Q*4				

1. Tip: In order to increase efficiency for installation, you can use electric screwdriver.
 2. The roof may have water accumulation after it rains. We recommended to use long sticks or other objects to lift up the cover to drain the water away, otherwise, the roof will be affected by the gravity and the buttonhole will be torn.

1. Für eine effizientere Installation, können Sie einen Elektroschrauber verwenden.
 2. Nach Regenfällen kann sich Wasser auf dem Dach ansammeln. Wir empfehlen, die Abdeckung mit einem langen Stock oder einem anderen Gegenstand anzuheben und das Wasser abzulassen, da sonst die Schwerkraft auf das Dach einwirkt und die Ösen reißen.

1. 組立のコツ: 効率的に組立作業を進めるため、電動ドリルドライバーを使ってください。
 2. 雨が降った後、屋根に水が溜まる場合があります。長い棒などを使ってカバー（屋根）を突き上げて水を排除してください。そうしないと、屋根が重力の影響を受けて、破れてしまう恐れがあります。

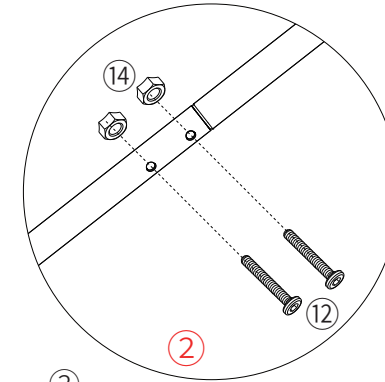

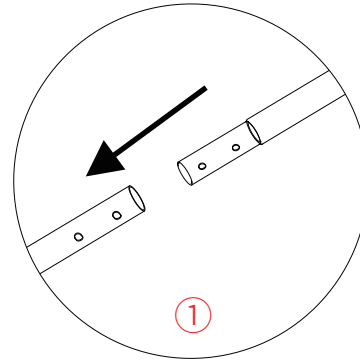

1. Il est recommandé d'utiliser un tournevis électrique pour une installation facile.
 2. Après la pluie, il est possible que de l'eau s'accumule sur le toit du poulailler. Nous vous recommandons d'utiliser un long bâton ou tout autre objet pour soulever le toit afin de permettre à l'eau de s'écouler. Sinon, le poids de l'eau pourrait endommager le toit et déchirer les œillets.

1. 효율적으로 조립을 진행하기 위해 전동 드릴 드라이버를 사용하십시오.
 2. 비가 온 후에 지붕에 물이 고이는 경우가 있습니다. 긴 막대 등을 사용하여 지붕을 들어 올려 배수해 주십시오. 그렇지 않으면 지붕이 중력의 영향을 받아 찢어질 우려가 있습니다.

1. Suggestimento: Per migliorare l'efficienza dell'installazione, si può utilizzare un cacciavite elettrico.
 2. Dopo la pioggia, il tetto può accumulare acqua. Raccomandiamo di usare un bastone lungo o un altro oggetto per sollevare il coperchio e drenare l'acqua; altrimenti, il tetto subirà la forza di gravità e gli occhielli potrebbero strapparsi.

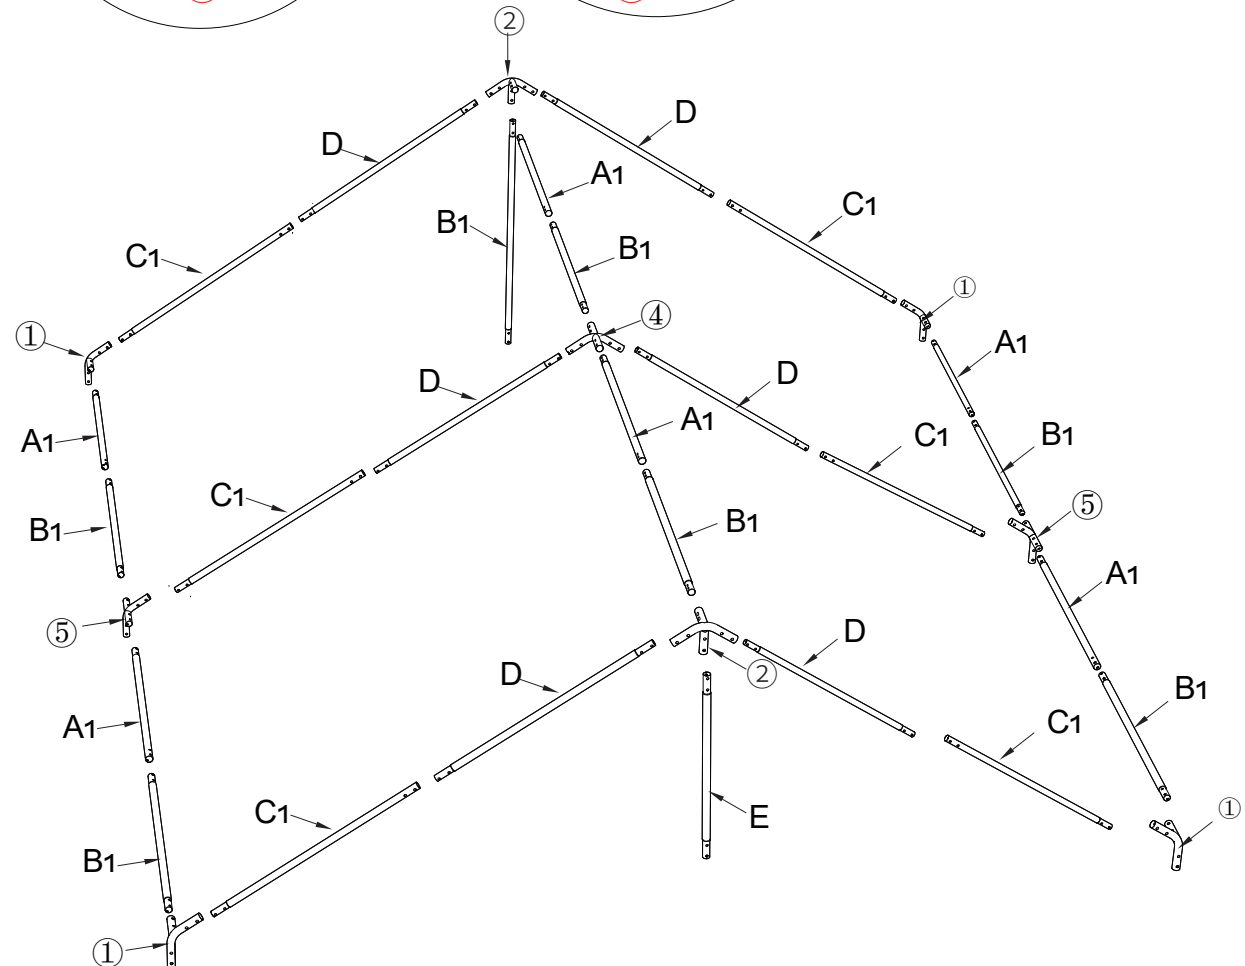

1. Sugerencia: Para mejorar la eficiencia de la instalación, se puede utilizar un destornillador eléctrico.
 2. Después de la lluvia, el techo puede acumular agua. Recomendamos usar un palo largo u otro objeto para levantar la tapa y drenar el agua; de lo contrario, el techo sufrirá la fuerza de gravedad y los ojales podrían rasgarse.
