### A 4WW Standard Water Wiggler®

The Water Wiggler features a unique agitator action that creates continuous ripples that help prevent the spread of West Nile Virus by eliminating stagnant water in bird baths. And, moving water attracts birds!

The Water Wiggler is easy to install. Just place and go! There is no wiring and no plumbing. It operates on two D-cell batteries (not included) for up to two months of continuous use under normal conditions. The Standard Water Wiggler is completely silent. Patented.

### B Water Wiggler® with Pottery Cover

- 5WWG-S with Sage Cover
- 5WWG-T with Tan Cover
- 5WWG-W with White Cover
- 5WWN with Unglazed Cover

For those who want a more dressy Water Wiggler, Allied Precision is proud to offer the 5WW Water Wiggler with Pottery Cover. It features the same performance as the Standard Water Wiggler enhanced by a natural ceramic Cover. Four appealing Covers are available: Unglazed, Sage Glazed, Tan Glazed, and White Glazed. The Pottery Covers are available separately for those who already own the Water Wiggler. Patented.

### C 7WW Aurora Water Wiggler®

If your bird bath is in your favorite evening spot, the 7WW Aurora Water Wiggler is the one for you. The Aurora Water Wiggler will light up at dusk and provide three hours of pleasing colors as the dome slowly shifts through the spectrum. A sensor on the underside of the Aurora Water Wiggler turns the unit on at dusk. The lights will automatically shut off after three hours and come back on the following evening. The Aurora Water Wiggler will continuously agitate the water to prevent mosquitoes from laying eggs even when the lights are off. Patented.

### D 8WW Solar Water Wiggler®

The 8WW Solar Water Wiggler includes all of the great features of the Standard Water Wiggler, but it's powered by the sun. Just place it in your bird bath and it will operate unattended until you remove it. For best results, the Solar Water Wiggler should be used in full sunlight. Patented.
