Table Leg	4pcs
Center Plate	1pc
Lazy Susan	1pc
Lazy Susan Frame	1pc
Short Bolt	8pcs
Long Bolt	8pcs
Lock Washer	16pcs
Flat Washer	16pcs

Assembly

We suggest you assemble the product on a soft flat surface to protect the finish. Two people are required to assemble this product

- Step 1.** Place the TABLETOP face down on a soft flat surface. Attach the legs to the table using SHORT BOLTS, FLAT WASHERS and SPRING WASHERS. The spring washer is fitted against the bolt head and the flat washer between the table top and lock washer. Finger-tighten the bolts. Repeat this process for each of the four legs.
- Step 2.** Place the CENTRE PLATE between the four legs. Align the holes and using the LONG BOLTS, FLAT WASHERS and LOCK WASHERS attach to the legs. Use the same process when attaching the bolts. Finger-tighten only at this stage.
- Step 3.** When all bolts and washers are in place, tighten all bolts firmly using the WRENCH, but do not over-tighten. Tighten the bolts to the table-top first ensuring that you tighten the bolts in a diagonally opposite order.
- Step 4.** Using 2 people, turn over the assembled table and attach the LAZY SUSAN FRAME, with the rubber pads facing upwards, into the hole on the table top. Place the LAZY SUSAN onto the frame. If inserted correctly, the lazy susan should move freely.

Caution:

This unit is manufactured with cast aluminum parts and is brittle. DO NOT force any part of the assembly and DO NOT over-tighten the bolts. This could result in serious damage.
