

Assembly & Installation Instructions

IMPORTANT SAFETY INSTRUCTIONS:

- Please read these instructions carefully and completely before beginning assembly and installation
- This product must be installed in accordance with installation instructions and all safety and building codes. It is strongly suggested that all direct wired fixtures be installed by a licensed electrician
- Be sure the electricity to the wires you are working on is shut off; either the fuse is removed or the circuit breaker is turned off. Turning the power off using the light switch is not sufficient to prevent electrical shock

(Required Supply Circuit: 120V, 60Hz, Bulb 100W maximum)

WARNING:

Improper installation may cause electrical shock, fire, or equipment damage. The person performing the installation must be familiar with the construction and operation of the product and associated hazards.

Assembly Steps:

- 1 F,E → A
- 2 B,D → C
- 3 I,J,H → G
- 4 L → K
