Screwdriver

*not included

Fontana Varese 22" LED Musical 6 Functions Thermostatic Shower System With Handheld Shower and 6 Jetted Body Sprays

Product Code: FS145006N

Shower Head Installation Instructions:

Step 1:

Remove the protective cover (F). Mark the positions and drill holes to suit the anchors (A). Install the anchors (A) and fix the rough-in valve (B) into the wall with screws. Use a level to ensure that the rough-in valve (B) is straight and level. (Important: Flush the water supply to remove any dirt and debris before installing the valve body).

Step 2:

Wrap Teflon tape around the pipe threads and connect water supply lines and in-wall pipes (not included) as desired to the rough-in valve (B). Turn on the water supply and open the cartridge to check for leakage. Then put on the protective cover and finish the wall surrounding the valve. (Note: Test the water pressure after the pipe connections have been made and before the finished wall material is installed).

Step 3:

Fix the escutcheon (D) to the showerhead (E) with screws (C).

Step 4:

Remove the protective cover when the finished wall is completed. Then, install the showerhead (E) and press it against the finished wall.

Control Panel Installation Instructions:

Size :

Parts :

Step 1 :

Suggested installation height of the touch panel.

Step 2 :

Verify that the nuts are threaded on the bolts.

Step 3:

Verify that the fixture is located horizontally.

Step 4:

Adjust the fixture mounting depth by turning the nuts shown in Fig. 2 against the wall facing. The fixture should protrude over the wall facing by 0.7 mm.

Fontana Varese 22" LED Musical 6 Functions Thermostatic Shower System With Handheld Shower and 6 Jetted Body Sprays

Product Code: FS145006N

Step 5:

Suggested distance of the fixture edge from the wall facing.

Step 6:

Fasten the fixture with the nuts. Finish the decorative surface.

Step 7:

Suggested distance of the fixture edge from the wall facing.

Step 8:

Install the control panel by pressing it onto the fixture until you hear the click of engaging tabs.

Recessed Body Jets Installation Instructions:

Parts : 1.Pipe, 2.Plastic box, 3.Decorative plate, 4.Connector, 5.Body, 6.Bolt #6, 7.Outlet face, 8.Bolt #8
9.Outlet face

Fontana Varese 22" LED Musical 6 Functions Thermostatic Shower System With Handheld Shower and 6 Jetted Body Sprays

Product Code: FS145006N

Step 1: Remove the decorative plate out of the body

Step 2: Remove the screws from the outlet face (B) and connector body (C) with the Allen key (D).

Step 3: Push the plastic box into the wall
IMPORTANT: Please make sure the "UP FACE" marking is in the top position

Step 4: Install the decorative plate assembly into the plastic box. Make sure the position is correct

Fontana Varese 22" LED Musical 6 Functions Thermostatic Shower System With Handheld Shower and 6 Jetted Body Sprays

Product Code: FS145006N

Step 5: Screw the connector into the pipe with H10 wrench

Step 7: Screw the bolt #6 into the body. Make sure the body and the connector are tight. The decorative plate should now be secure and will not move

Step 6: Install the body assembly to the connector

Step 8: Install the outlet face assembly to the body. Make sure the outlet face is fully seated onto the body. Screw the bolt #8 through the outlet face into the body (*Do not over tighten*)

(Make sure the hole and the raised dot are in the correct position when you push the decorative plate into the body.)

(This side is in the bottom position when push the decorative plate into the body first.)

Step 9: Screw the outlet face a little angled. Make the decorative plate have a little angle too when push it into the body. Adjust the outlet face when push the decorative plate in order to put it out of the decorative plate
