PRECAUTIONS & SAFETY GUIDELINES

Precautions

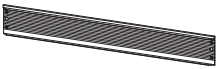

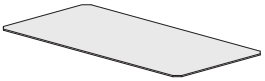

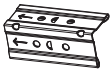

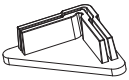

To extend service life, place the product in a cool, dry environment.

Important Safety Instructions

1. Wear protective gloves throughout the assembly process to avoid cuts from metal parts.
2. Do not stack items too high on the top of the rack to prevent tipping over.
3. Always assemble the unit on a flat and level surface. Do not assemble on carpet, as this may affect performance or create a safety hazard.
4. Do not stand on the unit or use it as a ladder.
5. Distribute weight evenly on each shelf. Always place heavier items on the bottom shelf. Do not exceed the maximum load capacity indicated for each shelf board.
6. It is recommended that assembly be performed by at least two people to ensure safety.
