

Compressed sofa

Thank you for purchasing the compressed sofa! To help you fully experience the comfort and functionality of the sofa, please follow these steps to help it regain its original shape after unboxing:

1. Unpack the package: Use scissors or a knife to cut open the compressed sofa bag, allowing the sofa to decompress.
2. Pat the Sofa: Pat around the sofa to help it regain its shape quickly.

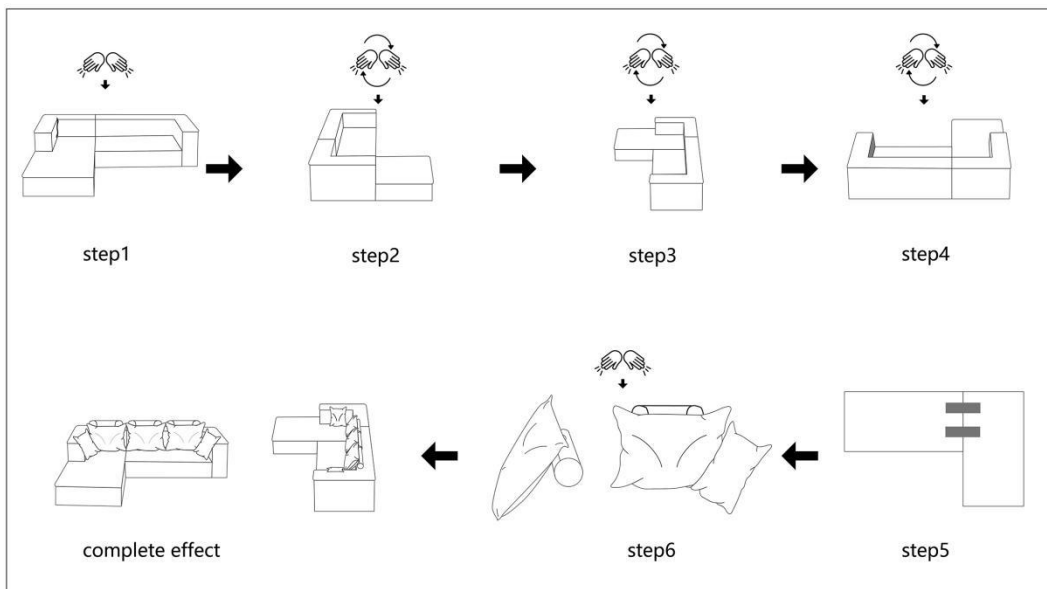

Notice:

Due to compression during packaging for more efficient shipping, the fabric may have wrinkles. These wrinkles will gradually disappear over time.

If you experience any issues such as insufficient rebound height, fabric wrinkles, fabric color variance, incorrect sofa orientation, or need assistance, please don't hesitate to contact our customer service team. Enjoy your new sofa!

Allow 72 hours for complete decompression after opening the package before use

Product Info:

Name: Compressed Sofa

Security and Compliance

This product complies with U.S. CPSC flammability requirements per 16 CFR 1640, meeting the test criteria of TB 117-2013.

Other warnings:

Keep away from fire / Limit weight:330LBS / Prevent tipping / Ensure child safety

Usage and Maintenance Instructions

Daily use suggestions:

1. Regular Rotation: It is recommended to rotate the pressure-bearing surface every 1-2 months to ensure more even wear.
2. Avoid Prolonged Sitting: Try to avoid sitting in the same position for extended periods.
3. Prevent Heavy Pressure: Do not place heavy objects on the sofa seat for long periods.
4. Keep Away from Heat Sources: Keep away from direct heat sources such as radiators and heaters, and avoid prolonged exposure to direct sunlight.

Cleaning guidelines:

1. Daily Dusting: Regularly vacuum the surface using a vacuum cleaner (with a soft-bristled brush attachment) or a clean, dry towel. Avoid using a brush attachment to prevent damaging the fabric threads.

2. Spot Cleaning: Liquid stains (such as coffee or juice): Immediately blot dry with a dry towel or sponge. Then, use a damp sponge/towel with warm water (a small amount of dish soap can be added) to wipe from the outside of the stain towards the center. Finally, wipe with clean water and dry with a hairdryer.

Stubborn stains or velvet cleaning: Use 75% alcohol. Spray with a dry sponge and wipe, or use a clean brush dipped in a small amount of diluted alcohol to brush, then dry with a hairdryer. For juice stains, you can also mix a small amount of baking soda with water and apply with a cloth.

3. Washing Instructions: The sofa cover is removable. Please follow the washing label inside for cleaning instructions. Generally, cotton, linen, or velvet materials can be washed in cold water or machine washed, but avoid using bleach. If unsure, dry cleaning is recommended. After washing, air dry naturally, avoiding direct sunlight.

4. Do not wash: Do not pour water directly onto the sofa or scrub it extensively. The cloud velvet fabric is not waterproof; water penetration can easily cause the internal sponge and frame to become damp and moldy.
