## VALLEY'S HEALTHY AIR JETS

Valley's air jets are one of the most hygienic on the market. Our air jets are equipped with check valves, which are backflow preventers that only allow fluid to pass through in one direction. This eliminates bacteria growth in the water, which can be harmful to one's health. A sensor has been incorporated into all of our air jets, which initiates an automatic purge cycle fifteen minutes after the system has been turned off. This blows air through all of the air lines, removing any water and foreign substances. With Valley's air jets, you can rest assured that you are using a system built for ultimate hygiene and therapeutic comfort.

*...you dream it, we create it*

# AIR JETS

## BENEFITS OF AIR MASSAGE

In an air jetting system, an air blower pushes air through multiple jets strategically installed within the bathtub. Air is pre-warmed to body temperature through a heating element within the blower for additional comfort. An air massage system relaxes your muscles, and also stimulates the production of natural analgesic hormones known as endorphins. Variable speed settings means you can choose the pressure that best fits your needs, whether that's a soft and caressing effect or a more vigorous pressure. Valley's air jetting systems offer incomparable therapeutic benefits and ultimate physical relaxation.

Valley's unique Air Jet System comes with a 600 watts heater blowing hot air into your bath. The air massage completely surrounds your body offering a thorough massage with millions of preheated air bubbles that surround every part of your body.

Simply enjoy your air massage bathtub without worrying about hygiene. Each and every time the system is used, an automatic purge cycle will clean and dry your jets with very hot air and make sure that everything is perfectly clean time after time.

No water circulates or remains stagnant in the air hoses, so no worries about proliferation of bacteria or molds.

## AIR JET CONTROL PADS

*Air Jet options will come with a Round White control pad*

ROUND PAD WHITE FINISH

## LATERAL AIR JETS

Each air jet has six lateral openings that release pressure from multiple locations within the tub for optimal relaxation. Recognized to relax the muscles, this system offers a hydromassage within the comfort of your own tub. An automatic purge cycle that begins fifteen minutes after the system has been turned off provides exceptional sanitary conditions.

014	24 JETS (BRUSHED NICKEL FINISH) + 1 ROUND LIGHT (WHITE FINISH)

## AIR ILLUSION JETS

Preserve the fine appearance of your tub with this discreet air jetting system. Small 9/64" air outlets are virtually invisible, yet still provide the ultimate hydromassage experience. An automatic purge cycle that begins fifteen minutes after the system has been turned off provides exceptional sanitary conditions.

MODEL No.	DESCRIPTION
025	16 JETS + 1 ROUND LIGHT - WHITE FINISH
026	24 JETS + 1 ROUND LIGHT - WHITE FINISH

## SANTÉ AIR JETS

This air jetting system adapts to various tubs and meets all expectations. These jets were designed with a center opening which releases powerful air pressure to provide the ultimate hydromassage. An automatic purge cycle that begins fifteen minutes after the system has been turned off provides exceptional sanitary conditions.

MODEL No.	DESCRIPTION

034	24 JETS (WHITE FINISH) + 1 ROUND LIGHT (WHITE FINISH)

## ZEN AIR JETS

The tiny holes in the Zen air jets release millions of relaxing air bubbles. These bubbles cling to your skin and help open pores, increasing blood circulation and detoxifying your body. An automatic purge cycle that begins fifteen minutes after the system has been turned off provides exceptional sanitary conditions.

# WATER JETS

## BENEFITS OF HYDROMASSAGE

In a whirlpool (water) jetting system, the water inside the tub is sucked by the whirlpool pump and redistributed through the water jets installed in the walls of the bathing shell. Hydromassage is the method of massage with water. Each human being is unique and may have different needs for their personalized hydromassage system. By considering your age, physical condition and daily activities, you can determine which system is the best for you! Water jets allow a thorough massage and relieves everyday tension. It helps to eliminate accumulated toxins in our body, such as lactic acid. Hydromassage is also great for those recovering from intensive training, working out, or muscular injury.

## WATER JETS CONTROL PADS

Take charge of your massage. The air pressure is regulated by two manual air controls and an electronic system controls the water flow.

## THIN LINE WATER JETS

These thin line round whirlpool jets have slim profiles which look subtle when installed on any tub. The mini is the smallest size with the thinnest stream of water, and the turbo is the largest with the thickest stream of water. The thinner stream of water is great for targeting specific sore spots, and the thicker stream of water can provide relaxation to an entire body part. Trims are available in chrome or white.

### OXYGEN

After the age of 30, skin cell production decreases noticeably. With 70% more oxygen than regular tap water, our Pure Bubbles System will increase the skin cell regeneration process and make your body feel glowing, radiant and plumped through the stimulation of your natural collagen production.

### PURITY

This revolutionary treatment will clear the skin by **exfoliating and removing the impurities** within the skin pores. It will lighten superficial skin imperfections and pigmentation spots while naturally blending the skin tone.

### ANTI AGE

Our Pure Bubbles System cleanses, hydrates, revitalizes and tightens the skin. You will immediately see a reduction of the fine lines and wrinkles combined with an improved, moisturized skin elasticity resulting in a truly rejuvenated and radiant skin.

# JETTING ACCESSORIES

# CHROMATHERAPY

## CHROMATHERAPY

The Chromatherapy system offers a combination of 7 basic colours and 21 blended colours to choose from. You have the option of getting one or two chromatherapy lights in chrome or brushed nickel trim. Chromatherapy is a method of harmonization and natural well-being. Each colour corresponds to a vibration with its individual speed, wavelength of rhythm.

## AROMATHERAPY

Stimulate and reinforce your body's natural defense by inducing a state of relaxation and general well-being of the central nervous system through aromatherapy. You can add any natural essential oils into the receptacle filled with water. A pump leads the air towards this receptacle and an integrated diffuser projects the natural scents of essential oil into the ambient air. Essential oils such as lemon are great for improving circulation; eucalyptus for clearing your nasal passageways; and lavender for helping with insomnia. (Please note that the essential oils are not provided with this system.)
