Feedback

Please give us an feedback in Listing if you are Satisfied. If not , please contact us by email.

Contact Us

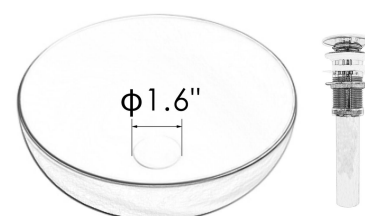

If you have any questions, please contact us via email on the order page.

We will get back to you within 2 working days.

We are glad to serve you.

Step 1

Check the received product: 1 basin + 1 drain.
Sewer diameter 1.6". Faucet aperture 1.6". (If have)

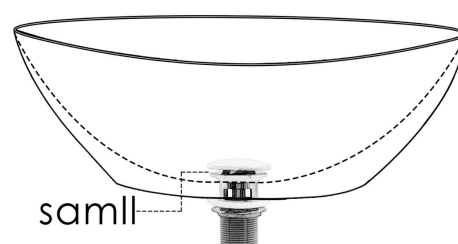

Step 2

Unscrew the drainer: the small sealing ring is tightly attached to the upper part, and the large sealing ring is reversely mounted on the thread.

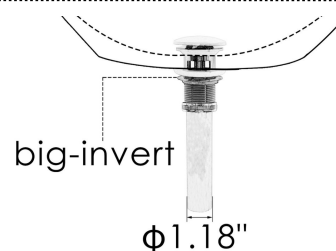

Step 3

The upper part of the drain is installed in the basin. The small sealing ring is its buffer.

Step 4

The lower part is installed under the basin. Notice! The large sealing ring, in turn, can seal the hole well. Drain diameter is 1.18".

I believe this product will improve your home. Wish you a happy life!
