

# Assembly Instruction

**Tools Required:** Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

**Bulb Recommended:** (1) Medium Base 150W Maximum, Alternate bulb (1) 42W CFL

**Estimated Assembly Time:** 30-45 minutes

**Preparation:** Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

## Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal. Do not subject glass parts to any shock while in operation or shattering may result.

## Package Contents

### STEP 1 – Attach Side Glass to Fixture Body

- A. Insert the Side glasses (G) into the Slot on the bottom of Fixture Body (F) properly, then place the Tab (D) pinned the Side Glass (G), secure by threading Cup Head Screw (C) into the lock hole on the top of Fixture Body (F), tighten until snug.

Figure 1

### STEP 2 – Install Bulb and Fixture Hood to Fixture Body

- A. This fixture uses standard bulb with medium screw base. Maximum 150 watts.  
B. Insert bulb and screw snugly into place.  
C. Line up the hole on the Fixture Body (F) and the mounting hole on the Fixture Hood (B), secure by threading Flat Head Screw (E) into mounting hole on the Fixture Hood (B), tighten until snug.

Figure 2

### STEP 3 – Drill Pilot Holes on Post

- A. Carefully fit the Post Fitter over the end of the Post (not supplied), making sure the Post Fitter is fully seated.  
B. Mark the drill point for the (3) Mounting Screws, using (3) Mounting Holes as reference. After marking hole locations, remove fixture from post and drill 1/16" pilot holes for screws.

Figure 3

### STEP 4 - Wire Connections

- A. Use standard wire connectors (not included) to make all wire connections. (Connectors are not included with fixture.) Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires into the Outlet Box.

Figure 4

### STEP 5 – Attach Fixture Body to Post

- A. Coat the top 1" of the Post with Clear Silicone Caulk (not supplied) and position the Post Fitter onto the Post. Be sure to seat it completely, aligning the holes in the Fitter with the 1/16" Pilot Holes drilled into the Post.  
B. Secure the Fixture to Post with (3) Mounting Screws.
