About Power Supply

There are two ways for implementing the power supply.

Directly plug the power cord to a power supply.

Connect the wires of the power cord to the power switch. (It needs to cut the power cord before connection.) It is highly recommended that this step be carried out by a qualified electrician.

-4-

Daily Maintenance

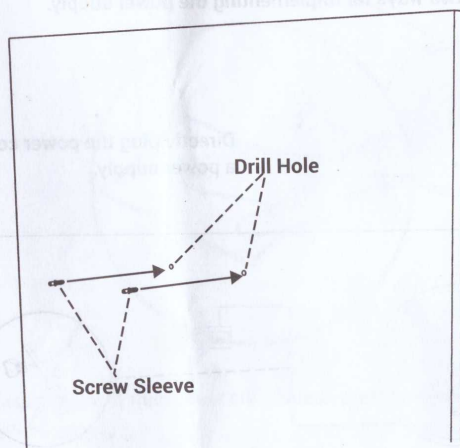

- Please use soft microfiber cloth/suede and warm water to for daily cleaning.
- Do not use any abrasive, acidic or alkaline cleaners. Avoid using sharp objects and keep heating sources away from the product.

-5-
