then move on towards the next one, this could cause the frame to warp.

Place Seat Cushion(F), and Back Cushion(G) onto the Chair, then secure the magic tape straps to the Chair as shown above.

Your Chair is ready for use.

This Chair can only be used on a flat, level surface.
