

1. Screw pole (B) to Base (A), then pole (C) to pole (B), then pole (D) to Pole (C). Gently pull the excess cord out through the bottom of the base, making sure that no wires are caught in the threading.
2. Screw socket holder (E) to pole (D) and pull the cord through gently so that the excess cord is tucked inside.
3. Fix assembled shade (F) to socket (E) by screwing on socket ring (G).  
(Socket ring G may already be in place on the socket, please unscrew first. See Shade assembly instructions on separate sheet)
4. Screw bulb into socket, plug power cord into outlet, and power light on using the rotary switch.

#### Product Features and Information:

- 9.5W LED bulb is included.
- The bulb is not dimmable, but it can be replaced with a smart bulb if dimming is desired.
- Max watt: 150W incandescent bulb.

#### Extend Your Warranty To Five Years, Free

If you would like to extend your warranty from three years to a total of five, free, register your purchase using the brief form on our site: <https://brightech.com/pages/extended-warranty>

#### IMPORTANT SAFETY INSTRUCTIONS:

AS A SAFETY FEATURE TO REDUCE THE RISK OF ELECTRIC SHOCK, THIS LAMP HAS A POLARIZED PLUG. THIS MEANS ONE PRONG IS LARGER THAN THE OTHER. THEREFORE, THE PLUG WILL ONLY FIT IN A POLARIZED OUTLET IN ONE WAY. IF THE PLUG DOES NOT FIT FULLY IN THE OUTLET, TAKE IT OUT AND TURN THE PLUG OVER TO INSERT THE PRONGS IN THE OPPOSITE WAY. IF IT STILL DOES NOT GO IN, CONTACT A QUALIFIED ELECTRICIAN. NEVER USE WITH AN EXTENSION CORD UNLESS THE PLUG CAN BE FULLY INSERTED. DO NOT ALTER THE PLUG.

Thank you for purchasing from Brightech! We guarantee all of our products with a best-in-class warranty for any manufacturer defects. If you have any trouble whatsoever with your order, please reach out to us via our site, [www.brightech.com](http://www.brightech.com). We will be happy to assist you.
