DESIGN YOUR BATHROOM
AROUND YOUR BATH.
DEFINE YOUR WHITESPACE.

VAST Studio is a group of designers, industrial engineers and artisans who bring innovation and creative disruption to the time-honored traditions of ancient craft, creating pieces of functional art that will be the centerpiece of your bathing experience.

VAST Studio proudly presents our elevated concrete bathtubs and sinks. Cast with our patented technology in elevated concrete. Enjoy the smooth and inviting solid concrete interior without sacrificing the exterior elevated concrete finishes.

VAST Studio's Studio Collection of bathtubs and sinks are each cast and hand finished in Los Angeles, each available in 3 shapes and 4 finishes.
