

UNPACKING & SHAPING YOUR BRAND NEW ARTIFICIAL TREE

1. Unpack and unwrap the tree.

2. Have fun styling and shaping. Most of our products are designed with bendable leaves or branches.

3. Shape out the leaves; turn plant around and continue to style throughout.

Tip: To find the front of the tree, look for the smallest leaf or branch

4. Place in your space and enjoy it!

Remove the bottom box or foam if needed.

Interior Decorator Tip

- It's normal to have some leaves fall off your new product, in most cases they can easily connect back onto the stem from which they fell.
- To help guide you in perfectly shaping your purchase; you can always use the online image of the product as a reference point to help achieve that perfect look.

Cleaning

Keep your tree looking beautiful for years by feather dusting once a month. For the leaves, wipe with a soft cloth.
