Green Trace 1

D2206S44106-3570

Green Trace I is a fine art print of a Maranta Pardina leaf that evokes the charm of a vintage accademia gallery wall of botanical illustrations. Native to the tropical regions of Central and South America, this leaf is an intriguing and visually alluring botanical specimen often associated with the “prayer plant” family. With its masterful attention to detail, the work has a feather-like quality that reveals its inherent beauty. The leaf’s surface boasts a striking checkerboard pattern of hunter-green and silvery-green patches that creates a mosaic-like appearance. With its captivating color palette and intriguing design, this plant has become a sought-after option for enthusiasts of unique botanical prints.

An exquisite display of color and depth in a famous botanical form, Green Trace 1 is part of the carefully curated ART by TA Collection.
