

INSTALLATION INSTRUCTIONS

LED FLUSH MOUNT LIGHT

ASSEMBLY AND INSTALLATION

1. Turn off the power. Attach connector (provided) to AC cable from Junction box.
2. Remove the installation bracket from the back of the fixture.
3. Fix the bracket to Junction box using the two screws (provided) - pull the AC cable with connector through the bracket center hole.
4. Connect the orange connectors and connect supply ground wires to wires on the fixture with ground wire nuts.
5. Push and feed all wires up into Junction Box as you raise the fixture up into place. Make sure to correctly line up the locking grooves to the mounting bracket.
6. Install the fixture to the mounting plate by aligning the mounting tabs to the slots in back of the panel using the arrow labels on the side of the panel as a guide. Slide and lock the panel into place.
7. Remove arrow labels once the panel is locked into place.

SAVE THESE INSTRUCTIONS AND WARNINGS.

This product is designed for dimming with many 120V Leading Edge (LE) and Trailing Edge (TE) phase control dimmers. Compatible with most residential type dimmers available on the market. The dimming performance will depend on kinds of dimmer and dimmer settings. (not provided).
